PREFACE

I have published this second edition of my book at the urgent demand of many pupils and friends. That it may be to others, as it has been to them, an inspiration to conquer new fields of cooking is my earnest desire.

The recipes in the main are designed for the use of the inexperienced housewife who needs smaller portions than are treated of in many more pretentious books than mine.

The more mature housewife with the larger family will have acquired the skill which will enable her to enlarge upon these recipes to meet the needs of her family.

A CAREFUL STUDY OF THE CHAPTERS DEVOTED TO ENTREES AND LEFT OVERS WILL SHOW THE WAY TO AN ECONOMICAL USE OF MANY ARTICLES ORDINARILY CONSIDERED VALUELESS. Thus a few teaspoonsful of one vegetable, added to some left over, will often give a new combination both appetizing and nutritious.

I have demonstrated every recipe in this book and feel sure that by carefully following directions given, the beginner in cooking may fearlessly enter upon the fascinating study of the art of cooking. An art which, the more it is studied, the more interesting it becomes.

With grateful recognition of the many friends who have given their choicest recipes, and with them kindly words of encouragement, which have inspired me to new efforts,

I am cordially,

MARY LEWIS HAINES.

CHAPTER I

Eggs and Hot Breakfast Beverages.

RECIPE 1. BOILED COFFEE.

Allow one heaping tablespoon medium ground coffee for each person, then add one more tablespoon "for the pot." For each spoonful of coffee allow one cup cold water. Some persons add a pinch of salt to coffee. Well washed eggshells are used to clear coffee as it cooks. When strict economy of eggs is not needed an egg can be thoroughly stirred up with the dry coffee, after it is measured. Then put this coffee and egg into a granite coffee pot, add the cold water, stir well, and let it come very slowly to boiling point. The slower it is in cooking the better coffee will be. Do not let it cook more than a minute after it boils. Then add a quarter of a cup of cold water to coffee and set it back to let grounds settle for a few minutes. Cold water is heavier than coffee and carries the grounds to the bottom of pot. Sometimes there are grounds in spout of coffee pot, so it is wise to pour out a cup first, then pour it back into pot. Serve very hot.

RECIPE 2. PERCOLATED COFFEE.

This method requires no boiling and is preferred by many. Coffee must be ground finer than for boiled coffee. The cold water is placed in the bottom of the pot, the coffee in a receptacle prepared for it. It is then allowed to come slowly to the boil and as it does so it rises through a small tube and falls back over and thereby gradually draws the strength from the coffee. One tablespoon coffee and one cup of cold water is allowed for each person just as in making boiled coffee. No egg is required by this method.

RECIPE 3. BLACK COFFEE.

Allow two tablespoons coffee for each cup water, make in same way as for boiled coffee or percolated coffee.

RECIPE 4. CAFE AU LAIT.

Use milk instead of water in making the coffee, which must be made by the boiled coffee method.

RECIPE 5. COCOA.

For each cup of cocoa allow one teaspoon grated cocoa. Wet the cocoa with a little water or milk. Allow one cup milk or water for each cup of cocoa. Put the liquid on to boil, add the moistened cocoa, stir in smoothly, let come to boil. Serve at once. Milk makes the nicest cocoa.

RECIPE 6. CHOCOLATE.

Allow one teaspoon melted chocolate or grated chocolate for each cup of milk. Follow directions for making cocoa. Whipped cream served with chocolate makes a very delightful addition and is very nutritious.

RECIPE 7. TEA.

Allow one generous pinch of tea for each person, and one cup boiling water. Scald teapot, pour out water, add tea, cover with freshly boiled water. Let stand only a moment or two. Serve hot. If desired, one or two whole cloves or a slice of lemon may be put in the tea-cup before pouring the tea. In this case do not serve cream with it.

RECIPE 8. ICED TEA.

Make a nice infusion of tea, let stand a few minutes, then pour off the grounds and set away to get cold. If hot tea is used allow plenty of ice to chill. Lemon juice, pineapple juice, mint leaves are all pleasant additions to iced tea.

RECIPE 9. ICED COFFEE.

Iced coffee is made in the regular way, then chilled and served usually with cream and sugar.

Eggs.

RECIPE 10. BOILED EGGS.

Put required number of eggs into a saucepan of cold water. Let them come to the boil. The length of time will be determined by altitude somewhat, for instance, in Colorado it takes much longer to boil eggs than in lower altitudes.

RECIPE 11. FRIED EGGS.

Bacon or ham drippings make an ideal fat to fry eggs. Break required number of eggs gently into hot fat, let cook until desired consistency.

RECIPE 12. FRIED EGGS COUNTRY STYLE.

Put ham or bacon into frying pan, break eggs over it, cook until desired consistency.

RECIPE 13. POACHED EGGS.

Poached eggs are a most delicate way of serving eggs. It takes a perfectly fresh egg to poach well. Have a frying pan two-thirds full of boiling salted water, allowing one-half teaspoon salt to a pint of water. Break eggs, one at a time, into a saucer and slip them gently into the water, which must be kept at boiling heat, but not bubbling. A regular poaching vessel is nice, or round muffin rings can be used. If cooked in water in pan, allow them to cook until a white film shows over the top. It is best to pour a little of the hot water from pan over them to hasten cooking process, if you like eggs soft. Time of cooking depends upon whether eggs are to be cooked soft, medium or well done. When cooked, have ready some circular pieces of toasted bread, place an egg on each round, put a small bit of butter on each egg and a dash of paprika. Serve hot.

Eggs can be poached in left-over chicken gravy, served on toast covered with chicken gravy. A little minced parsley can be added for a change, or a pimiento or a green pepper minced and placed on top of each egg. Eggs poached in a No. 1 White Sauce are very nice. Serve on toast, pour white sauce over them.

Poached eggs with mushrooms are made as follows: Poach eggs, place on rounds of toast, cover with a brown mushroom sauce, and place a sauted mushroom on top of each egg.

RECIPE 14. EGGS GERMAN STYLE.

Bake a sufficient number of medium-sized potatoes until tender and mealy. Cut a slice from the side of each one and gently remove contents. Mash potato pulp, season to taste and add enough milk or cream so that pulp is softened, beat smooth. Return mixture to potato shells and make a hollow in each one, into which break an egg, season it with salt, pepper and paprika and place back into oven and bake until egg has set. Have a cup of hot White Sauce No. 1, stir into it two tablespoons grated cheese. Serve in a sauceboat.

RECIPE 15. SCRAMBLED EGGS.

Put a tablespoon or two of fat into an omelette pan, melt it, put into it the required number of eggs, let cook for a minute, then thoroughly stir the eggs through the fat and season to taste. Cook until done to suit taste. Serve at once very hot.

RECIPE 16. SCRAMBLED EGGS NO. 2.

Allow about one tablespoon milk or water for each egg. Beat eggs slightly, add milk, season to taste. Heat an omelette pan, add sufficient butter (ham or bacon fat is nice), let heat a minute, pour in the eggs, stir constantly from the bottom of the pan until done. Serve on toast if desired. Scrambled eggs can have minced cold boiled ham, parsley, pimientos, green peppers, tomatoes or cooked onions added to them while cooking.

RECIPE 17. SHIRRED EGGS.

Eggs can be shirred in a saucer, custard cup or any flat little dish, but there are little pans called "shirrers," which come for that purpose. Add a small lump of butter, let it melt, turn in egg, let it bake until set. Season to taste. A few buttered bread crumbs can be scattered over the eggs before placing them in the oven if desired.

RECIPE 18. PLANKED EGGS.

Make a No. 1 White Sauce and into it put any left-over meat or fish cut into inch pieces. Spread this mixture on a plank. Directions for using "plank," see index. Make a border of cold mashed potatoes, using a pastry tube to force the potatoes through. With this work out some potato nests deep enough to each hold an egg. Make just enough nests to serve the required number of persons. Into each nest break an egg, cover with a few buttered bread crumbs, season to taste. Place in the oven or broiler for the potatoes to brown and the eggs to set. Serve on the plank. Garnish with parsley.

ESCALLOPED EGGS (see Index).**RECIPE 19. PLAIN OMELETTE.**

For each egg allow one tablespoon milk or water. Water makes a more tender omelette. One egg is usually sufficient for one person. For each egg allow besides the milk or water one level teaspoonful butter, one-eighth teaspoonful salt. Pepper to taste.

Beat eggs slightly, do not separate, add liquid and seasonings. Melt butter in omelette pan and turn in the omelette. As it is cooking, prick it frequently so that the liquid can all be evenly cooked. When it is cooked to taste (rare, medium or well done), take pan in left hand and with right hand gently loosen omelette with a spatula or case knife. Tip pan until it is nearly vertical, fold over the omelette and turn onto a hot platter which you have all ready for it. Serve at once very hot.

Any kind of an omelette can be made by adding the article, ready cooked, folded into the omelette just before removing it from the pan. In this way we get a tomato, onion, parsley, cheese, ham, chicken, etc., omelette. See that the article is hot before adding it to omelette.

RECIPE 20. OMELETTE PUFF.

- 1 egg for each person
- 1 tablespoon milk or water for each egg
- 2 teaspoons butter for each egg
- Season to taste

Separate yolks from whites. Beat yolks until they are lemon colored, then add seasoning to taste and the hot water or milk. Beat whites until they are stiff as possible. Into them fold yolks until well mixed. Do not beat, just fold them in. Turn them into an omelette pan in which you have melted the butter. See that the sides of the pan are well covered with the butter, as well as the bottom. Put pan over a slow fire, turning the pan frequently around so that the bottom of the omelette will brown evenly. When omelette has risen to its full height, put pan into oven to finish cooking the top of omelette. The entire cooking of omelette may be done in oven if desired. When omelette is done, it will not stick to the finger when lightly pressed. When ready to remove from pan have a hot platter ready for it, gently loosen omelette from sides and bottom of pan, tip pan vertically, slip a spatula or a case knife gently under omelette, fold it over and turn out onto the platter. Garnish with a few sprigs of parsley.

RECIPE 21. JELLY OMELETTE.

Make a plain omelette, but omit pepper and add instead one teaspoon sugar. When ready to remove from pan add jelly on the top, turn over omelette, serve hot.

RECIPE 22. CREAMED EGGS ON TOAST.

3 hard boiled eggs	1 cup No. 1 White Sauce
4 slices of toast	Season to taste

Boil eggs until hard, then separate whites from yolks. Put yolk through the ricer, then either chop the whites or put them through ricer. Pour hot white sauce over toast, cover toast and sauce with a layer of the riced yolks, then on top the whites of eggs. Sprinkle with paprika, salt and pepper. A pimiento or a green pepper minced is nice also.

RECIPE 23. SOUTHERN EGGS.

Spread a layer of hot boiled rice on a buttered platter, then season well with melted butter, lemon juice and finely minced parsley. Poach required number of eggs so that they are perfectly shaped, arrange on the rice and sprinkle with parsley.

RECIPE 24. EGGS BAKED IN TOMATO SAUCE.

Strain one pint of tomatoes, season with salt, pepper and a little onion juice, and cook until hot and smooth. Pour onto a buttered baking dish. Carefully break eggs into the sauce and bake in the oven until the eggs are set.

RECIPE 25. SCRAMBLED EGGS WITH CHEESE.

Allow for each person 2 eggs, 2 tablespoons grated Swiss cheese, 1 tablespoon butter. Put butter and cheese on to heat. When slightly melted add beaten eggs, stir well so that eggs do not stick to sides of pan. Serve on toast if desired.

RECIPE 26. SPANISH EGGS.

Cook in two tablespoonfuls of butter, one tablespoonful of finely chopped onion and a teaspoonful of chopped bell pepper. After two or three minutes add one cup of tomatoes, one teaspoonful of salt, one tablespoonful of sliced mushrooms, one tablespoonful of capers and four eggs lightly beaten. Stir until thickened and serve on slices of toast.

RECIPE 27. EGGS BAKED IN WHITE SAUCE.

2 tablespoons butter	$\frac{1}{4}$ teaspoon salt
2 tablespoons flour	$\frac{1}{4}$ teaspoon pepper
1 cup milk	

Melt butter, add flour, milk and seasoning. Stir until it thickens. Place one-half the sauce in flat baking dish, break four eggs gently on sauce, cover eggs with rest of white sauce and a few buttered crumbs. Set dish in pan of hot water and place in oven, bake about ten minutes. Grated cheese is a nice addition to this dish.

RECIPE 28. EGGS AND MUSHROOMS IN CREAM.

Allow one-eighth of pound of fresh mushrooms to 4 eggs. Melt a tablespoon of butter in the omelet pan. Add the mushrooms, peeled and trimmed, with a half teaspoon of salt and a sprinkling of pepper and two drops of lemon juice. Cover pan and let mushrooms simmer gently for ten minutes over a slow fire. Add two tablespoons of cream, let the cream and mushrooms cook just a moment longer, then place four nicely poached eggs on hot toast and pour hot mushrooms and cream over the eggs.

RECIPE 28B. AUSTRIAN TOMATOES.

Cut each tomato required in halves. Shape some sausage meat into round cakes. Fry each cake brown on both sides, and when cooked flatten them out a little or make them match the tomatoes in size. Lay a sausage cake on each half of tomato, on that put half a slice of bacon and then the second half of tomato. Heat the tomatoes in a quick oven until they are tender, but not broken. Put a piece of parsley stalk into the top of each tomato.

RECIPE 28C. POACHED EGGS IN POTATOES.

Wash your potatoes, bake until tender, cut in halves lengthways and scoop out the soft part. Rub half of the potato puree through a sieve, add one tablespoonful of white sauce, with seasoning of salt and pepper. Line the shells of the potatoes with this. Then put in a layer of white sauce, sprinkle with grated cheese, and upon this place a poached egg. Sprinkle with grated cheese and pour over more sauce. Place on a buttered baking tin and brown in a hot oven.

RECIPE 29. SCRAMBLED EGGS AND SAUSAGE.

One-half pound sausage meat broken into very small pieces, fried (turning often) a delicate brown. Over this pour a sufficient number of well beaten eggs, about

three eggs for two persons. Scramble well, and as soon as eggs have set, remove and serve at once on toast or not, as desired.

RECIPE 29B. CODFISH AND POACHED EGGS FOR 2.

2 rounds toast	$\frac{1}{2}$ cup No. 2 White Sauce
2 poached eggs	$\frac{1}{2}$ cup codfish
Season to taste.	

Soak codfish over night in cold water. Make No. 2 White Sauce, add codfish. Pour over the toast and on top place neatly poached eggs. Serve very hot.

RECIPE 30. ECONOMICAL OMELETTE.

This is a formula for a good omelette: Use one egg and two tablespoonfuls of sweet milk (to each portion). Salt added to yolks after beating until thoroughly mixed and light. Dissolve one tablespoonful of cornstarch in the milk and add to the beaten yolks. Season to taste. Add the whites beaten dry. Pour into well buttered hot pan, and follow directions in Recipe 20 for cooking the omelette.

RECIPE 31. EGG NESTS.

Rounds of toast covered with minced chicken, in white sauce or chicken gravy. Beat whites very stiff. Spread over chicken. Make a "well" in center, put yoke in. Bake until "set." Season and serve at once.

RECIPE 32. SWISS EGGS.

Boil eggs about 30 minutes. Remove shells. Take for four eggs one cup finely minced cooked meat, add yolk one raw egg, one-half cup dry bread crumbs, enough milk or water to make meat mixture. Stick well together. Surround each hard boiled egg with the meat mixture. Roll in dry bread crumbs. Fry in deep fat. Serve with any nice sauce.

CHAPTER II

Canapes and Sandwiches.

RECIPE 33. CANAPES AND SANDWICHES.

Canapes are served as the first course of a dinner or luncheon and sometimes take the place of clams or oysters on the shell. They are made of pieces of bread which are cut about one-fourth of an inch thick. They can be cut in circular form with a large biscuit cutter, or in long narrow strips about four or five inches long by two wide. They can be toasted or browned in frying pan with a little butter. On top of this spread any of the mixtures to be found under the recipes for canapes. They are served both hot and cold.

RECIPE 34. SARDINE CANAPES.

Toast required number of slices of bread. Bone sardines, mash them and add to them a very little creamed butter, a little paprika, mustard and Worcestershire sauce, or instead of Worcestershire sauce use a few drops of Tabasco sauce. Mash yolk of one hard boiled egg and add to the sardine mixture. Now spread the toasted slices with this mixture and put a dainty row of minced pimientos, or the white (minced) of the hard boiled egg, on the outside edge of the canape. One slice of a stuffed olive, placed in the center of canape on top of the sardine mixture, gives a pretty touch to canape. Serve cold.

RECIPE 35. CHEESE AND OLIVE CANAPES.

Prepare toast in the usual manner. Cut into any desired shape, allow one piece for each person. Grate or mash some sharp cheese and mix it with an equal amount of butter. Rub smoothly together. Mince a few olives, also one pimiento or one green pepper. Spread the cheese mixture on toast, then a thin layer of the minced olives, then a very little pimiento or green pepper. In center lay one slice of a hard boiled egg. Sprinkle lightly with salt and paprika. Serve cold.

RECIPE 36. SMOKED SALMON CANAPES.

Prepare required number of slices of toast, allowing one for each person. Cut in any desired shape. Mix together some plain mayonnaise with some smoked salmon, season with mustard, lemon juice, a few drops of Worcestershire sauce. Rub into a smooth paste and spread on the toast. Place half of a stuffed olive in center of the canape. Sprinkle with a little paprika. Serve cold.

RECIPE 37. LOBSTER OR CRAB CANAPES.

Prepare toast. Use equal parts of either crab meat or lobster meat with some thick white sauce. Add a few drops of Tabasco sauce or Worcestershire sauce, a few drops of lemon juice, and spread mixture on the toast. Sprinkle with buttered bread crumbs and brown in the oven for a few minutes. Serve hot. A thin layer of cheese can be added before the bread crumbs if desired.

RECIPE 38. CAVIARE CANAPES.

Equal parts of minced onions and caviare. Season with lemon juice, add a few drops of Worcestershire sauce. Spread on toasted rounds of bread and dash lightly with paprika. Serve cold.

RECIPE 39. PIMIENTO CANAPES.

Rye bread is nice for a change. Cut it in round pieces and cook in frying pan until a little brown, with either butter or bacon fat. Mince some pimientos very fine, spread a thin layer of them on the bread and cover them with some sharp grated cheese. Put into the oven long enough to melt the cheese. Serve at once very hot.

RECIPE 40. CHEESE CANAPES.

Toast. Spread thickly with a layer of sharp grated cheese. Sprinkle with paprika. Put into oven and bake until the cheese has melted. Serve at once very hot.

RECIPE 41. TOMATO CANAPES.

Cut a sufficient number of slices of bread one-quarter of an inch thick, saute them in a little butter. Cut some firm, ripe tomatoes into slices. Fry them in

deep fat, then place them on the rounds of bread, one on each, season lightly with salt, pepper and paprika, spread a very thin layer of mayonnaise on each tomato, then one thin slice of cucumber, and on the top a slice of hard boiled egg or some chopped egg. Dust a little paprika on the eggs.

RECIPE 42. CHICKEN CANAPES.

Mince equal parts of the breast of a chicken with some tender celery, mix with this enough mayonnaise to moisten it well. Season with salt, pepper, paprika and a little dry mustard. Spread on toasted rounds of bread, make a row of minced whites of hard boiled eggs around the outside edge of canapes, then inside of that place a row of the minced yolks of eggs, and directly in the center of the canapes place one slice of a stuffed olive. Have one or two stuffed olives on the plates with the canapes.

CHAPTER III

Soups.

RECIPE 43. BEEF STOCK.

6 pounds of beef shin bone and meat
1 tablespoon salt
3 quarts of cold water

Cut meat in pieces about two inches in size, cover it with the cold water and let it stand for an hour. Then put it over a very slow fire and let it simmer for five or six hours. Skim it frequently, then strain it through a cloth and set away to get cool, when all the fat can easily be removed from the top. This stock will keep for several days in cool weather, but should be scalded every day in warm weather if it is not being used.

RECIPE 44. FISH STOCK.

The trimmings of skin, the head and bones of fish can all be utilized for fish stock. When cutting up fish for fillets these parts are discarded and should be cooked at once and can be reserved for several days as the base for any of the fish sauces or soups. To make stock, cover bones, skin and head (if you have it) with a quart or two of cold water. The amount of water will depend upon how much fish you have. Into this water with the fish add one onion, three or four slices of carrots, several peppercorns, three or four whole cloves, a stalk or two of celery, a sprig or two of parsley and enough salt to season. Let come slowly to a simmer and cook about thirty minutes. Strain and it is ready to use or can be set away for a few days until desired. If it is warm weather, bring it each day just to the boiling point, and in this way will keep nicely until wanted. If desired, some of the meat of the fish can also be added at the time the stock is being made and will make it that much nicer. The head of the fish is very rich in gelatine and will make a very thick jelly in the stock if used in the right proportion.

RECIPE 45. WHITE STOCK NO. 1.

6 pounds knuckle of veal 3 quarts of water
1 tablespoon salt

Follow process for making beef stock, using veal instead of beef.

RECIPE 46. WHITE STOCK NO. 2.

1 good-sized fat hen 3 quarts of water
1 tablespoon salt

Wash, singe and disjoint one hen, which has been previously "drawn." Cover it with the cold water and let simmer until the meat drops from the bones. Season when it is about half done. Strain through a cloth and set away to let the fat rise to the top. This fat can be saved and used to saute articles. The chicken stock is nice with rice, spaghetti, macaroni, tomatoes, sago, noodles, corn, okra, etc.

RECIPE 47. BROWN STOCK.

Add a tablespoon kitchen bouquet or caramel to the stock. This will give it a delicate brown color nice for consomme. Any beef extract can be used, one teaspoon to each cup of boiling water, which will make a palatable brown stock.

RECIPE 48. SOUP STOCK FROM LEFT-OVER BONES AND MEAT.

Left-over meats are somewhat deficient in flavor, but make very good stock with the addition of judicious seasoning. Cover meat and any bones with a sufficient amount of cold water. Let it come slowly to a simmer and cook for two or three hours. Cook with the cover on the pot, so that flavor may be retained as much as possible and liquid not boiled away. A very little fresh meat added will give an improved flavor. Cook any desired vegetables with the stock, such as a few stalks of celery, a little parsley, an onion, a carrot in slices, a few peppercorns, two or three whole cloves and enough salt to season. If you desire to use it at once use a little tissue paper to absorb any fat floating on the top. If set away over night the fat can be readily removed the next day. Meat from the shin bone makes a stiff jelly when cooked down to a strong broth. This will keep several days in a cool place and is used for rich sauces and for Aspic Jelly (see Index).

RECIPE 49. TURKISH SOUP.

For each cup of Brown Stock allow

- | | |
|--------------------------|-------------------------------|
| 1 tablespoon well washed | 1 level teaspoon flour |
| rice | 2 whole peppercorns |
| 1 slice of onion | $\frac{1}{4}$ cup of tomatoes |
| 1 level teaspoon butter | $\frac{1}{4}$ teaspoon salt |
| Pinch of celery salt | |

Simmer tomatoes, onion, a bay leaf, peppercorns and celery salt together for thirty minutes, while the rice is cooking with brown stock in another pot. When tomato mixture is done and rice is tender, add tomatoes to the brown stock and rice. Rub the butter with the flour until it is blended well. Strain soup and add flour and butter. Cook until it thickens a little. This soup can be served unstrained if desired.

RECIPE 50. CREOLE SOUP.

- | | |
|--------------------------------|-------------------------------|
| 1 pint brown stock | 3 tablespoons minced |
| 1 cup tomatoes | green peppers |
| 2 tablespoons minced | 2 tablespoons butter |
| onions | 2 tablespoons flour |
| $\frac{1}{2}$ teaspoon vinegar | 1 tablespoon horseradish |
| 2 tablespoons boiled rice | $\frac{1}{4}$ cup cooked okra |
| or Marconi rings | $\frac{1}{2}$ teaspoon salt |
| 6 whole peppercorns | |

Boil the stock, onions, peppers, vinegar, horseradish and tomatoes and seasonings for twenty minutes. Melt the butter, add flour, stir into the soup, then add the boiled rice, spaghetti, macaroni or okra.

RECIPE 51. NOODLE SOUP.

One egg, beaten well with one-fourth teaspoon salt. Add enough flour to make a thick dough. Roll out very thin. Let it stand and dry for four or five hours. Then roll it up like a jelly roll and cut off very thin slices. Boil in any stock for five minutes. Season to taste.

RECIPE 52. JULIENNE SOUP.

Cut a sufficient quantity of raw carrots and turnips into very thin long strips. Cook them in salted boiling water until tender, when the water should be absorbed. Add these vegetables to a soup stock, add a few tablespoonsful of cooked peas and string beans. Serve very hot.

RECIPE 53. TURKEY SOUP.

Use the carcass from a roast turkey, break it up in convenient sized pieces and cover with cold water and let simmer for several hours. The seasoning from the stuffing which will cling to the bones usually gives a nice flavor, but any seasoning desired can be added. Strain the stock and use it as the base for any desired soup. Turkey stock is especially nice when added to.

RECIPE 54. TURKEY SOUP WITH CORN AND TOMATOES.

1 pint of turkey stock	½ bay leaf
1 cup tomatoes	salt, pepper and pap-
½ cup corn	rika to taste

Let simmer for ten minutes, serve very hot.

RECIPE 55. RICE CHICKEN SOUP.

Cook one-half cup of well-washed rice in just enough boiling water to keep it from burning. When it is tender add it to two cups chicken stock. Season to taste.

RECIPE 56. HAMBURGER SOUP.

½ pound Hamburger	1 medium onion
¼ teaspoon salt	1 bay leaf
1 pint cold water	1 tablespoon minute tapi-
3 peppercorns	oca
1 potato diced	1 pint boiling water
1 carrot	

Put hamburger, cold water and salt to soak, let stand thirty minutes. Put diced carrot, potato, bay leaf, minced onion and peppercorns into boiling water and cook thirty minutes. Now turn the hamburger mixture into the vegetable mixture, add one tablespoon minute tapioca and let soup simmer for five minutes. Remove the bay leaf, serve very hot. If you have any tomato, corn, lima beans, string beans—in fact, almost any vegetable as a left-over—it can be added to soup. Left-over macaroni or spaghetti and cheese can be used.

RECIPE 57. VEGETABLE SOUP.

Cut up a sufficient amount of soup vegetables, cover with just enough hot water to keep them from burning, boil until they are tender, when the water should be just about cooked away. Add these vegetables to a sufficient

quantity of the stock, season with salt, pepper to taste. Serve very hot. Do not boil vegetables with the stock when it is in the making, unless intending to use it all at once, as the stock will sour more easily.

RECIPE 58. RICE TOMATO SOUP.

Follow directions for making rice chicken soup, adding to it one-fourth cup tomatoes, either left-over stewed, fresh or canned. Season to taste. A little onion salt or onion juice can be added.

RECIPE 59. CLEAR TOMATO SOUP.

For each cup of stock add one-half cup of tomatoes. Simmer until the tomatoes are tender. Mash through a puree strainer. Season to taste. One or two cloves, a pinch of nutmeg or mace are nice with this soup. A little celery or onion salt can be added for a change. Whole black peppercorns are preferable to the ground pepper in seasoning soups of any kind.

Cream of Vegetable Soups.

RECIPE 60. CREAM SOUP NO. 1.

1 tablespoon butter	¼ teaspoon pepper
1 tablespoon flour	⅛ teaspoon paprika
2 cups milk or cream	1 cup any cooked vegetable
1 bay leaf	½ teaspoon salt

Melt butter, add flour and then milk. Simmer until it thickens, add seasoning. Last add any vegetable desired. The vegetable used will determine what kind of soup it will be—cream of corn, cream of spinach, etc.

RECIPE 61. CREAM SOUP NO. 2.

1 cup White Stock	½ teaspoon salt
1 cup milk or cream	¼ teaspoon paprika
1 tablespoon butter	6 whole peppercorns
1 tablespoon flour	

Melt butter, add flour, then milk and stock. Stir until it thickens, season to taste. For each cupful allow one-fourth cupful cooked vegetables.

RECIPE 62. CREAM OF RICE TOMATO SOUP.

2 cups No. 1 or 2 Cream $\frac{1}{4}$ cup cooked rice
 Soup $\frac{1}{4}$ cup cooked tomatoes
 Heat together, season. Serve hot.

RECIPE 63. RICE-CHEESE SOUP.

2 cups No. 1 White Sauce Season to taste.
 $\frac{1}{4}$ cup grated cheese 1 tablespoon minced
 1 cup cream parsley can be added

RECIPE 64. CREAM OF TOMATO.

2 cups No. 1 or 2 Cream $\frac{1}{4}$ teaspoon soda
 Soup 2 whole cloves
 1 cup stewed tomatoes pinch nutmeg
 Salt to taste

Simmer the tomatoes until smooth and tender, add the soda to them. Strain through a puree strainer. When just ready to send to the table add tomato puree and serve at once. A teaspoonful of sugar can be added to tomatoes when they are cooking if desired. One-fourth teaspoonful onion salt is also nice. Add the tomatoes to the Cream Soup, and not the soup to the tomatoes, then soup will not be so apt to curdle.

RECIPE 65. SURPRISE SOUP.

Pour into a stew pan the water from one can peas and one can of asparagus. Add one pint milk, one tablespoon Worcestershire sauce, two tablespoons butter, one-half teaspoon salt, one-quarter teaspoon each of white pepper and paprika. Thicken with one tablespoon corn-starch. One chopped hard boiled egg can be added for a change.

Cream Soups.

RECIPE 66. CREAM OF FISH SOUP.

For all ordinary fish chowders make a No. 1 Cream Soup, then add one-fourth cup cooked fish for each cup cream soup. Some variety of white fish is preferable, though salmon is also very nice. Rub the cooked fish through a strainer. Add to hot soup and serve at once.

RECIPE 67. FISH CHOWDERS.

If left-over fish is used carefully remove the skin and bones. Rub fish through a strainer. Cover bones and skin (head and tail also, if you have them) with one pint of cold water and let simmer down to one cup of fish stock.

1 sliced onion	1 cup fish stock
2 tablespoons small cubes salt pork	1 cup milk
1 cupful potato cubes	3 peppercorns
$\frac{1}{8}$ teaspoon paprika	1 whole clove
$\frac{1}{4}$ teaspoon Worcester- shire sauce	1 pint boiling water
	Salt to taste

Put potato cubes on to cook in the pint of boiling water. Cook a few minutes until tender, drain. Put cubes of salt pork into a frying pan with sliced onion. Cook for a few minutes until cubes are brown, then strain the fat into the fish stock, scald milk and add to stock, add potato cubes, seasoning and serve very hot. One or two crackers can be broken up and added to chowder when just ready to serve.

RECIPE 68. CLAM CHOWDER.

1 pint clams	2 tablespoons butter
2 cups boiled potato cubes	1 tablespoon flour
1 minced onion	1 teaspoon salt
Pepper to taste	4 soda crackers
2 cups milk	2 tablespoons salt pork cubes

Put the small cubes of pork into a frying pan, add minced onion, cook until pork begins to brown. Strain fat into a stew pan, add milk, scald, add seasoning and potatoes. Rub flour into butter, stir this into milk and let it thicken a little. If canned clams are used, remove tough portions and mince well, leaving soft part of the body whole. If fresh clams are used, remove them from their shells, wash well, cover with just enough water in which to parboil them. Add this water to the milk, chop tough portions of clams fine, and add to milk with the bodies of the clams.

RECIPE 69. OYSTER SOUP NO. 1.

1 pint milk	$\frac{1}{4}$ teaspoon pepper
1 tablespoon butter	$\frac{1}{4}$ teaspoon paprika
$\frac{1}{2}$ teaspoon salt	$\frac{1}{2}$ pint oysters

Put milk on to scald, add butter and seasoning. When milk is boiling add the oysters, let them cook until they ruffle (about two minutes). Serve hot.

RECIPE 70. OYSTER SOUP NO. 2.

2 cups milk	1 cup oysters
2 tablespoons butter	$\frac{1}{2}$ teaspoon salt
2 tablespoons flour	$\frac{1}{4}$ teaspoon pepper
$\frac{1}{4}$ teaspoon paprika	

Melt the butter, add flour, then milk and seasoning. When it has thickened add the oysters and cook for two or three minutes until the oysters ruffle. One or two soda crackers can be broken and added when ready to serve if desired.

Purees.

RECIPE 71. PUREE OF PEAS.

Soak one cupful dried peas in two quarts of cold water over night. In the morning drain off this water.

1 cup soaked peas	2 tablespoons butter
3 pints cold water	1 tablespoon flour
1 small onion	1 bay leaf
6 peppercorns	1 teaspoon salt

Cook the peas, onion, salt and peppercorns until the peas are soft. The length of time depends upon the age of the peas. When soft, press the peas through a wire strainer. Rub the flour and butter together and add to the peas. Purees need this flour to act as a binder to hold the pulp smoothly together. A small piece of salt pork or a ham hock boiled with the peas gives a puree a delicious flavor. If used then omit the salt.

RECIPE 72. PUREE OF NAVY BEANS.

Follow the directions for Puree of Peas, substituting beans for the peas.

RECIPE 73. PUREE OF LIMA BEANS.

Follow the directions for Puree of Peas, substituting lima beans for peas.

RECIPE 74. PUREE OF LENTILS.

Follow the directions for Puree of Peas, substituting lentils for peas.

CHAPTER IV

Fish.

GENERAL RULES FOR PLANKING.

PLANKED FISH.

Take any kind of fish which is large enough to split. Have plank warmed in oven for five minutes. Butter it well. Place the fish on the plank, skin side down. Put a little melted butter over it and brush with the juice of one-half of a lemon. Broil for about fifteen minutes, then remove plank from stove for a minute or two while you put on the decorations, which can be of many different things. One of the nicest ways to garnish fish is to slice ripe tomatoes over it (one slice for each serving); a few very thin slices or rings of green peppers or pimientos or onions can be used. Around the fish there should be a border of mashed potatoes. Learn to use a pastry tube and press potatoes through it around fish. A few oysters or clams in shells can be placed at intervals around the fish, and on each one put buttered bread crumbs. If tomatoes are used put a few buttered bread crumbs on each slice. Place the planked fish back into the broiler and broil slowly until the vegetables are done—about five minutes. If potatoes are used as a border they should be lightly brushed with the yolk of an egg to make them brown quickly. When fish is done, serve it on the plank placed on a large platter. It can be garnished at the time of serving with a few slices of lemon and sprigs of parsley. Planked fish is considered one of the most delicious and attractive of all ways to serve fish. A little practice with the pastry bag and tube will give charming effects to the border of potatoes. Left-over boiled rice or macaroni and cheese or spaghetti and cheese can be used for making the border around the plank, or can be used in addition to potatoes. In this case make a ring of potatoes around the outer edge of plank and fill in the rice or other ingredients in space between fish and potatoes. Pimientos stuffed with macaroni and cheese or spaghetti and cheese can be placed at intervals around the fish.

Stuffed baked tomatoes are nice. Green peppers, par-boiled in salted water for fifteen minutes, then stuffed with anything desired, can also be used on all planked dishes. The decorations of planked meats and fish can be varied according to the ingenuity of the cook. There is almost no limit to the combinations which can be worked out.

RECIPE 75. BROILED FISH.

Have the broiler well greased and very hot. Place the fish skin side down on the broiler, and when half done season with pepper and salt. If a dry fish it should have a little melted butter poured on it once or twice while cooking. If a very oily fish it requires no butter. The time of cooking will depend upon the size and shape of a fish. If it is a fish which can be split and spread open like a shad or white fish it will take less time than if it is a fresh mackerel or some kind of bass, which is broiled whole and needs to be turned. Try the fish with a fork, and when the meat is white and firm and readily leaves the bones, it is done. Serve on a hot platter, garnish with parsley or slices of lemon or potato chips. Fish that is inclined to be dry is best served with a sauce of some kind. Maitre d'Hotel butter is especially good. So is Sauce Tartare, Nebiche Sauce, etc.

RECIPE 76. BAKED FISH.

Clean fish, seeing that no scales remain on outside. Brush inside of fish with lemon juice, shake a little salt and pepper into it and stuff with any good stuffing. The following is nice:

Equal parts of bread	juice $\frac{1}{2}$ lemon
and cracker crumbs	seasoning to taste
1 tablespoon butter	enough hot water to
$\frac{1}{4}$ teaspoon poultry sea-	hold crumbs together
soning	$\frac{1}{4}$ teaspoon onion salt

For a two or three pound fish use about one-half cup each of bread and cracker crumbs. Stuff and sew up fish. Bake twenty minutes to the pound.

RECIPE 77. FRIED FISH.

Wash and clean the fish. See that no scales remain on it. Small fish like smelts can be fried in deep fat, but the larger fish are sauted in a frying pan. They

can be dipped in plain flour or rolled in cornmeal, or rolled in dry bread crumbs, then in yolk of egg and again in bread crumbs. Sauted in the grease from salt pork gives them a delicious flavor, but can be sauted in any kind of fat. If butter is used, be careful that it does not scorch. Large fish like salmon, halibut, sturgeon, shad or white fish should be cut in slices about one inch thick and then sauted. Slices from large fish, rolled in bread crumbs, then in yolk of egg and then in bread crumbs and sauted, can be served with any of the different fish sauces (see Index), especially Sauce Tartare. Slices of large fish can also be fried in deep fat, but should be first put into a pan and covered with boiling water for a couple of minutes, then wipe them dry and carefully cover with bread crumbs, then yolk of egg, then again in the dry bread crumbs. Have the kettle of fat just hot enough to fry them brown in about one minute. If any hotter, the fish may not cook clear to the center. Fish cooked this way should always be served with a sauce, such as Sauce Tartare, Maitre d'Hotel (see Fish Sauces, Index).

RECIPE 78. BOILED FISH FOR TWO.

1 pound fish	1 tablespoon lemon juice
1 quart boiling water	1 teaspoon salt

Select a short, thick piece of any fish desired, such as halibut, salmon, white fish, etc., tie it in a clean piece cheesecloth boil fifteen minutes, in water to which had been added lemon juice and salt. Remove from cloth, serve on hot platter, garnish with a Fish Sauce (see Index). Fish cooked in a steamer is preferable to the boiling process. If a steamer is used, place fish (without cloth) in the steamer, cook till it flakes. About twenty minutes for each pound is usually required.

RECIPE 79. FRIED FILLETS OF FISH.

Many kinds of fish can be boned and fried. When boned they are called fillets. Smelts, soles, flounders are all delicious when boned, crumbed, egged and crumbed again and fried in deep fat. Serve with a sour sauce (see Index). To fillet a fish use a sharp, small knife and run it along the bone, gently cutting away the flesh from the bone. If you buy your fish the fish merchant will usually fillet them upon request, or show you how to do it.

RECIPE 80. FILLETS OF FISH TURBANS.

Have slices cut one inch thick from any large fish, halibut preferred. Carefully trim each fillet from the bones. Cut skin from off the edges of slices, add also the bones to cook with one pint water, one bay leaf, a slice of onion, salt, pepper and paprika to taste. Let these simmer about fifteen minutes for a fish stock. While stock is cooking roll up the fillets like jelly roll, commencing with the wide end. Fasten end securely with a buttered wooden toothpick. Place these Turbans in a casserole or any deep baking dish. Parboil about six small potato balls for each person to be served. Small button onions are also nice. Place them all in the pan together and cover with the fish stock. Let simmer about thirty minutes.

RECIPE 81. MEDALLIONS OF FISH.

Take some fillets of any large fish, such as halibut or salmon. Have all bones removed, cut off skin. Turn fillet and fasten with buttered toothpicks so fillet forms a round shape like a medallion. Lay them on a plate for a few minutes and cover with thinly sliced onions and a few drops of lemon juice, then take them from the onions and bake fish in an agate flat baking dish or Savory roaster for twenty minutes, having them partly covered with a Fish Stock (see Index) made of the skin and bones from the fillets. Have ready two hard boiled eggs. Chop the whites and rice the yolks. Make a Fish Bechamel sauce, a Perigeux sauce or Mornay sauce. Add chopped whites of eggs to sauce, pour part of sauce over medallions placed on a hot platter, and then pour the rest of sauce around medallions. Sprinkle riced yolks over the tops of the medallions. Serve very hot.

RECIPE 82. TURBAN OF SALMON TROUT.

Remove the skin and bones from a salmon trout, leaving it in fillet about 4x2 inches, season with salt, pepper and lemon juice. Pour over half a cup of white wine and let stand for one-half hour, then drain. Then dip each piece in egg and crumbs. Roll and fasten with a toothpick and thread. Fry in deep fat until nice and brown. Take the skin and bones and cook with pieces of carrot, an onion, one bay leaf, thin slice of lemon, one-fourth teaspoonful of whole mixed spices and two cups of water. Reduce to one cup of liquid and add three tablespoons of butter and three of flour, then strain. Add yoke of one egg and one-fourth cup of wine.

Make a border of mashed potatoes run through pastry bag and pour sauce around. Garnish with finely chopped egg, parsley and shrimps.

RECIPE 83. BAKED SHAD.

For average family get about a two-pound shad. Clean well, split open and carefully remove the backbone. Place in a pan, season well with salt, pepper and paprika, also placing pieces of carrots and onions around the fish. Use equal parts of butter and lard for basting. Bake for 25 to 30 minutes in a hot oven. Place on hot serving platter, pouring over it melted butter. Serve with plenty of lemon, garnished with parsley. If roe is found in the shad, bake well in same pan, and serve with the fish.

RECIPE 84. FRIED HALIBUT CHEEKS.

Service for two persons. Take one pound of fresh halibut cheeks. Season well with pepper and salt and roll in flour. Fry in butter over slow fire for twenty minutes in closely covered pan. Take up carefully and place in round covered casserole. Wipe clean the frying pan, then take one tablespoonful of butter, one young onion, one-half green pepper well chopped. Stir briskly on fire for about three minutes, then pour over the halibut cheek, sprinkling with chopped parsley. Serve very hot, with potato salad or cold slaw.

RECIPE 85. BAKED SALMON.

Take a small salmon, well scaled and cleaned. Remove center bone and as much of backbone as possible without cutting the skin. Make a stuffing the same as for fowl and add half cup of tomatoes, which will impart a delicious flavor. Place salmon in well buttered pan and fill with stuffing. Cover with a greased paper and bake for about twenty minutes for each pound.

RECIPE 86. BAKED HALIBUT, HOME STYLE, FOR TWO PERSONS.

Get about one pound of halibut. Place in a deep granite roasting pan with enough water to cover the bottom of the pan. Put in a small onion, a few sprigs of celery, two or three bay leaves and some sprigs of parsley, then salt and a small piece of butter. Cover the pan tightly and bake in a moderate oven for about twenty-five minutes, basting occasionally. When cooked,

take fish from pan, placing on service dish, and remove skin and large bone. With the sauce in the pan make a gravy, adding a little broth if necessary. Let this come to a boil, then squeeze a few drops of lemon juice and thicken slightly. Then strain, add a hard boiled egg chopped fine. Serve with a little chopped parsley sprinkled over the fish. A covered granite roasting pan should be used in order to retain the best flavor of the fish.

RECIPE 87. SMELTS FRENCH STYLE.

Take the required number of smelts for the needs of the family. After they have been cleaned, cut three or four gashes on each side of each fish. If the smelts are the small variety, this is not necessary. Season them with salt, pepper and paprika, and cover with lemon juice and let them stand for ten minutes. Then dip them in milk or cream, roll them in flour and saute a delicate brown. Make a sauce as follows to cover them:

RECIPE 88. FISH SAUCE.

When buying the smelts allow two or three more than needed for serving. Put these extra fish into a saucepan with one and a half cupsful cold water, one slice onion, one slice carrot, three peppercorns, one very small piece bay leaf, one-fourth teaspoonful salt. Allow this stock to simmer for ten or fifteen minutes while the other fish are in the lemon juice. When stock is done, strain it. Now saute the fish for serving as directed in the recipe for Smelts French style. When fish are brown, pour off the fat from the pan, except one tablespoonful. To this add one tablespoonful flour, stir till smooth, then add the fish stock, which should have simmered down to about one cupful. When the sauce has thickened, add one tablespoonful of minced parsley or pimientos or green peppers. Season with a little Worcestershire sauce and a dash of Tobasco or paprika if desired. Put the sauted smelts on a hot platter and pour the sauce over them.

RECIPE 89. HALIBUT EN BLANQUETTE.

Have a sufficient quantity of halibut cut into slices about inch thick. Place two or three slices of very thinly sliced salt pork in an agate roasting pan. Lay slices of halibut on the salt pork. Cover halibut with a layer of tomatoes, then a light layer of minced boiled onions, then a sprinkling of minced parsley and on top

some buttered bread crumbs. Put a little hot water in the pan around the fish—not over a cupful. Season with salt, pepper and paprika. A tablespoon of Worcestershire sauce or tomato catsup in the water in pan is nice. Baste once or twice. Bake about twenty minutes. Serve at once very hot. The pan must not be allowed to get dry, retain all the juices possible. Left-over cooked tomatoes may be used or a tomato puree.

RECIPE 90. FRIED OYSTERS NO. 1.

Take a sufficient number of fine large oysters. Dip them in lemon juice, then in dry bread crumbs, then in an egg wet with a little water, then dip again in bread crumbs and fry for one minute in hot, deep fat. Drain on paper. Serve at once very hot.

RECIPE 91. FRIED OYSTERS NO. 2.

Melt a generous portion of butter in an iron frying pan. Dip the oysters, which should be fine, large ones, first in lemon juice, then in cracker crumbs, then in egg, then again in cracker crumbs. Have the butter hot in frying pan and saute oysters until a delicate brown. Turn frequently. As soon as browned they are done. Serve hot, after draining on paper. Garnish with sliced lemons.

RECIPE 92. FRIED OYSTERS NO. 3.

Make Fritter Batter No. 1 and let it stand an hour. When ready to fry the oysters put on a deep kettle of fat to heat. Dip oysters one by one into fritter batter and as soon as fat is smoking hot, fry oysters in it until a delicate brown. Have fat just hot enough so that it will take at least sixty "counts" before the oysters are a nice brown (see directions for Deep Fat Frying). When oysters are removed from the fat let them drain in a warm place on paper to take up any superfluous fat. Garnish with quartered lemons. Serve at once very hot.

RECIPE 93. ESCALLOPED OYSTERS.

Take a sufficient quantity of oysters and for each cupful oysters allow one cupful No. 2 White Sauce. Stir the oysters well through the hot sauce. Put a layer of oysters and sauce into a deep baking dish, cover with a layer of buttered cracker crumbs, then alternate layers of oysters and sauce and cracker crumbs until the dish is full. Have the last layer of the cracker crumbs but-

tered and bake in oven about fifteen minutes for a quart pan full, longer for a larger pan. Serve hot in the pan in which they baked.

RECIPE 94. ESCALLOPED OYSTERS NO. 2.

Butter a deep baking dish. Place a layer of crumbs on the bottom, then alternate layers of oysters, crumbs and bits of butter until the pan is full, having buttered crumbs on top. Season each layer of oysters as you put them in. Fill the dish two-thirds full of sweet milk, put into oven and allow it to cook about thirty minutes for a quart pan full. Longer for a larger pan. Cook until the oysters ruffle.

RECIPE 95. OYSTERS IN BLANKETS.

Pick over a sufficient quantity of fine large oysters to see there are no bits of shell attached. Shake a little salt and pepper over them. Wrap each oyster in a very thin slice of bacon. Fasten bacon securely with a wooden toothpick. Place the blanketed oysters on a broiler and cook until the oysters ruffle. Turn once during the broiling so that bacon will be a delicate brown. Will only take a few minutes to cook. May be served on toast if desired.

RECIPE 96. CREAMED OYSTERS ON HALF SHELL.

Wash some deep oyster shells thoroughly. Pick over a sufficient quantity of oysters, removing any bits of shell. Cover with one cupful sweet milk and bring just to the boiling point. Into a saucepan put one tablespoonful of butter, melt, add two tablespoonfuls flour, stir until smooth. To this add the milk the oysters were cooked in. Season with salt, pepper and paprika to taste. Add the oysters. Place this oyster mixture into the oyster shells, cover with a thick layer of buttered bread or cracker crumbs. Bake until brown in the oven. Serve very hot. If oyster shells are not available clam shell may be used or small individual dishes which will stand the heat of oven. A very dainty way to serve creamed oysters is in the little "ramekins" sold in every house furnishing store for that purpose. The patty shells made at every bakery are also very nice.

RECIPE 97. BROILED OYSTERS.

Wash and pick over a sufficient number of large oysters. Melt a tablespoonful butter, add one tablespoonful lemon juice, season with salt, pepper and pap-

rika. Dip each oyster in this melted butter. Lay them on a hot, well-greased broiler. Let cook until they ruffle. Serve with slices of lemon. Minced parsley may be lightly shaken over them. If desired, a few drops of Worcestershire sauce may be added to the melted butter before dipping the oysters.

RECIPE 98. PLANKED OYSTERS.

Take a sufficient quantity of oysters. For a small family a half pint will be enough. To these oysters add a No. 2 White sauce, one hard boiled egg, 1 minced pimiento.

Make the sauce, add the oysters, stir them a moment, add the chopped white of egg and the minced pimiento. A tablespoonful parsley minced is good. Season to taste with salt, pepper and paprika. Warm the plank in the broiler for five minutes. Then butter it slightly and spread the oyster mixture on the plank. If desired, a border of mashed potatoes or some hot boiled rice may be placed around the oyster mixture. Shake the buttered bread crumbs lightly over the oysters. Brown under the gas flame at bottom of broiler for five minutes. Serve on the plank. If a coal or wood stove is used, the plank may be placed in the oven, but it will take a little longer to bake. When done sprinkle the riced yolk of the hard boiled egg on top.

For boiled fish all of the White or Drawn Butter sauces and their derivatives are nice.

For baked fish the White, Drawn Butter, Creole, Nut, Mushroom and Parsley sauces in their variations are used.

For fried fish some kind of sour sauce should be used. From the plain Mayonnaise and Hollandaise sauces a great variety is formed and Maitre 'd hotel butter is also used. The acid helps digest the oil of the fried fish. Tomato sauce is nice with boiled, baked or fried fish.

CHAPTER VI

Entrees.

To the careful housewife the judicious use of Entrees offers an endless field for economical cooking. Under recipes to be found in this chapter and also in chapter on Left Overs will be found many suggestions which will make it unnecessary for a crumb of anything left from the table, to be wasted. Frequently there is a small portion of two or three dishes, not enough of any one for another meal, but in combination with other things an entirely new dish can be built up with very little expense. Study these two chapters carefully and you will be delighted with the unlimited opportunities they offer for reducing household expenses.

Entrees are served at almost any stage of a meal, sometimes several at the same meal, in elaborate meals, and they are formed from every possible article than can be cooked, such as meat, fish game, shell fish, vegetables, milk, eggs, cheese, fruit, etc.

Entrees cover all of the escalloped dishes, souffles, casserole cooking, sauted dishes, deep fat fried articles like croquettes and cutlets, etc.

ESCALLOPED DISHES.

Study the many sauces in Chapter V. They are the foundation of nearly all escalloped dishes and by the judicious choice of a sauce you can use up all of the Left-Overs from day to day.

SOUFFLES.

The foundation of nearly all souffles is one of the White sauces and many left-over vegetables, fish, fruit, meats and desserts can be utilized in souffles. Study the chapters on Entrees and Left-Overs.

CASSEROLE COOKING.

Cooking in a casserole is an especially desirable way of retaining the flavors and juices of articles cooking, and is a dainty and appetizing way of using up Left-Overs.

RULES FOR DEEP FAT FRYING.

A granite sauce pan with a handle or an iron pot called a Scotch bowl should be used for deep fat frying. Have the pot not more than one-half full of melted fat. All of the vegetable oil preparations are better than lard as they can be heated to a greater degree of heat than can any animal fat. In deep fat frying the article to be cooked must be subjected to the fat hot enough to quickly seal in the juices, and to seal out the grease so that it cannot penetrate the article which is frying. Therefore the fat must be very hot before placing any articles in it. For all articles which are prepared of cooked materials, like meat or vegetable croquettes or cutlets, the fat should be just hot enough to fry the article in 40 seconds. When uncooked articles are to be used, such as fish slices or small fish, like smelts, or raw potatoes for French fried potatoes, or raw bananas for banana croquettes, the fat must not be so hot, for the article must not brown in less than 60 seconds. To ascertain the state of the heat of fat, throw a small piece of bread crust into the hot fat. Then count about as fast as a watch ticks (allowing one count to the second), and you can tell at once whether the fat is right heat. When articles are cooked, remove and drain on a paper. Do not cook too many at one time, and always heat the fat for a minute before adding next articles to be cooked. When articles have all been fried, the fat in the sauce pan should be strained through a clean cloth to remove all the bread crumbs which have cooked loose from different articles. If allowed to remain in the fat, they will stick to articles cooked in it the next time you use it. Fat strained in this way may be used many times over and over. When it begins to get too brown looking for deep fat frying it can still be used for sauteing any articles in the frying pan and so all of it can be used without any loss.

Dry bread crumbs are better than cracker crumbs for deep fat frying as they do not absorb the fat so readily. All articles for deep fat frying are subjected to the following process. The crumbs must be dry and crisp. Put crumbs into a flat dish so that they are easily handled. Break an egg into another flat dish, add about one tablespoon of milk or water. Dip articles to be fried first into bread crumbs, then into the egg, then again into the bread crumbs. This process is called, "Crumb, egg and crumb" and will be referred to many times in this book. Egg is used because the albumen in it readily hardens and forms a crisp crust with the crumbs, leaving

the inside of croquette or cutlet nice and creamy, while outside is in a firm crust. This crust forms so quickly that with fat at proper heat when article is put into it, there will be no grease absorbed by it.

RECIPE 157. MEAT CROQUETTES OF EITHER BEEF, LAMB, VEAL, CHICKEN, TURKEY, ETC.

A general rule for meat croquettes of all kinds, using either fresh meats or cooked over meats. Read carefully the rules for Deep Fat Frying before beginning to cook croquettes.

1 cup meat, minced	1 onion minced
2 level tablespoons butter	8 mushrooms
1 tablespoon flour	$\frac{1}{2}$ teaspoon salt
$\frac{1}{2}$ cup stock or milk	$\frac{1}{4}$ teaspoon each pepper and paprika
1 egg	

Grind onion fine and put into frying pan with the butter. Saute it a light brown slowly, stirring it frequently. Add the flour, stir quickly for two or three minutes, add stock or milk and simmer until it thickens, add seasoning. Grind one cup meat and eight mushrooms together and stir this into the onion mixture. Now stir in the egg yolk thoroughly for a minute or two until egg is "set," then take from fire and put away to cool and "set." This mixture can stand several hours or can be chilled quickly on ice. When within fifteen minutes of meal time put on a kettle with plenty of fat in it, about one-half full, and let it heat while you shape the croquettes. Stir mixture thoroughly, then take a heaping tablespoon of it, shape into a croquette, roll in dry bread crumbs, then in egg, white, diluted with milk or water, then again in bread crumbs. Make required number of croquettes. (This recipe makes six to eight.) When fat is hot fry them about forty seconds until a nice brown. Drain on paper to absorb fat and serve hot at once.

Serve with some nice sauce. See chapter on sauces.

RECIPE 158. FISH OR MEAT CUTLETS.

Use any croquette mixture, but shape with flat forms, instead of round. Fry in deep fat.

1 tablespoon flour	1 cup cooked rice
$\frac{1}{2}$ cup milk	5 tablespoons grated cheese
$\frac{1}{4}$ teaspoon salt	

Melt butter, add flour, then milk and seasoning. When smooth add rice and then cheese. Stir well until cheese is all melted. Set away to get cold. When ready to serve take a tablespoon at a time, shape into croquettes. Crumb, egg and crumb. Fry in deep fat until brown (about one minute). Serve at once.

Make a No. 2 White Sauce, dissolve the cheese in this, add seasoning, then oyster mixture. Set away to get cold. Then shape into croquettes, dip in dry bread crumbs then egg and milk, then again crumbs, and fry in deep fat. Serve very hot, with a sauce of some kind (see Fish Sauces).

$\frac{1}{2}$ cup rice	1 tablespoon butter
$\frac{1}{2}$ teaspoon salt	yolks 2 eggs

Put rice in double boiler with one-half cup boiling water. Cook till water is absorbed, then pour on boiling milk and cook until tender. Then remove from fire, add butter and beaten yolks. Spread on a plate to cool. Shape into balls, crumb, egg and crumb and fry. Can be made attractive by taking enough for a good-sized ball, flatten it a little as for a cutlet, dip in crumbs, then press a cup into it to make a hollow in it. Now roll it in egg and crumb again, fry in deep fat. This makes a "nest." Nice for jelly or creamed peas or carrots.

Now place all of the mixture in a deep baking dish, cover with buttered bread crumbs, and bake in oven fifteen minutes. This will serve five people very bounteously and will leave enough for the next day. 1 cup Creole sauce	$\frac{1}{4}$ teaspoon pepper and paprika

Put a layer of crumbs in a buttered baking dish, then alternate layers of meat, White Sauce, crumbs and seasoning, having the last layer White Sauce covered with buttered bread crumbs. Saute the meat of 2 small or 1 large boiled lobster in butter. Having cut it into small pieces, add to it 1 small boiled cauliflower that has been cooked and cut in short lengths. Add a cup of cream in which an egg has been beaten, pepper, salt and a teaspoon of Worcestershire sauce. Let it boil up once and serve garnished with cress. This may be served on toast or with hot finger rolls.

RECIPE 248. CRAB FLAKES A LA DEWEY.

For ½ pound of crab flakes, slice 4 or 6 mushrooms and a large green pepper; cook them slowly in butter, then add the crab flakes, a gill of white wine and

sherry and enough cream to cover the crab flakes. Let simmer for five minutes without stirring, then add the belly part of a dozen steamed soft clams, bind the sauce with 3 raw egg yolks diluted in cream and 2 tablespoons of butter; season to taste and serve with fresh, hot toast on the side.

RECIPE 249. MRS. JARVIS' CHICKEN AND CORN PIE.

One 4-pound chicken, boiled till tender. Season with salt, pepper, 1 small onion and 1 sprig parsley and 1 bay leaf. Shred very fine and set to cool.

Grate 8 cobs of corn very fine, add 1½ tablespoons sugar, 1½ tablespoons melted butter, 1 tablespoon flour, mix all the above with grated corn. Simmer 15 cents ground beef and veal mixed, with 1 small chopped onion, 1 teaspoon butter and 1 tablespoon water to keep from burning. Add 2 chopped peppers, sprig of parsley and 1 tomato. Season with salt, pepper, Spanish pepper, thyme and carmon seeds. Be sure to mix meat and tomatoes with peppers. When all is prepared, put in pie plates well lined with butter, then line same with layer of grated corn, layer of shredded chicken, layer of minced meat (as prepared above), and then layer of corn and continue same until pie plate is full. Lastly take 10 or 12 good sized olives, put on top of pie, and have prepared 2 hard boiled eggs, chopped very fine. Sprinkle same over top of pie, put on cover of grated corn to serve as crust, and small bits of butter on top. Bake in moderate oven.

For a small family divide this recipe, reserving best parts of chicken for some other chicken dish.

CHAPTER VII

Poultry and Game

RECIPE 250. ROAST TURKEY.

Select a tender young hen turkey having a slightly bluish-lavender tinge. The big, fat white hens or gobblers are frequently not so tender, as they are older and are carrying "weight for age." Two medium-sized hens are preferable to one very large bird, if a large number of persons are to be served. Pick the bird clean of all pinfeathers, singe and draw it. Be careful not to overlook the "craw," which lies at the base of the neck, in front, up over end of the breast bone. Pull skin back from over the neck, cut neck off short at the body, but allow neck skin to remain so that it can be sewed back under the body, leaving a trim, neat look when bird is trussed for cooking.

If bird has not been drawn, have a sharp knife, take hold of bird by the lower end of breast bone and make a slit in the flesh across the bird, just under the breast bone. Now run your hand inside bird, close up to the neck, as far as the hand will go. Gently curve fingers downward until they take hold of the entrails of bird, now begin to draw hand out of the bird, having the fingers enclosing entrails and gradually loosening them from the little muscles which hold them to the backbone. If this is done carefully there is not the slightest danger of their breaking. Withdraw hand and bring entrails outside bird onto table. You will find one intestine attached to the "vent." Use your knife carefully and cut out the entire vent which will then release intestine attached to it. Now slip your hand back up into the bird and remove the lungs, which lie high up near the back bone. They are bright red and spongy looking.

Pick up the entrails and you will find the liver, gizzard and heart attached to them. You will also notice the little bright green sac which is attached to the liver. This is the gall bag and you must be very careful not to cut into it, for it is a well known saying, "bitter as gall," and one drop of this fluid on the meat would ruin it. Carefully cut far enough away from the gall bag not to cut it. It is attached to one side of one lobe of the liver.

This side of the liver has a slightly green tinge. Do not use it. The gizzard is attached to the large intestine. Cut intestine short off at the gizzard. Make an incision on one side of gizzard, deep enough to reach the little sac which is inside and holds the sand or corn. Turn the gizzard inside out, wash well and pull from it the yellow lining which is there. Cut the heart loose, wash and trim neatly. Put the gizzard, heart and liver into sauce pan with water and let simmer all the time the turkey is roasting.

Now wash the turkey quickly inside and out for a moment with cold water, wipe dry and shake inside of it, salt and pepper. Now lightly fill the body of the bird with a nice stuffing, recipes for which will be found below. Do not stuff bird too full, as the stuffing will swell a little as it bakes. Sew up neatly the place that you cut open. Take turkey firmly in the left hand, turn it up on end so that you can stuff the skin at the neck, from which you removed the craw. This will usually hold about two iron spoons of stuffing and this not only shapes the bird well but keeps the meat from drying too much. When the neck cavity has been filled, draw the skin from the neck well back under the bird, sew it down to place. Now gently press the turkey until you have given the neck stuffing a rounding shape.

Trussing a bird means to securely fasten the wings and legs into place close to the body. A bird that is untrussed while cooking will not have the neat appearance that a trussed bird has, as legs and wings will stick out at grotesque angles. To truss, run a long iron skewer into the bird through the body below the legs and another skewer just back of the wings. Now have a strong piece of string. Wrap it securely around each leg, drawing it closely to the body. Wrap the string also around the skewer and tie it tight so that it will not come loose when bird is cooking. The same string can be long enough to continue and wrap around the body of the bird by the wings, or a second piece of string may be used. See that it is well fastened. When the bird is well trussed rub it well with drippings or lard, then shake plenty of flour over it, then salt and pepper. Put into a very hot oven and bake very fast for fifteen minutes, then turn the fire down to a medium heat and let the bird cook until done. The time is usually allowed for a tender bird, twenty minutes to the pound.

To test when the bird is done, do not put the fork into the breast where the meat is more inclined to be dry, but just under the fleshy part of the thigh bone, Fre-

quently the breast will cook first and if the bird is tested in breast, it may be done and the meat under the thigh still underdone. When you withdraw the fork look and see if the juice which runs from the bird is tinged with blood—if so, it is not done. If the juice which runs out is only a clear, oily-looking substance it is done. Turn off the fire from the oven, remove the bird onto another pan, while you make the gravy.

Cut the giblets fine through the grinder and add the water they cooked in, with the giblets, to the gravy in the turkey pan. If the gravy is very oily looking, remove part of the fat and put it away for the next day. Add the giblets, season, add enough boiling water to make a nice gravy, thicken with flour and water. Let simmer until well cooked. Turn into the gravy boat, place the turkey on the platter and serve hot.

SUGGESTIONS FOR SERVING POULTRY AND GAME.

Serve turkey with brown gravy, cranberry sauce or cranberry jelly, or wild plums or Damson plum jam. Many persons who do not care for cranberries will find plum jam a delightful addition. A little spice added to plum jam gives a welcome flavor.

Wild or domestic ducks are usually served with onions prepared in some way. Creamed onions or onions stuffed with nuts are very nice. Duck is always served with currant jelly. Spiced plum jam is also nice.

Venison roasted or broiled is served with currant jelly or with Cumberland sauce (see Index).

Maitre d'Hotel Butter (see Index) is nice with broiled venison. Game is always served rare. Fifteen minutes baking to the pound, or less. Rice Croquettes with jelly are nice with grouse, partridges or quail. Parsnip balls are nice with chicken or game. Corn oysters can be served with chicken instead of corn fritters. Surprise croquettes with peas are nice with poultry or game.

RECIPE 251. ONION AND SAUSAGE STUFFING FOR TURKEY, CHICKEN AND GAME.

Before beginning to clean the bird, put into a frying or sauce pan, $\frac{1}{2}$ pound bulk sausage, 1 large onion sliced very thin, 1 quart boiling water. Let this simmer gently all the time you are cleaning the bird. Have ready 1 stale loaf of baker's bread. Break it into small pieces, crumbing it well with the fingers, or by rubbing the bread together, one piece on another. When bread is well crumbled into fine little pieces, add enough salt and

pepper to taste well. Then add any herbs desired. Poultry seasoning is nice. This is a preparation which comes already ground and is composed of several kinds of herbs ground together. For a medium-sized loaf of bread (which is large enough for a seven-pound hen), add 1 teaspoon poultry seasoning, $\frac{1}{2}$ teaspoon of paprika can be added. When onions and sausage are done gently add them, with the water they boiled in, to the seasoned bread crumbs. Use a fork to turn the crumbs lightly as onions and water go in. Do not use your hand to the mixing as it will make the stuffing heavy. Use just enough onion water to make the bread crumbs moderately moist. Break the sausage into small pieces and stir with the onions gently through the bread crumbs. See directions for stuffing the bird, sewing it up, etc., under Roast Turkey.

Small birds like quail, partridges, etc., may also be stuffed, but require a much smaller amount, of course.

A string of four to six link sausage are sometimes hung over the breast of a turkey when it is roasting. The fat from the sausage bastes the turkey nicely. All birds require frequent basting.

RECIPE 252. OYSTER STUFFING FOR TURKEY OR CHICKEN.

For a turkey, 1 quart, or for a chicken, 1 pint of oysters will be required. For a turkey, melt $\frac{1}{2}$ cup of butter, add the oysters to the butter and stir them for a minute or two until they "ruffle." Take enough cracker crumbs, which, added to the oysters, will fill the turkey. Stir the melted butter and oysters into the cracker crumbs, add a little hot water to the frying pan to get the melted butter from it, add this water to the cracker crumbs, having them moderately moist. Add salt, pepper and paprika to season very highly. Put the stuffing lightly into the bird. See directions for stuffing under Roast Turkey.

RECIPE 253. CHESTNUT STUFFING FOR TURKEYS.

4 cups chestnuts	$\frac{1}{4}$ cup milk or cream
1 cup cracker crumbs	1 teaspoon salt
$\frac{1}{2}$ cup melted butter	$\frac{1}{4}$ teaspoon pepper
$\frac{1}{4}$ teaspoon paprika	

Shell the chestnuts and cover with boiling water for a minute or two, then remove the brown skin. Put the blanched chestnuts into salted boiling water and cook

until tender. Drain and mash them well. If you have a potato ricer, use that. Add melted butter to cracker crumbs, stir them into the chestnuts thoroughly, add cream and seasoning. Mix with a fork. Stuff lightly into bird. Follow directions for stuffing and trussing the bird in recipe for Roast Turkey.

RECIPE 254. NUT AND RAISIN STUFFING FOR TURKEYS.

1 loaf stale bread	1 teaspoon salt
crumbled	$\frac{1}{4}$ teaspoon pepper
$\frac{3}{4}$ cup chopped Eng- lish walnuts	$\frac{1}{4}$ teaspoon paprika
$\frac{3}{4}$ cup raisins	1 teaspoon poultry seasoning

Use seeded raisins, put them on in 1 cup water and let them simmer for five minutes. Use the water they cooked in to add a little moisture to the stuffing. Use just enough to make bread only a little moist. The amount will depend upon staleness and quality of the bread. Chop the raisins slightly before adding them to the dressing. Stir all the ingredients lightly into the bread. Proceed for stuffing and trussing the turkey as in recipe given under Roast Turkey.

RECIPE 255. PEANUT STUFFING.

1 cup cracker crumbs	$\frac{1}{8}$ teaspoon onion salt
$\frac{1}{2}$ cup cream	$\frac{1}{2}$ cup minced peanuts
2 tablespoons melted butter	$\frac{1}{2}$ spoon salt
$\frac{1}{4}$ teaspoon celery seed	$\frac{1}{8}$ teaspoon pepper
	$\frac{1}{8}$ teaspoon paprika

For a change try stuffing duck or goose with Peanut Stuffing.

Mix all of the ingredients lightly together with a fork. Follow directions for stuffing and trussing birds under recipe for Roast Turkey. The legs of a duck or goose are much shorter than a turkey or chicken, so the string must be well fastened to each leg (wrap it around each leg twice), and drawn tightly back to the body of the bird and tied securely to the skewer run through the body for that purpose. Geese and ducks should have strips of salt pork or bacon laid over the breasts to keep them from becoming too dry in the roasting.

RECIPE 256. POTATO STUFFING.

$\frac{1}{2}$ pound bulk sausage	2 cups hot mashed
$\frac{1}{2}$ teaspoon poultry seasoning	potatoes
$1\frac{1}{2}$ teaspoon salt	$1\frac{1}{2}$ cups soft, stale
$\frac{1}{2}$ teaspoon pepper	bread crumbs
$\frac{1}{4}$ teaspoon paprika	1 egg
	1 minced onion
Fat from the pan sausage fried out	

Break the sausage into little pieces, put it into a hot frying pan with the minced onion, let them cook for a few minutes until the onion begins to turn yellow. Beat the egg into the mashed potato thoroughly, add the other ingredients, putting in the sausage and onion last. One-half cup of salt pork minced can be used instead of sausage if desired. In this case also add about $\frac{1}{3}$ cup melted butter to the potato mixture. Cook the onion for a few minutes in the salt pork.

RECIPE 257. ONION STUFFING FOR WILD DUCKS.

The stuffing with Onions and Sausage (see Index) is nice for wild birds of all kinds. Sometimes a small onion has a whole clove stuck into it and the onion is then placed inside of the bird. These onions are not eaten as they are for seasoning purposes only.

RECIPE 258. POULTRY OR FISH DRESSING.

(This quantity is sufficient for a medium-sized chicken, or a large fish. For turkey, the recipe will have to be tripled or quadrupled.)

2 cups dry bread crumbs	$\frac{2}{3}$ cup milk (hot)
1 cup cracker crumbs	$1\frac{1}{2}$ teaspoon salt
$\frac{1}{2}$ cup butter or part drippings	$\frac{1}{4}$ teaspoon pepper
	1 teaspoon sage
	$\frac{1}{4}$ teaspoon savory

1 level tablespoon grated onion

Mix together the crumbs and seasoning. Mix the hot milk and the butter and add to the crumbs.

RECIPE 259. CORN MEAL STUFFING.

1 cup yellow corn meal	1 teaspoon salt
2 cups bread crumbs	$\frac{1}{2}$ teaspoon pepper
3 tablespoons butter	1 teaspoon herbs
1 cup hot water	$\frac{1}{4}$ teaspoon paprika

Mix dry ingredient, melt butter in hot water, toss lightly through dry ingredients, having them moderately moist. Bread crumbs about one day old.

RECIPE 260. FRICASSEE OF CHICKEN.

Cut up a fowl which has been picked, singed and washed. Put it on in a deep sauce pan and cover with cold water. If it seems to be a very tough fowl add a quarter of a teaspoon of baking soda to water. Let it cook at a slow, simmering heat until tender. The time will depend upon the age of bird, usually about three to four hours. Season when about half cooked. Allow plenty of time, for if the bird is tender before it is needed it can be left in its broth until needed and simply warmed up again, while a bird which is underdone is undesirable. When the fowl is ready to serve, remove for a few moments onto a hot pan while you thicken the gravy. If desired, milk or cream may be added to the broth in which the fowl was stewed. Thicken the broth with flour which has been wet with enough water to make a paste thin enough to pour. Stir until the gravy thickens, put the chicken back into the gravy to heat again for a moment. Put hot baking powder biscuits on a platter, place the pieces of fowl on top and pour over part of the gravy. Serve more gravy in a sauceboat.

RECIPE 261. CHICKEN FRICASSEE SOUTHERN STYLE.

Follow the directions for cleaning, singeing and cutting up the fowl. Roll each piece in flour and saute it in salt pork fat, until nice and brown. Put the chicken when it is brown into a deep sauce pan, cover with boiling water, add a bay leaf, a slice of onion and let simmer until tender. Add salt and pepper when the bird is about half done. When tender, thicken the gravy with flour and water and serve over hot baking powder biscuits. Sometimes rich pie dough is rolled about half an inch thick, cut into diamond-shaped pieces, and baked and then used under the fowl on the platter. Cover with gravy and serve hot.

RECIPE 262. PLAIN FRIED CHICKEN.

For this purpose be sure to select a young chicken. Clean, singe and disjoint. Roll in flour and saute in the frying pan with enough fat to brown it well. Salt fat pork "tried out" makes a very nice fat for sauteing chickens. Cut the salt pork into small pieces and fry it

slowly in the pan. When the pork is brown and crisp remove the pork scraps, leaving the fat in the pan for the chicken. Cook chicken slowly, turning frequently. It will take about twenty to thirty minutes in which to cook the chicken. Remove chicken from the pan, add hot water or milk to the fat in the pan, thicken with flour and water. Put the chicken on a hot platter and serve the gravy in a sauceboat. The chicken may be served on buttered toast if desired. Season when about half done.

RECIPE 263. FRIED CHICKEN COUNTRY STYLE.

Proceed as for Plain Fried Chicken. When chicken has been cooked until a light brown, cover it with cream or milk and let simmer very slowly for about twenty-five minutes. Remove from the pan onto slices of hot toast on a platter. Thicken the gravy in the pan with flour and water, pour over the pieces of chicken and toast. Serve at once very hot.

RECIPE 264. FRIED CHICKEN MARYLAND STYLE.

Clean, singe and disjoint a young chicken, having it cut into at least ten pieces, roll each piece in flour, then in egg, then in dry bread crumbs. Take $\frac{1}{2}$ pound of salt pork, cut it into small pieces and saute it in an iron frying pan until the pork is crisp, then skim out the bits of pork. Into this hot fat lay the pieces of chicken. Cover well and let cook very slowly for about thirty minutes until well done and nice and brown. Turn each piece frequently so that it may be brown on all sides. When chicken is done remove from the pan to a warm place. Pour off all the fat from the pan except 4 tablespoons. Into these 4 tablespoons of fat, add 3 level spoons flour. Stir rapidly until flour is mixed, then add $1\frac{1}{2}$ cups of cream or milk, stir until it thickens. Add $\frac{1}{2}$ teaspoon salt to the gravy and pepper and paprika to taste. Put the chicken on slices of buttered toast, pour the gravy over the chicken. Serve with Corn Fritters (see Index), or Corn Oysters (see Index).

RECIPE 265. FRITOT OF CHICKEN.

Prepare a young chicken by cleaning, singing and disjointing into about ten pieces. Put the pieces of chicken into an iron frying pan and cover them with cold milk or cream. Cover and let simmer for thirty minutes very slowly. Have a slow fire and the milk will not burn. When chicken is cooked add enough flour and water to the milk in the pan to make a very thick

White Sauce, as heavy as a No. 3 White Sauce (see Index). Have each piece of chicken well covered with this White sauce. Remove from pan and set away for at least half an hour to get cool, then roll each piece of chicken in dry bread crumbs, then in egg, then in bread crumbs. Fry in deep fat until brown, about a minute. Heat the White sauce which remains from the first process and thin it down to the right consistency for a gravy. The chicken can be served on toast if desired. Serve gravy in a sauceboat. Do not pour it over the chicken, as that will soften the crisp crust around the chicken. Serve very hot. Garnish with parsley if desired. In the winter, when young chickens are scarce, fowl may be used but must first be stewed until tender in water, then covered with the thick White sauce and set away to cool. Then follow directions for frying, proceeding just as for the young chicken.

RECIPE 266. CHICKEN CREOLE.

Cut up a young chicken weighing about one and one-half pounds into quarters. Roll each piece in flour and saute a nice brown in any fat desired, salt pork, lard or butter. Cook very slowly about thirty minutes. When done put it in a hot pan in the oven to keep warm. Put into the fat the chicken fried in, $\frac{1}{4}$ cup of minced onion, and if desired a small piece of garlic. Saute these for two or three minutes, then stir in 1 cup of tomato puree or cooked tomatoes, 2 tablespoons of minced cold boiled ham, 1 minced pimienta, and 1 tablespoon minced parsley. Add 1 cup boiling water, 1 teaspoon kitchen bouquet and stir all the ingredients well. Then add the chicken, cover it well and let all simmer together slowly for ten minutes until chicken absorbs the flavor of the sauce. Serve on toast with the sauce poured over it. The sauce can be strained or not, as desired.

RECIPE 267. BROILED CHICKEN.

Clean and singe a tender young chicken and split it down the back. Press it down hard on the board to make the inside bones flatten down a little. Cover the skin side with melted butter and place on a broiler with skin side up. Let it broil for five minutes, then turn it over with skin down. Let it cook slowly for ten minutes. Remove from broiler and put into a shallow pan, add some butter and season well and put into the oven to bake for five or ten minutes. It needs the oven finishing, as a chicken is apt to get too brown under the broiler before

inside of the chicken has time to cook. Baste once or twice with melted butter, while it is in the oven. When ready to serve place on toast on a hot platter and serve with Maitre d'Hotel Butter (see Index).

RECIPE 268. CHICKEN GOULASH.

Disjoint a young chicken, saute a nice brown, then put into Dutch oven or a casserole. To the fat in which the chicken was sauted, add 2 medium-sized minced onions, 1 carrot which has been boiled and sliced, saute for two or three minutes then skim them out and add to the chicken in the casserole. Pour out of the frying pan all of the fat except about 4 tablespoons, add to this 2 tablespoons of flour, stir for a minute until smooth, then add 2 cups of hot water, stir well, season to taste with salt, pepper and paprika, add 1 cup tomatoes or a tomato puree, stir until it boils, then pour this sauce over the chicken in the casserole. Cover and let cook very slowly about twenty minutes if it is a very young chicken. A hen may be cooked in this way but more water must be added and the hen must be cooked slowly in the casserole at least three hours. Serve hot boiled rice with this dish or Corn Fritters or Corn Oysters are nice with it.

RECIPE 268B. ROAST CHICKEN.

See recipe for Roast Turkey. Proceed in the same manner, substituting chicken for the turkey.

RECIPE 269. PLANKED CHICKEN.

Clean, singe and thoroughly wash a tender young chicken. Split it down the backbone, wipe out the inside with a damp cloth, being sure to remove the lungs and any cords which may be clinging to it. With a cleaver or a potato masher, crack the inside bones a little so that the chicken will lie flat. Put little skewers into the chicken to fasten the wings to the body and the legs flat. Cover with a little melted butter and put under the gas broiler or over coals for about five minutes, with the skin side away from the fire. Then turn and let the chicken cook on the skin side for five minutes. Now put it in a shallow pan in the oven and let it bake about twenty minutes, basting frequently. Heat the plank in the oven for five minutes. Place the chicken on it, skin side up. Make a border of mashed potatoes, of boiled rice or hominy around the chicken, on the plank. Stuffed baked tomatoes may be placed on the plank with the

potatoes. See Index for directions for planking. Place the planked chicken in the broiler, or in oven and let the potatoes brown nicely. Serve on the plank.

RECIPE 270. CHICKEN A LA KING.

Pick a tender young hen, have it drawn, washed and singed. Put it whole into a deep vessel of cold water. Let it come slowly to the boil and then let it simmer until tender. Add seasoning when about one-half done. A bay leaf and one onion can be cooked with it if desired. The time of cooking varies according to the age of the chicken. Probably three to four hours. When tender remove from fire, let it stand in the broth until cold. For a small family one-half the chicken will be enough. The legs, wings, neck and giblets can be reserved for Chicken Hash Southern Style (see Index), or Chicken Croquettes (see Index), or Chicken With Rice (see Index).

Cut the breasts and thighs into pieces about one inch in size. This will make about a cupful. Then follow recipe as below.

For a small family, if desired, reserve the breasts and thigh for Fritot of Chicken (see Index), or a Chicken Supreme (see Index). In this case, use the legs, wings, neck and giblets for the Chicken a la King, cutting in as large pieces as possible.

One large hen will serve eight people plentifully, by adding double the amount of all the other ingredients.

RECIPE 271. CHICKEN A LA KING FOR TWO.

First Part.

1 tablespoon of butter	1 pimienta
1 tablespoon minced onion	$\frac{1}{2}$ can mushrooms, sliced
1 tablespoon flour	3 cups sweet cream or milk
1 green pepper	
$\frac{1}{2}$ teaspoon salt	

Second Part.

1 cup chicken	1 tablespoon lemon juice
2 tablespoons butter	
2 yolks eggs	$\frac{1}{4}$ teaspoon paprika

To mix First Part, melt butter, stir in onion, fry for a moment, then add pimienta, green pepper, mushrooms and seasoning; stir two or three minutes, add flour, stir this in thoroughly, then add cream or milk, and last the

little knife and run it along the breast bone on either side chicken. Set this where it will keep hot while you prepare the Second Part.

To mix Second Part, cream the yolks of eggs, then cream the butter and slowly stir in the yolks into the creamy butter; when nice and smooth stir this butter and egg mixture into the chicken mixture. Let this cook for just a minute or two until the egg has "set," then add the lemon juice. Have a sufficient number of slices of toast ready and pour the meat and sauce on the toast. Serve at once very hot.

RECIPE 272. PLAIN CHICKEN A LA KING.

Boil hen until tender, then reserve wings, giblets and legs for some other dish and cut up the breast and thighs for Chicken a la King.

Cut in pieces

½ can mushrooms 1 pimiento 1 green pepper

Take 1 pint of the chicken broth, add the pimientos, green pepper and mushrooms, 1 cup of milk or cream, season to taste and thicken with enough flour to make a nice thick sauce. Serve hot on toast.

RECIPE 273. CHICKEN WINGS WITH RICE.

Nice way to use the left-over wings and legs. Boil ½ cup of rice until tender in 1 quart of boiling water. Drain and dry. Put rice on a platter, place wings and legs on the rice and pour over all a nice chicken gravy from the broth in which chicken was cooked.

RECIPE 274. EGGS POACHED IN CHICKEN GRAVY.

Take the required number of eggs, poach them in chicken gravy, place them on toast and pour over them the gravy in which they were poached. A minced pimiento or a green pepper can be added for a change.

RECIPE 275. SUPREME OF CHICKEN NO. 1.

Clean, draw and singe a tender hen. Put it on whole to cook in a kettle of cold water. Let it come slowly to boiling point and let it simmer until tender. When about half done add salt and a few peppercorns. A bay leaf can be added and an onion if desired. When tender let it cool in the broth in which it cooked. When ready to serve remove the fillets attached to the top joint of the wing. The fillets are the breasts which lie along the breast bone. To remove them nicely have a sharp

of the bone. Gently slip it under the meat, continuing the process until the meat is loose from the bone up to the wing joint. Do not remove the meat from the wing, but cut the wing loose from the body of the chicken and have the fillet still attached to it. Cut off the lower tip of the wing, leaving only the upper joint attached to the fillet. Dip these fillets and wing joints in a nice fritter batter and fry in deep fat. When brown (in about one minute) lay them on slices of toast and pour around them a White Sauce No. 1, or a Perigeux Sauce (see Index). The rest of the chicken can be used up in various ways, in Chicken Croquettes, a Supreme of Chicken No. 2, or Creamed Chicken Southern Style (see Index).

RECIPE 276. SUPREME OF CHICKEN NO. 2.

Boil chicken whole until very tender. For a small family make a Supreme No. 1, for the first day, out of the two breasts (fillets) of chicken. The next day put the meat from the rest of the chicken through a grinder. This will make about 1 cup of ground chicken. Take the recipe for Chicken Croquettes (see Index) and make up the chicken croquette mixture and set it away to get cold, just as you do for croquettes. When ready to cook the Supremes, take the leg and thigh bones, scrape and clean them well of all gristle. Now take the bone and shape the chicken mixture around each bone, just as nearly as possible making it into the shape of the original meat which came around the bones. Roll each supreme in dry bread crumbs, then in egg, again in crumbs. Fry them in deep fat like a doughnut. Have the fat just hot enough to fry them brown in one to two minutes. Serve on toast, very hot. Serve with a White Sauce, a Perigeux Sauce or a Tomato Sauce or sauce with Peas and Carrots in Cream. Do not pour the sauce over but around them, as the Supremes want a crisp crust over them and the sauce will soften it.

RECIPE 277. SUPREME OF CHICKEN NO. 3.

Cut the fillets (or breasts) from tender young chickens, weighing from three to four pounds. See the recipe for Supreme of Chicken No. 1, for the process of removing the fillets with the wing first joint. Make the following White Sauce (Veloute Sauce) and let the fillets simmer in it for half an hour:

$\frac{1}{4}$ cup butter	$\frac{1}{2}$ teaspoon salt
$\frac{1}{4}$ cup flour	$\frac{1}{4}$ teaspoon pepper
1 quart white stock (chicken or veal)	$\frac{1}{4}$ teaspoon paprika

Melt butter, add flour, rub into a smooth paste, add the white stock and seasonings. Stir until it is smooth. Place fillets of the chicken into this sauce in a frying pan and put a slow fire under them. Do not have a hot fire or the sauce will burn. When the fillets are done, see that each one is well covered with the White Sauce and set them away to get cool and the sauce to get firm. This should be done at least an hour before ready to finish cooking them. They are all the better for standing several hours. When nearly ready for the meal, put on a kettle of deep fat to heat. Roll the fillets in dry bread crumbs, egg, and then again in crumbs. Fry them in the hot fat for two or three minutes until nice and brown. Serve them on toast and pour the White Sauce which was left in the pan, well heated, around them. Serve at once. The entire chicken can be cooked in this way if desired, in which case disjoint it just as for plain fried chicken. If a Brown Sauce is desired add a few drops of Kitchen Bouquet to the milk sauce.

CHICKEN CROQUETTES.

See Recipe 157.

RECIPE 278. CHICKEN A LA MARENGO.

2½ pound chicken	2 tablespoons flour
1 small onion	1 cup strained tomato
1 tablespoon chopped parsley	4 tablespoons sherry
½ can mushrooms	¼ nutmeg grated
1 clove garlic	1 teaspoon thyme
½ cup milk	1 teaspoon salt
	Dash Tabasco sauce

Singe and draw the chicken. Cut it as you would for a fricassee. Dust with salt and pepper, then rub into the flesh the powdered thyme and nutmeg. Put the chicken in a frying basket and plunge it into deep hot fat. Cook slowly for fifteen minutes, then drain. Put it into a sauce pan with 4 tablespoons butter, the onion chopped fine, the mushrooms, the garlic sliced and mashed, and one chopped pickled walnut, if you have it. Shake over the fire for about three minutes, then dust over the flour. Mix, and add the tomato strained, the milk and ½ cup of water. Cover and cook slowly for three-quarters of an hour. Then add the sherry and dish in a pyramid form. Garnish with fried eggs and serve at once.

Game

RECIPE 279. ROAST DUCK.

The feathers of ducks are easily removed by first wetting the thumb of the right hand. Hold bird by the leg and pick the feathers with an upward movement. The very fine down which lies close to the body may be singed off. The bird should be well washed after the singeing. The meat of all wild birds is inclined to be a little dry. For this reason do not cook them too long and it is well to wrap a piece of salt pork or bacon over the breasts while they are baking. Many persons lard the breasts with salt pork. This is done by means of a larding needle made for this purpose. The pork strips are drawn through the breasts several times and then allowed to remain there during the roasting process. Wild game is usually served more rare than domestic birds like chicken and goose. Do not allow over fifteen minutes to the pound for roasting. See general directions for stuffing (see Index).

RECIPE 280. ROAST PARTRIDGE.

See directions for Roast Duck.

RECIPE 281. BROILED QUAIL.

After the bird is picked and cleaned, split it down the back, rub a little salt and pepper on the inside and over the breast. Fasten with wooden toothpicks or a small skewer, a piece of bacon or salt pork over the breasts, and broil over a hot fire for a few minutes. The time required depends upon individual taste, some like all game very rare, so that the blood follows the knife when it is cut, others prefer their game well done. Game should not be overdone.

RECIPE 282. ROAST QUAIL.

Roast Quail may be served with a stuffing or not, as desired. Put a piece of bacon or salt pork over the breast while roasting.

RECIPE 283. RABBIT OR HARE COUNTRY STYLE.

Follow recipe for Chicken Country Style (see Recipe 263), substituting rabbit or hare for chicken.

RECIPE 284. FRIED BELGIAN HARE.

Skin the hare carefully and see that no hairs remain on the flesh. Disjoint the hare, cutting the hind legs each for one portion. Cut across the back, making two or three portions more, and then remove each front leg. The hind legs are considered the best part of the animal. Roll them in flour and saute in an iron frying pan with sufficient fat to keep them from burning. Cook slowly with a cover over the pan and turn the pieces frequently that they may brown evenly on all sides. It will take about twenty minutes. When done, make a gravy from the fat in the pan. Allow one tablespoonful flour for each spoonful of fat. Rub the flour into the hot fat until smooth, then add either milk or water, one cupful for each spoonful of fat and flour. Season to taste. The hare should be seasoned in cooking when it is about half cooked.

RECIPE 285. FRIED RABBIT.

See recipe for Fried Belgian Hare.

RECIPE 286. ROAST SQUABS.

See recipe for Roast Quail. No. 282.

RECIPE 287. BROILED SQUABS.

See recipe for Broiled Quail. No. 281.

RECIPE 288. PIGEON OR SQUIRREL PIE.

Disjoint and cover with cold water. Let simmer until tender, adding, if desired, a very small bay leaf, a slice or two of onion and carrot. One whole clove, salt, pepper should be added. Make a rich pie dough (see Index), line a deep pan with it, roll out the upper crust. Thicken the sauce around the pigeon or squirrel. Have plenty of the sauce. Turn the stew into pan, quickly put on the upper crust and place at once on the bottom of a hot oven. As soon as the crust is baked the pie is done. Serve at once. The secret of all good meat pies is to have an abundance of gravy in the pie. The seasoning can be changed from time to time by the addition of various left-overs. A few tomatoes, potatoes, pimientoes, green peppers, peas, an olive or two, Worcestershire sauce, tomato catsup, etc. Any of these will give a welcome change from monotony in seasoning.

RECIPE 289. PIGEON, SQUIRREL OR SQUAB EN CASSEROLE.

Clean well, roll in flour, saute in frying pan until brown. Squirrel should be cut into two or three pieces. birds should be left whole. When brown, place in casserole, add one cupful hot water to grease in frying pan, pour this over the meat in casserole, add one green pepper sliced, one-half cupful tomatoes, three or four sliced olives, one tablespoonful minced parsley or sliced onion if desired. Season well. Cover and simmer slowly one hour, add a little flour to thicken the meat sauce.

CHAPTER VIII

Meats

RECIPE 290. ROAST BEEF.

Select a one-rib roast for a small family. Heat the roasting pan good and hot, place the roast in it without any water and sear it well on both sides to seal in the juices. Bake it in a quick oven for about ten minutes without water or fat. Now add a cup of boiling water to the pan, shake some salt, pepper and a little flour on the roast, turn the fire down to just a moderate heat and bake slowly until done. Allow fifteen minutes for each pound if you wish it rare, or twenty minutes to the pound if you want it well done. Baste frequently and when half done turn over the roast and season it on the under side, with salt and pepper.

When it is done make a nice brown sauce from the juices in the pan. A few drops of Worcestershire sauce adds to the flavor of the sauce. If the sauce is not brown enough, add a teaspoon of Kitchen Bouquet, which will give it the required color.

RECIPE 291. ROAST LAMB.

Follow the same process as in cooking beef. Serve with Brown Gravy, Mint Sauce or Mint Jelly.

RECIPE 292. ROAST VEAL.

Follow the same process as in beef, only veal is never served rare, so allow the full twenty minutes for each pound. Serve with Brown Gravy.

RECIPE 293. ROAST PORK.

Follow the same process as for beef, but allow a full twenty minutes for each pound. Serve with Brown Gravy.

RECIPE 294. VENISON ROAST OR BROILED.

Follow recipe for Cooking Roast Beef or Beef Steak, substituting venison for beef. Serve with Cumberland Sauce (see Index).

RECIPE 295. BEEF LOAF.

1 pound hamburger steak	1 tablespoon Worcestershire sauce
1 cup cracker crumbs	1 egg
1 ½ cups water or milk	1 teaspoon salt
	1 teaspoon pepper
½ teaspoon paprika	

Shape this mixture into a loaf in a baking or roasting pan, put a cup of hot water around it with a tablespoon of lard or drippings. Cover the loaf lightly with flour and bake in a hot oven thirty minutes, basting frequently. Make a nice Brown Sauce from the juice in the pan. If sauce is not brown enough, add Kitchen Bouquet.

RECIPE 296. BEEF LOAF CREOLE.

Follow directions for plain Beef Loaf, but cover the loaf when you get it in the pan with a layer of tomatoes, a layer of minced boiled onions, a little chopped parsley and a few buttered bread crumbs. To vary this dish use chopped green peppers when they are in season. A chopped pimiento is also nice. A few bits of minced bacon or salt pork placed on top the bread crumbs gives added flavor.

RECIPE 297. BEEF LOAF SPANISH.

Follow directions for making Beef Loaf (see Index). Serve with a Spanish Sauce.

RECIPE 298. SPANISH SAUCE.

Simmer two cups tomatoes, two whole cloves, three peppercorns, one bay leaf, two sprigs parsley, two minced onions, one-half teaspoon salt for fifteen minutes. Rub two tablespoons butter with one of flour until smooth, then add it to the tomato sauce, stir until it thickens. Strain and pour over the hot beef loaf and serve at once on a hot platter. Garnish with parsley. This sauce can be strained if desired.

RECIPE 299. TAMALE LOAF (Contributed).

Put through the meat grinder:

1 cup veal or chicken	3 tablespoons salt pork
1 medium onion	1 medium onion
	1 clove garlic

Saute these for 5 minutes in the frying pan, then add 1 cup corn, 1 cup tomatoes, 1 cup ripe olives (minced), 1 cup yellow corn meal, $\frac{1}{2}$ cup olive oil, 1 teaspoon salt, $\frac{1}{4}$ teaspoon pepper, 1 teaspoon paprika. Let them all simmer 15 minutes, then add 1 beaten egg stirred into $\frac{1}{2}$ cup milk. Continue boiling for 15 minutes, then put it all into a baking pan. Shape into a loaf and bake 20 minutes. This will keep for several days.

RECIPE 300. BEEF LOAF WITH RICE.

$\frac{1}{2}$ pound hamburger	1 large onion minced
1 cup boiled rice	1 green pepper minced
1 cup tomatoes	1 teaspoon salt
$\frac{1}{4}$ teaspoon paprika	$\frac{1}{4}$ teaspoon pepper
2 tablespoons butter	

Cook slowly one-half hour the tomatoes, butter, onion, green pepper and seasoning. Add rice. Mix well with hamburger. Shape into a loaf. Bake 20 minutes, or until brown.

SUGGESTIONS FOR PLANKED STEAK, CHICKEN OR FISH.

A very choice way of serving steak, chicken or fish is to use a plank. These planks can be bought in any store for general house furnishings, which carry kitchen utensils. It consists of a piece of oak or hickory, cut an inch and a half thick. Meats can be planked in the oven or under the gas broiler. If a gas broiler is used, place the plank at the lowest possible slide in the broiler, resting on the regular gas broiler. Articles cooked in this way have a delightful flavor and are rich in juices. Keep one side of the plank for cooking fish and the other for meats. A small cut in the side of the plank will enable you to always know which side is for the meats. Before using the plank heat it in the oven for five minutes. The entire cooking of fish is done on the plank, but steaks must be partly broiled first before being placed on the plank (see Planked Steak, Index). When chickens are planked they are placed at once on the hot plank, but when nice and brown the cooking is finished in the oven (see Planked Chicken, Index).

The use of a plank enables the artistic housewife to serve many appetizing dishes with very dainty borders of left-over dishes. Left-over meats, served with White Sauce No. 2, can be planked and the plank garnished with other left-over dishes; for example, mashed potatoes, spaghetti and cheese, or macaroni and cheese, cold

boiled rice, stringed beans, baked beans, etc., can all be used in making a border around left-overs of all kinds. Hard boiled eggs, riced and used in borders with creamed left-overs make a very pretty border, having one border of the whites and one border of the yolks. The opportunity for pretty decorations is limited only by the ingenuity of the housewife. Hash, planked, with a border of mashed potatoes or some other left-over, may become an artistic triumph. Sliced tomatoes, with a light covering of buttered bread crumbs, gives a delightful bit of color as well as taste.

RECIPE 301. PLANKED STEAK.

First broil the steak. Follow directions for Broiled Steak (see Index), but take the steak from the broiler when it has about five minutes more to cook. Place steak on a hot plank, and surround by a border of mashed potatoes, leaving room for any further decoration desired. For instance, when fresh tomatoes are in season, you can select nice, firm tomatoes, stuff and bake them (see Index), and have them ready cooked to put on the plank with the steak for a decoration. Allow one tomato for each person. Place them at proper distance from one another to dress the plank well. Place plank into oven or bottom of broiler to cook for five minutes. Serve steak on the plank. The potato border will brown more quickly if slightly brushed with yolk of an egg. If the yolk or white of a left-over egg is well beaten with the potato before it is placed on the plank it will make it puff up nicely. By the use of a pastry tube and bag you can soon learn how to execute some very pretty designs with mashed potato borders.

RECIPE 302. PLANKED FISH (see Index).

RECIPE 303. PLANKED CHICKEN (see Index).

RECIPE 304. PLANKED LEFT-OVERS (see Index).

RECIPE 305. BROILED STEAK.

Do not make the mistake of having steak too thin. It should be at least an inch thick and it is all the better if one and one-half to two inches thick. Have broiler hot. Cook with a very hot fire for five minutes (turn it at the end of two or three minutes). As soon as the two sides are both well seared, so the juices cannot escape, reduce fire a little and let broil until done. Season with salt and pepper when steak is about half done. The time

of cooking will depend upon thickness of steak and whether you like it well done, medium or rare. A medium steak should show a pinkish red in the center. Have a platter very hot, put steak on it, garnish with parsley and potato chips, if desired. Put a little butter over the top, or use a Maitre d'Hotel Butter (see Index). For a change, if you like it, gash the steak a little when it is on the platter, rub just a very little made mustard over it and pour on a sauce of three tablespoonsful melted butter in which you have put one teaspoonful Worcestershire sauce. Serve at once.

RECIPE 306. STEAK COUNTRY STYLE.

Take a flank or round steak, score it well on both sides, dip it in cold water for a minute, then brush it with vinegar and roll it in flour. Season with salt and pepper and saute it slowly in frying pan with dripping of ham, bacon or salt pork. When nice and brown, pour in one cupful of hot water or milk, cover well and let it simmer slowly one-half hour. Then thicken the gravy. Put meat on platter and pour gravy over it.

RECIPE 307. VEAL STEAKS COUNTRY STYLE.

Roll the slice of meat in flour. Saute in fat in frying pan until a delicate brown. Cover with milk, put a lid on the pan and let the meat simmer for thirty minutes. Season when about half done. Thicken the milk with a little flour. Serve on platter over the meat. If a Brown Sauce is desired, add a few drops of kitchen bouquet or caramel.

RECIPE 308. MOCK DUCK.

Take a round or flank steak. Cook it as in Steak Country Style until tender. Then lay it out flat and spread on it a stuffing of onions and bread crumbs (see Recipe 251). Roll up the steak, fasten the ends with little skewers, or tie it so that the stuffing cannot fall out. Place in the oven for fifteen minutes. Serve with the hot gravy from the pan. Extra nice if cooked in a casserole or a fireless cooker.

RECIPE 309. GERMAN POT ROAST.

Select a short, thick chunk of rump. Do not let the butcher sell you a long, thin piece of meat—insist upon a chunky cut. The "crosscut of the rump," it is sometimes called. Different localities have different names

for the same cuts. For a small family get about four pounds. It is difficult to cook a smaller roast well, and what is left over from the roast can be used up in many ways as a left-over. Have a heavy iron pot, deep enough to permit the roast to have an iron lid over the pot. A Dutch oven is ideal for this. Every house furnisher has them. Heat the pot very hot. Place the roast into it without any water in it. Turn the roast constantly every minute or two until the entire outside is well seared to keep the juices in. Let it simmer very slowly for fifteen minutes, well covered, and turning now and then. After this, add one teacupful hot water and let simmer for one hour. Then add one-fourth cupful vinegar, one bay leaf, one onion, one tablespoonful Worcestershire Sauce, one teaspoonful salt and four or five peppercorns. Let simmer well covered for four or five hours, very slowly. Look at it now and then that the water does not get too low. Never have over a cupful at a time in the pot. When very tender, remove from the pot and thicken the gravy with a little flour wet up with some water to a smooth, thin paste. If the gravy is not brown enough to suit, add a few drops of kitchen bouquet. Put the pot back where it will keep warm, put the roast into it and let stand until ready to serve. Put the roast on in plenty of time, so that you are sure it will have time to become tender. It can stand and wait for the dinner hour better than the dinner can wait for it. What is left of the roast after the meal can be used up in many ways. See Chapter on Left-Overs. If it is desired to serve carrots, tomatoes, turnips and potatoes with this roast, let the tomatoes cook with the roast for twenty minutes before you thicken the gravy. The other vegetables may be boiled in just enough salted water to keep them from scorching, until tender. Then at the last they may be added to the pot with the roast and thickened gravy and let stand for a few minutes that the flavors may blend. The vegetables are sometimes cooked with the roast, but great care must be taken that they do not slip under the roast and scorch.

RECIPE 310. FLANK STEAK STUFFED AND BRAISED.

Select a flank steak weighing about one and one-half pounds. Have the butcher peel off the superfluous fat and tissue and score both sides diagonally in opposite directions. Lay the steak flat on a meat board and sprinkle with salt and pepper. Spread over it a thin layer of stuffing, roll lengthwise, very compactly, sew

the overlapping edge securely, also the ends. Sprinkle with salt and pepper and dredge with flour. Place meat in well greased pan to brown richly, turning roll until it is browned all over. Then remove to a Dutch oven or casserole; rinse dripping pan with a little boiling water, pour over meat and surround with two cups stewed and strained tomato pulp, one onion thinly sliced, one green pepper shredded (after removing seeds and veins), two sprays parsley, the half of a small bay leaf and two tablespoons Worcestershire Sauce. Cover closely, place in oven and cook meat very slowly about three to four hours. Remove meat to serving platter. Dilute four tablespoons flour with cold water to the consistency to pour, add to sauce in pan, stir until well blended, season with salt and pepper, let simmer ten minutes, then strain around meat. Garnish with sprays of parsley or cress.

RECIPE 311. MEAT PIE.

Follow directions for Pigeon Pie or Squirrel Pie, substituting any left-over meat for the game. Have the meat simmer for several hours until it is tender enough to fall apart. Tough meat may be treated in this way and with proper seasoning will make a delicious dish.

RECIPE 312. SOUP MEAT PIE.

Follow directions for Pigeon Pie or Squirrel Pie, remembering to add a tablespoonful of butter to the pie, to give a little richness which the soup lacks. It will require a little higher seasoning than meat from which the juice has not been taken. If onions are liked, add a generous portion of them. Tough parts of celery may be utilized by cooking tender and adding it with the water it boiled in to the stew of Soup Meat.

RECIPE 313. SOUP MEAT CROQUETTES.

See recipe for Meat Croquettes (see Recipe 157). Allow the seasoning to be a little higher and instead of using one teaspoon butter to one cupful meat, allow one tablespoon for each cup of meat to make up for the deficiency in fats.

RECIPE 314. PLANKED HAMBURGER STEAK.

Warm the plank for five minutes in the oven or broiler. Butter it well. Spread the hamburger out in an oblong mass about one inch thick. Put a few bits of butter over it or bits of bacon or salt pork. Season well. Bake in oven twenty minutes, or broil under the gas for

about ten minutes. Serve on the plank with a little melted butter poured over it, or a Maitre d'Hotel Sauce (see Index).

RECIPE 315. PLANKED HAMBURGER SPANISH.

Broil on the plank as in Planked Hamburger. At the end of about ten minutes remove from the broiler and lay slices of tomatoes and very thinly sliced onions and green peppers over it. Spread on a few buttered bread crumbs. A border of left-over rice or mashed potatoes or macaroni and cheese or spaghetti and cheese makes a pretty finish for the dish. Put them on the plank when you add the vegetables. Bake about ten minutes. If potatoes are used they should be brushed lightly with the yolk of an egg to make them brown nicely.

RECIPE 316. BROILED HAMBURGER BALLS.

Take two tablespoonsful of hamburger, press it out into an oblong flat shape, wrap a slice of thin bacon around it, fasten bacon securely with a wooden toothpick. Broil until done. Time will depend upon whether you want rare, medium or well done meat. Do not overcook it. Allow as many pieces as required. One-half pound of hamburger is enough for a small family.

RECIPE 317. CREAMED HAMBURGER HASH ON TOAST.

Follow the directions for plain Hamburger Hash on Toast, substituting cold milk for the water. If you use hot water or milk you harden the fiber of the meat and it will be lumpy.

RECIPE 318. HAMBURGER HASH ON TOAST.

1 cup raw hamburger	salt, pepper and paprika
1 cup cold water	to taste
1 tablespoon butter	1 tablespoon flour

Stir the hamburger and water together, put over a slow fire and let come slowly to the boiling point, stirring all the time, so it will be smooth. Rub the flour and butter together, add to the meat, stir well, add seasonings. Butter some fresh toast, pour the hamburger on toast and serve at once. A tablespoonful of tomato catsup or a tablespoonful of minced parsley is nice. For a change serve poached eggs with it, allowing one egg for each slice of toast. Green peppers or a minced pimiento can be used.

RECIPE 319. HAMBURGER COUNTRY STYLE.

Make into balls, roll in flour, salt and pepper and saute a nice brown, then cover with milk and let simmer for fifteen minutes; thicken the gravy, serve hot.

RECIPE 320. POT ROAST OF VEAL OR LAMB.

4 pounds rump of	1 pint stewed tomatoes
veal or lamb	3 diced carrots
2 ounces suet	2 teaspoons salt
$\frac{1}{8}$ teaspoonful pepper	

Try out the beef drippings in an iron kettle and remove the cracklings. Put in the meat and brown it slowly, taking care not to use too much heat, as that will make it stick and burn. When properly colored, remove from the pot, season and add balance of ingredients to drippings. Pour in a pint of boiling water or stock, replace the meat and put in the bones. Cover tightly and cook slowly from three to four hours. When meat is tender, remove and let it cool slightly, so that it will not fall apart when cut. Thicken the gravy with a tablespoonful of flour or cornstarch dissolved in cold water and allow it to boil for five minutes, then strain and season it with a half teaspoonful of Worcestershire Sauce. A small shoulder of veal or lamb, boned and rolled, can be used in this way.

RECIPE 321. VEAL BIRDS ON TOAST.

One pound veal cutlet cut one-half inch thick. Remove tough skin and fibers and cut meat into strips two and a half inches long by about an inch and a half wide. Pound these strips thin and flat with wooden potato masher. Take one-half cup cracker crumbs, season highly, add one-fourth cupful of milk stirred into one-half an egg. Mixture should be rather firm and stick together well. Spread a thin layer of these cracker crumbs onto each strip of veal and then roll it up like a jelly roll, fastening each roll securely with two wooden toothpicks. Roll each one in flour and saute them in a hot frying pan with two tablespoonsful of butter or fat of some kind. Saute a nice brown. This will take only a few minutes, then pour into frying pan around the "birds" one cupful of milk and let meat simmer slowly in this milk for thirty minutes. Remove "birds," place on hot toast and thicken the milk in pan for a nice "gravy" and pour over the birds. If there is not enough milk in the pan add a little more, season and thicken with a little flour. By placing the wooden toothpicks properly they will resemble the "legs" of the "bird."

RECIPE 322. VEAL OYSTERS.

Cut pieces of lean veal into pieces about the size of an oyster. Dip each piece in cracker crumbs, shake salt, pepper and a little ground mace on them. Dip in egg and again in bread crumbs. Fry in deep fat until a delicate brown. Will taste like oysters.

RECIPE 323. BEEF A LA MODE.

Select a short, thick piece of the crosscut of the rump. Have the butcher remove the bone, leaving a "pocket" in the meat. Into this fill a stuffing (look under recipes for various stuffings). The one called Onion and Sausage Stuffing is nice for Beef a la Mode. Close up the opening with skewers or a heavy thread after the stuffing is in. Take some long, slender strips of salt pork, and with a larding needle sew pieces of pork into the meat, or slits made in the meat with a long sharp knife will answer. Into these slits force some thin strips of salt pork. Now proceed just as for German Pot Roast, thoroughly searing the roast. Before adding any water thoroughly dredge the roast with flour, turning it well over so that all sides may be brown. There will be enough fat from the roast in the pot to do this nicely. Now add the water, but see that the end of the roast which has the opened end of stuffing in it is on the top, so that water does not soak into it too much. A couple of cloves and a quarter of a teaspoonful of nutmeg should be added to the water in the pot. Serve with a brown gravy from the roast.

RECIPE 324. BREADED PORK TENDERLOIN.

Split the tenderloins, pound them flat and cut into convenient sized pieces. Roll each piece in a little egg and milk, then in dry bread crumbs. Fry in an iron frying pan, cooking slowly till thoroughly done, in 2 or 3 spoons of hot fat. Season. Nice served with a Spanish or creole sauce, or a white sauce, or brown sauce.

RECIPE 325. PORK TENDERLOIN COUNTRY STYLE.

Split the tenderloins, pound flat, cut into convenient sized pieces, roll each piece in flour. Have ready a hot iron frying pan with 2 or 3 tablespoons hot fat. Fry tenderloins slowly. Cover frying pan with a lid. Season the tenderloins when you turn them, frying a nice brown. When done, remove from pan and add flour to fat in pan and 1 cup milk or water. Stir till it thickens. Pour over the tenderloins.

RECIPE 326. STUFFED PORK TENDERLOIN.

½ pound pork tenderloin	1 tablespoon butter
1 cup bread or cracker crumbs	4 slices bacon or salt pork
	1 onion minced

Cut the pork tenderloin across the grain in one-inch pieces and pound them down to one-half inch thickness. Fry the minced onion in the butter until onion is soft and looks yellow, and add to the crumbs. Season highly. Now dust the slices of meat with a little salt and pepper. Make a sort of sandwich with two pieces of meat with the onions and crumbs placed between to thickness of about one-half inch. Wrap each "sandwich" with a very thin slice of bacon, fasten bacon securely with a wooden toothpick. Place in a roasting pan and bake in oven about thirty minutes. Have a little water in the pan, but not enough so it will reach up to the bread crumbs. Can be served with or without sauce. Nice cooked in a casserole.

RECIPE 327. PORK TENDERLOIN LYONNAISE.

Wipe and split two pork tenderloins in halves, lengthwise, sprinkle with salt and pepper and dredge with flour. Brown the meat in an iron frying pan in hot fat. Remove to well greased dripping pan and add to fat three onions thinly sliced, cook until delicately browned, stirring often. Sprinkle over onions two tablespoons flour and stir well. Put two tablespoons vinegar into one-half cup hot water, add slowly to onions. Mix thoroughly. Lay tenderloins over onions, cover closely and cook in the oven until the meat is tender. Dispose tenderloin on hot serving platter and pour over contents of frying pan. Vinegar may be omitted and more water added.

RECIPE 328. PORK TENDERLOIN FINANCIERE.

Take one pound of pork tenderloin, a few pieces salt pork in thin strips. Take a larding needle and put strips of salt pork through the tenderloin. Roast in a pan with a little water, carrots, onions and celery. Keep on basting for three-quarters of an hour.

FINANCIERE.

Make a brown sauce by adding a little flour and water to gravy. Put in one-half glass of sherry, a few olives, chicken livers or sweetbreads cut in small dice and a few canned mushrooms. Pour this sauce over the baked tenderloin.

RECIPE 329. STUFFED CHOPS.

6 French mutton chops	2 potatoes
2 tablespoons chopped ham	1 teaspoon salt
	1 saltspoon black pepper
2 tablespoons butter	

Boil and mash the potatoes, add the chopped ham, salt and pepper and mix thoroughly. Put two tablespoonfuls of butter into a shallow frying pan. When hot throw in the chops and sear them on both sides. Heap on one side enough potato mixture to make a little mound. Dip the whole chop in an egg beaten with a tablespoonful of water, dust thickly with bread crumbs and fry in deep hot oil. Stand them in the center of a round dish, slip chop papers over the bones, fill the dish with nicely seasoned hot peas and send to the table.

RECIPE 330. BREADED CHOPS.

Select any chops desired, roll them in bread or cracker crumbs, then in egg and again in crumbs. Saute in an iron frying pan with sufficient fat to cook them a delicate brown. Cook with a slow fire, turn several times so that both sides may brown evenly. May be served with a gravy made from the fat in which the meat has cooked, or with a White Sauce No. 1 or a Brown Sauce. If the fat in the pan is used, which is a very nice way to serve the chops, pour off all the fat from the pan except two tablespoonfuls. Add one tablespoonful flour, rub smooth and add one cupful hot water or milk. Stir until it thickens. Season to taste. Pour over the chops, on a hot platter.

RECIPE 331. BROILED LAMB CHOPS.

Have the broiler very hot. Cook the chops until done to your taste. Season when about half cooked with pepper and salt. When daintily served they are placed on a hot platter between hot slices of buttered toast. The toast should be cut in rather longer than wide slices. They can be cut with a sharp point (dipped in butter, then in minced parsley). Have the toast freshly made and hot. Garnish platter with parsley and potato chips if desired.

RECIPE 332. BROILED ENGLISH MUTTON CHOPS.

These are cut not less than two inches thick. Broil in a very hot oven for five minutes, season and then broil in a moderate oven for fifteen minutes longer. Have them medium rare. Serve hot, with slices of hot but-

tered toast for a garnish. A Special Baked Potato (see Index) is nice with broiled steaks or chops.

RECIPE 333. BOILED LEG OF MUTTON.

Put the leg into boiling salted water, let cook tender, allowing twenty minutes for each pound. Allow 1 teaspoonful salt for each quart water. Serve with Drawn Butter, Caper Sauce or Mint Sauce. Serve Currant Jelly also.

RECIPE 334. BRAISED LEG OF MUTTON.

Have butcher remove the bone. Prepare a nice stuffing (see Index), fill and sew and place in a double roaster. Cut carrots, turnips into dice. Slice onions, cook vegetables in frying pan with one-quarter cup butter five minutes, then add three cups water, simmer five minutes, then pour all into the pan with the mutton, cover tightly, bake two and one-half hours slowly, then remove cover and brown thirty minutes. Make brown gravy, serve with the vegetables.

RECIPE 335. STUFFED ROAST SHOULDER OF LAMB, VEAL, PORK.

For small family three pounds is sufficient. Have the butcher make a "pocket" and remove the blade bone, and crack the joints between the ribs. This assists the carver. (See Index for Onion Sausage Stuffing.) Shake a little pepper and salt into the "pocket," fill with stuffing. Tie the roast sufficiently to hold in the stuffing, dust over outside with a little flour, salt and pepper. (See Index for directions for roasting meats.)

RECIPE 336. BRAISED VEAL SHOULDER.

Have shoulder boned. Fill with stuffing (see Stuffings). Prepare bed of vegetables as for braised beef. Lay veal on it, add 1 pint boiling water, 1 pint stewed tomatoes, $\frac{1}{2}$ teaspoon salt, $\frac{1}{4}$ teaspoon pepper. Cover and cook 4 hours in moderate oven. Uncover and brown. Serve strained gravy separately.

RECIPE 337. BRAISED BEEF.

Wipe and trim 4 pounds round or rump of beef without bone. Sear brown on all sides in very hot frying pan over hot fire. In braising pan or iron kettle put layers of sliced onions, turnips and carrots; add bunch of sweet herbs, 1 teaspoon salt, $\frac{1}{2}$ teaspoon pepper; on this lay meat. Add 1 pint boiling water (or water and stewed tomatoes). Cover closely and cook 4 hours in

moderate oven. If water evaporates rapidly add more. Transfer meat to hot platter. Strain, thicken and season gravy. The vegetables may be served separately if desired.

RECIPE 338. BRAISED BEEF TONGUE.

Order a fresh tongue, wash it and put in a kettle. Cover with boiling water; cook slowly two to three hours. Remove tongue from water, peel off skin and trim off roots. Place in Dutch oven or deep earthen dish and surround with one-half cup each of carrot, turnip, celery and onion, cut in half-inch dice, one green pepper (seeds and veins removed) cut in shreds and two sprays parsley. Pour over a quart of brown sauce seasoned with one-half tablespoon Worcestershire sauce. (Stock in which tongue was used may be used for making sauce.) Cover closely and simmer slowly (do not allow sauce to boil) two hours, or until tongue is tender. Serve on a hot platter.

RECIPE 339. BOILED BEEF TONGUE.

Cover a well pickled tongue with plenty of cold water, add 1 bay leaf, 2 or 3 whole cloves. Let come to the boil, pour off this water (and save it for soup stock). Cover tongue with fresh boiling water and let boil three or four hours, until so tender that the small bones at top fall out.

RECIPE 349. PLAIN BAKED POTATOES.

Wash a sufficient number of potatoes. Use a little vegetable brush. It saves the hands and clean potatoes better. Bake until soft and mealy. The time will depend upon size and age of potatoes. New potatoes cook more easily. If potatoes are large and it is late in the season, cut off a slice from one end of potato and it will be more mealy. Where there is a large family of children, and if milk is plentiful, serve a No. 1 White Sauce in a sauceboat, and use sauce instead of butter over potatoes.

RECIPE 350. PLAIN BOILED POTATOES.

If you have cream use that, if only milk, scald enough to make the potatoes easy to beat, add 1 heaping tablespoon butter, $\frac{1}{4}$ teaspoon pepper, a little paprika. Now beat the potatoes until they are smooth and creamy. The more you beat them the lighter they will be. Pile into a hot dish, put a piece of butter on top and serve very hot. 2 cups No. 3 White Sauce

When sauce has thickened stir in $1\frac{1}{2}$ cups of sauce gently through the potatoes, until potatoes are all mixed with sauce. Now put potatoes into a deep baking dish, spread over them remaining half cup of sauce, then rest of the grated cheese, and last buttered bread crumbs. Have ready two wire strainers, one about four inches across, the other strainer about two inches in diameter. Line the larger strainer with a layer of the potatoes, press smaller strainer in the center of the larger

one so as to make potatoes "nest" about the smaller one. Hold small strainer in place with a long handled spoon. When fat is hot, fry potatoes a delicate brown. Remove from the strainer and you will find them in a nest. Cook as many of these as needed. Nice for serving small articles in. Creamed Peas, Mushrooms, Sweetbreads, small Fillets of Fish. While they are frying keep them moving a little, stirring with long handled wire dipper. Drain on paper and sprinkle with salt.

RECIPE 362. FRENCH FRIED POTATOES.

Wash and pare potatoes and cut in long cubes. Cover with boiling water for one minute. Drain, wipe dry and fry in deep fat. If fat is too hot they will brown before they are cooked to the center. Try fat with small crust of bread. If you can count sixty before it is too brown, the fat is just right. Do not put too many potatoes in at one time, and let the fat heat for a moment before each lot of potatoes is added. Drain on paper and serve hot. Sprinkle well with salt and pepper.

RECIPE 363. ESCALLOPED POTATOES.

Slice raw potatoes very thin. Put in a baking dish with seasoning to taste. Break up a tablespoon of butter into small pieces and place on top of the potatoes. Fill it back into potato shell, cover with buttered bread crumbs and bake again until crumbs are brown. Serve very hot. This dish may be varied by adding a little minced cold boiled ham, minced parsley or pimiento to potatoes. If you have the yolk or the white of an egg left over, stir it well into the mashed potato pulp, which gives another variation in seasoning. CHAPTER XI

Salads and Salad Dressings.

When we use the word "marinate" in cookery we mean to add salt, pepper, oil and vinegar to any salad ingredient or combination, and let stand until the seasoning has had time to blend.

There are only about five great families of salads—meat, fish, fruit, vegetables and the combination of meat and vegetables, usually called Russian Salads.

From these salads there can be a great variety, limited only by the ingenuity of the cook. Salads made from green vegetables must be crisp and cold. If salad dressing is added to green vegetables they quickly wilt, so add it just before serving. All greens should be thoroughly washed, put in a damp cloth and placed in a cool place until ready to use. Lettuce should be washed when

it comes from the market, and if placed in a wet cloth on the ice will keep crisp and fresh for days.

Cold meats are best marinated a few hours before using. Left-over canned vegetables can many of them be utilized in salads; in fact, with the great variety of escalloped dishes and the possibilities of different combinations of salads the careful housewife need never have a crumb wasted from her kitchen.

Many salads are not especially nutritious, but are valuable for the salts and water they contain. The oil used in the dressings should always be kept in a cool place. Buy oil by the quart or gallon if you use many salads, as it is much cheaper bought in this way than by the small bottle.

RECIPE 449. FRENCH DRESSING NO. 1.

The genuine French Dressing is made as follows:

For each person allow:

- | | |
|----------------------|-------------------------------|
| 1 tablespoon vinegar | $\frac{1}{8}$ teaspoon pepper |
| 3 tablespoons oil | $\frac{1}{4}$ teaspoon salt |

Mix all these ingredients with a fork and stir until they have blended. More salt can be used, a little paprika or dry mustard or few drops of Worcestershire Sauce can be added if desired for a change. Tarragon vinegar is considered the best. If this dressing is too oily to suit you, use more vinegar and less oil, to taste.

RECIPE 450. FRENCH DRESSING NO. 2.

- | | |
|---------------------------------------|---------------------------------|
| 6 tablespoons oil | 1 minced pimento |
| 2 tablespoons vinegar | 2 minced green |
| $\frac{1}{2}$ tablespoon minced onion | peppers |
| 1 tablespoon minced parsley | $\frac{1}{2}$ teaspoon pepper |
| | 1 teaspoon salt |
| | $\frac{1}{2}$ teaspoon paprika |
| | 1 teaspoon Worcestershire sauce |

Use this dressing on any of the green salads.

RECIPE 451. BOILED MAYONNAISE.

- | | |
|---------------------------|---------------------|
| $\frac{1}{2}$ cup vinegar | 1 teaspoon sugar |
| | 1 tablespoon butter |

Heat these together in a saucpan until the butter is melted, then set it aside to get lukewarm while you prepare the following:

- | | |
|------------------------------------|--------------------------------|
| 2 or 3 eggs | $\frac{1}{4}$ teaspoon paprika |
| $\frac{1}{2}$ teaspoon dry mustard | 1 cup cream or milk |
| $\frac{1}{2}$ teaspoon pepper | $\frac{1}{2}$ teaspoon salt |

Beat eggs without separating until they are creamy, add seasoning and beat well, using a Dover egg beater. Add cream or milk, stir well. When vinegar mixture is lukewarm, stir egg mixture into it, place over a very slow fire and stir all the time until sauce thickens, then remove from fire and beat with egg beater for at least five minutes. The more you beat it the nicer it will be. Either sweet or sour cream can be used. More cream can be used at time of serving to make it less thick, if desired. Serve very cold.

RECIPE 452. BOILED MAYONNAISE WITH CORN STARCH.

In the winter when eggs are very dear make the Boiled Mayonnaise with only one egg, but at the last, when sauce is done, add one teaspoonful of cornstarch wet up with a little milk or water. This will give the desired consistency, which otherwise it would lack.

PLAIN UNCOOKED MAYONNAISE (see 128).

TARTAR SAUCE (see 129).

RECIPE 453. CHEESE MAYONNAISE.

Into the top of the double boiler or the stew pan in which it is to be cooked put the mustard, salt, sugar, cornstarch and cayenne. These come in many designs and add much to the effectiveness of the decoration. The hard boiled eggs can be mixed in with the salad, but are usually placed on top

RECIPE 508. PALACE SALAD.

Take nice tender celery and cut it lengthwise in strips about the size of matches. Throw it into ice water to get crisp. Shred slices of fresh or canned pineapple, two green peppers and one or two pimientos. Put all on the ice to chill. When ready to use, wipe celery dry, mix with other ingredients and pour over them a Cream Mayonnaise (see Index). Serve icy cold on lettuce hearts. If celery is out of season, use shredded lettuce, but do not put it into ice water. Shred it only when ready to use, as it will wilt quickly.

RECIPE 509. DATE AND CHEESE SALAD.

Cream cheese and mix with chopped walnuts, wash dates or figs and cut fine. Mix all together with Salad Dressing thinned with cream. Serve in apple scooped out. This makes a delicious filling for sandwiches.

RECIPE 510. KIDNEY BEAN SALAD WITH BACON.

Saute two thin slices of bacon until brown and crisp. Remove bacon from pan and crush into small pieces. To fat in pan add one-half cup vinégar, one-fourth teaspoon salt, one-fourth teaspoon pepper, one-half teaspoon Worcestershire Sauce. Pour this over one-half cup red kidney beans and serve them on lettuce.

RECIPE 511. STUFFED TOMATO SALAD.

Allow one nice firm tomato for each person. Put them in a deep pan and pour enough boiling water over to cover them. Let them lie in this but a minute, when the skins will come off readily. Put away to get very cold. When ready to use, carefully cut into the stem end with a spoon or small knife and remove a portion of the inside pulp. Season inside of tomato lightly with salt and pepper and turn upside down on a plate to drain while you prepare the stuffing.

Tomatoes can be stuffed with any Meat or Fish Salad, such as Chicken, Veal, Russian, Shrimp, Lobster, Crab, Shad, Roe, etc. Make a small amount of any of these salads, using a Plain Mayonnaise to mix them with, then put a spoonful of salad in each tomato and pour over the tomato a little more mayonnaise. Salads mixed with French Dressings or Boiled Mayonnaise Dressings can all be used in combination with the tomato.

Celery and nuts mixed with a mayonnaise make a very delicious combination. String beans, peas, carrots, hard boiled eggs, green peppers in many different combinations are all good. Shredded lettuce with hard boiled eggs and either a French or Mayonnaise Dressing are nice. Young chopped onions can be added to almost any of these combinations when desired.

RECIPE 512. CABBAGE SALAD (COLD SLAW).

Chop up a sufficient quantity of cabbage nice and fine. For two persons about one cupful. Mix well with a Boiled Mayonnaise to make very moist. A few celery or mustard seeds are nice. Equal parts of chopped celery and cabbage can be used. One pimienta chopped fine gives a very good taste to it. Serve very cold. Hard boiled eggs can be used as a garnish if desired. For more elaborate serving a very pretty way is to take an-

other rather flat shaped head of cabbage, cut out the center (from the top end), making a deep well in it, and serve the Cold Slaw on table from this cabbage. This is nice where a large number of persons are to be served and you want something a little out of the usual way of serving.

RECIPE 513. CELERY SALAD.

Celery can be washed, scraped, cut in thin slices and thrown into slightly salted ice water to make it crisp. Serve with a Boiled Mayonnaise or a Cream Dressing. Celery is used in combination with many salads and is almost indispensable in all meat, fish and shell fish salads.

RECIPE 514. STUFFED CELERY.

Use white celery, picking out the tenderest parts (reserve the tougher parts for soups). Make a stuffing of Roquefort cheese, olive oil, Worcestershire Sauce and paprika. To make this stuffing, crush cheese and rub it until smooth, adding enough oil to make it about the consistency of butter. Add paprika and Worcestershire Sauce to taste. Take each stalk of celery and fill the hollow part of it with the Cheese Stuffing. This is served in same way as plain celery, as a relish, and is placed on table in celery tray at the beginning of the meal just as radishes and olives are, and is allowed to remain until dessert course is served. Very nice for afternoon entertainments when serving sandwiches, etc. Also good as a side dish with salads.

RECIPE 515. ORANGE CUP SALAD.

Put as many oranges as will be required on ice for at least an hour. Cut off a slice from the stem end. Cut the peeling half way down in quarters on each orange. Roll peeling back half way down and scrape out all the pulp. To pulp add shredded pineapple, bananas, green grapes (skinned and seeded). Put this into the orange shells, add one or two Maraschino cherries on the top and a tablespoon of sugar into each orange. Fill in with sherry wine and a few drops of the syrup from the bottle of Maraschino cherries. Serve in a big white rose or any green salad leaves. A bed of chicory makes a pretty background.

RECIPE 516. COMBINATION FRUIT AND ORANGE SALAD.

Have oranges and bananas ice cold. Slice oranges about one-half inch thick. Slice bananas rather thin.

Cut Maraschino cherries in half. Lay one slice of orange on a lettuce leaf. Have a layer of bananas running all around the edge of orange, having each slice of banana overlapping one another. In the center place a few Maraschino cherries. Put one drop of lemon juice on each slice of banana, sprinkle the fruit with a generous tablespoon powdered sugar and a few drops of Madeira or sherry wine and a few drops of syrup from out of the bottle of cherries. Serve very cold. Do not prepare until just ready to serve, as the bananas soon turn dark.

RECIPE 517. OYSTER SALAD NO. 1.

- | | |
|-------------------------------|------------------------------|
| 4 large or 8 small
oysters | 2 tablespoons mush-
rooms |
| 4 stuffed olives | |

Cover oysters with boiling salted water until they ruffle. Remove from water and let get cold. Mince mushrooms. On each plate place a lettuce leaf, lay oysters on it, put mushrooms on top, lay olives along side. Put one tablespoon cold plain mayonnaise on top. Saltine wafers sprinkled with grated cheese and browned for a minute in the oven are nice to serve with this salad. This recipe makes two plates of salad.

RECIPE 518. OYSTER SALAD NO. 2.

- | | |
|-----------------------------------|-------------------------------------|
| 1 can cove oysters, or | $\frac{1}{2}$ cup thin sliced |
| 1 pint small fresh
oysters | celery |
| 3 hard boiled eggs | $\frac{1}{4}$ cup broken crackers |
| 2 or 3 drops Tobasco
sauce | 1 cup vinegar |
| | 1 tablespoon butter
or olive oil |
| Salt, pepper and paprika to taste | |

If fresh oysters are used instead of canned (cove), put them on in a saucepan, cover with a pint boiling water, let them simmer for a minute or two until oysters "ruffle." Then remove from water and let stand until ice cold. Chop whites of hard boiled eggs. Mash yolks. Simmer together for a moment the mashed yolks of eggs, vinegar, butter and seasonings. As soon as butter has melted, set mixture away to cool. When cold mix oysters, celery, crackers and chopped whites of hard boiled eggs together. Put them on a lettuce leaf and pour vinegar dressing over them. Place one or two olives on each plate and serve with saltine wafers.

RECIPE 519. GRAPEFRUIT AND OYSTER SALAD.

Cut grapefruit sections into convenient sizes. Take an equal part of either raw or parboiled oysters or clams,

the smaller ones being best for this salad. Line grapefruit shells with lettuce, filling up with alternating layers of the fruit pulp and oysters or clams. Each layer of the shellfish should be covered with catsup or cocktail dressing. Rub the inside of each fruit shell with clove of garlic before lining with the lettuce leaves.

RECIPE 520. EGGS IN NESTS SALAD.

Boil eggs hard, cut in half lengthwise, mash yolks to a paste, use three parts cold meat (veal or chicken preferred), season with salt, pepper and prepared mustard, add a few finely chopped nut meats, mold to the half of white to form a whole egg. Place in a nest made by cutting lettuce leaves across with scissors to look like grass. A spoonful of mayonnaise, four salted almonds, one stuffed olive to garnish.

RECIPE 521. APPLE AND RIPE OLIVES.

Two apples cut in dice, few stalks of celery cut fine, ripe olives pitted and cut fine. Thin Salad Dressing with cream or vinegar to suit taste, and mix well.

RECIPE 522. NUT PINEAPPLE AND CELERY SALAD.

Equal parts pineapple and celery cubes. For each cup of fruit, $\frac{1}{4}$ cup English walnuts, or almonds, or peanuts or Brazil nuts, 1 teaspoon lemon juice over each cup of pineapple and celery cubes. Let stand until very cold on ice. When ready to serve add a cream Mayonnaise or any fruit Mayonnaise, using $\frac{1}{2}$ cup for each cup fruit. Serve on lettuce. Garnish on top with nuts.

RECIPE 523. STUFFED GREEN PEPPER SALAD.

A pretty salad is made by cutting the top from a green pepper, removing the seeds with a knife and filling the basket thus made with chicken or lobster salad. Each pepper may be placed on a lettuce leaf.

RECIPE 524. PINEAPPLE AND BANANA SALAD.

Follow directions for making Combination Fruit and Orange Salad, substituting a slice of a pineapple for the slice of orange.

RECIPE 525. ORANGE, PINEAPPLE AND BANANA SALAD.

Have all the fruit very cold. Slice orange about one-half inch thick, across the orange. Allow one slice for each person. On each slice of orange arrange a row of thinly sliced bananas, having banana slices overlap-

ping one another. On top of orange in the center place one teaspoon grated pineapple, and on top place one whole Maraschino cherry. Spread with powdered sugar, a few drops of lemon juice, a few drops of Sherry wine and a few drops of Maraschino syrup from the bottle of cherries. One dash of salt (very little) and a few grains of paprika can be added. If salt and paprika are omitted a grain or two of grated nutmeg is nice. Serve in a white rose, or on a bed of some green salad. The fine feathery sprays of chicory (sometimes called endive) make a dainty background for a fruit salad.

RECIPE 526. PICK-UP SALAD.

Chop six or eight olives, one bunch of white grapes, skinned and seeded, one-fourth cup nuts, a sliced banana or an orange. Cut up a little sharp cheese into cubes. Mix all ingredients together lightly with a little Mayonnaise. Take some fine large apples, cut off a slice across the stem end. Polish them highly and cut out from center of apple as much of the pulp as possible without breaking through skin of apple. This will leave a hollow into which put the other ingredients. Set "lid" back on. Serve very cold.

RECIPE 527. APPLE CUPS.

Take large red apples, polish them well, cut off a slice across the stem end. Gently remove the core and as much of the inside of the apple as you can without breaking the skin. Fill into the hollow the Waldorf Salad mixture. Replace the slice of apple on top. Serve very cold, on a lettuce leaf.

RECIPE 528. SWEETBREAD SALAD.

Take a pair of sweetbreads and soak in cold water for one-half hour. Then remove membrane from around them. Parboil them in slightly salted water for one-half hour. When cold cut into one-inch pieces. Add an equal amount of diced celery and a dozen mushrooms sliced in half, one teaspoon capers. Mix this thoroughly with a plain Mayonnaise, serve very cold on a lettuce leaf. Place one or two olives on each plate.

RECIPE 529. WALDORF SALAD.

Equal parts of diced celery, apples and English walnuts. Mix with a plain or cream Mayonnaise. Can be served in apple cups or on lettuce leaves.

RECIPE 530. PINEAPPLE CELERY SALAD.

Equal parts of pineapple cubes and diced celery. Season lightly with salt, pepper and paprika. Take one-fourth cup plain Mayonnaise and stir into it one-fourth cup stiffly whipped cream. Mix the fruit with the cream Mayonnaise and serve very cold on lettuce leaves. Saltine wafers are nice served with this.

RECIPE 531. FRUIT SALAD WITHOUT GELATINE.

Equal parts of orange, pineapple cubes, green grapes (skinned and seeded), a few Maraschino cherries sliced, and quartered marshmallows. Serve in large flat fresh roses, or on lettuce leaves. Place two tablespoons of stiffly whipped cream on top. A few English walnuts or a little shredded cocoanut is nice on top of the whipped cream.

RECIPE 532. GELATINE FRUIT SALAD NO. 1.

$\frac{1}{2}$ box Knox gelatine	juice 2 lemons
$\frac{1}{2}$ pint cold water	1 banana, sliced
$\frac{1}{2}$ pint boiling water	$\frac{1}{4}$ can pineapple cubes
1 $\frac{1}{2}$ cups sugar	1 small sliced orange

Soak gelatine in cold water and lemon juice. When soft pour over it the boiling water, add sugar and stir well until all is dissolved. When liquid has cooled a little put all the fruit into molds, or one big mold, strain liquid through a cloth and pour over fruit. Stir down once or twice as it is cooling so that fruit will be well distributed. When ready to serve set mold for a minute in hot water, when it will easily slip from the mold. Serve very cold with slightly sweetened, stiffly beaten cream.

RECIPE 533. FRUIT GELATINE NO. 2.

Make exactly as Fruit Gelatine Salad No. 1, only use Sherry wine instead of water. In the boiling wine put two whole cloves and one small piece of stick cinnamon for a moment. To the whipped cream served on top of this salad, add a few quartered marshmallows.

RECIPE 534. LEMON CUBES FOR ANY FRUIT SALAD.

$\frac{1}{4}$ box Knox gelatine	$\frac{1}{4}$ teaspoon salt
$\frac{1}{4}$ cup cold water	$\frac{1}{4}$ cup boiling water
juice 1 lemon	

Let the gelatine soak with the cold water for ten minutes. Add lemon juice and boiling water, stir until

dissolved, strain and pour into a dish to the depth of one inch. When ready to serve, cut into one-inch cubes. Serve two or three cubes on each plate of salad.

RECIPE 535. ORANGE OR GRAPE FRUIT AND ONION SALAD.

Take equal portions of very thinly sliced Bermuda onions and oranges or grape fruit. Serve icy cold with a French dressing over them. Add a dash of paprika on top. Serve on a lettuce leaf. A few English walnuts, halved, are good with this salad.

RECIPE 536. GRAPEFRUIT COCKTAIL.

For each person, place in a cocktail glass:

1 layer shredded grapefruit	1 tablespoon pow- dered sugar
1 layer preserved figs, minced	1 teaspoon sherry wine
1 layer Maraschino cherries, sliced	1 teaspoon Mar- aschino

Place one whole cherry on top. Set away to chill for at least one hour. Serve as a cocktail at the beginning of the meal or as a dessert at the end of a meal.

RECIPE 537. FRUIT COCKTAIL.

Fruit cocktails may be made at different seasons of the year with the fruits then in season. They can be varied to suit the taste. The following combinations are nice:

Grapefruit, pineapple, strawberries, sugar, Sherry wine.

Oranges, bananas, Maraschino cherries, Maraschino syrup, sugar, Sherry wine.

Oranges, raspberries, pineapple, apricot brandy, sugar.

Pineapple, bananas sliced, strawberries, sherry or apricot brandy, sugar.

Cut the fruit in shreds, the bananas in slices or cubes. Put the fruit into a bowl, add sugar to taste. To one cup of fruit add one-third cup Sherry wine or apricot brandy or Maraschino. Serve ice cold in cups made from orange or lemon skins or in thin cocktail glasses. When using lemons or oranges, cut in half, instead of throwing away the skins, wash them and put them into a pan of cold water to keep for serving fruit cocktails or salads in. Cut a small piece off the end of the lemon to make it set flat on the serving plate, but do not cut too deep, so that it will leak.

CHAPTER XII

1 cup dry bread crumbs	2 tablespoons melted butter
$\frac{3}{4}$ cup cold water (over crumbs)	1 cup raisins
1 cup New Orleans molasses	1 cup currants
	1 cup flour
	$\frac{1}{2}$ teaspoon salt

Mix dry ingredients together, then mix molasses, milk and suet together and combine all the ingredients. Pour into buttered molds and steam five hours. This makes a good Plum Pudding. It is a very large recipe, but the puddings will keep for several weeks. Serve with any good, hot sauce. One pound baking powder cans make very nice little moulds. Be sure they do not leak. The pudding comes out of these cans, in nice round shapes, easy to slice.

On each square of dough place the quartered apple, pour over it a tablespoon or more of sugar, add one-half teaspoon butter, a pinch of salt and a dash of ground cinnamon or nutmeg, if desired. Wrap dough well around and over the apple, place in a baking dish. Bake about forty-five minutes in a moderate oven. Serve with a vanilla or lemon or hard sauce. The vanilla sauce is also very nice served with one teaspoon hard sauce on the top of dumplings. Apricots or peaches may be used instead of apples.

RECIPE 546. STEAMED APPLE DUMPLINGS.

Follow directions for making Baked Apple Dumplings, but instead of putting dumplings into oven to bake, place them in a well buttered pudding mold and steam one hour and twenty-five minutes. Serve with a vanilla, lemon, hard or foamy sauce.

RECIPE 547. BAKED APPLES.

Take a sufficient number of apples, polish well, and remove cores with an apple corer. Fill in cavity with any one of the following combinations:

Buttered bread crumbs, a little sugar, salt and cinnamon.

Ground English walnuts, buttered bread crumbs, sugar, cinnamon.

Ground English walnuts, raisins, sugar and a small piece of butter.

Dates or raisins and a marshmallow, cut into pieces.

Put apples into a pan with a little sweetened water and a piece of butter. Baste frequently until tender. The time of cooking depends upon the apple. Serve with or without cream. Whipped cream is nice.

RECIPE 548. APPLE JELLY ROLL.

Pare, core and mince apples. Make a nice pie dough, roll it thin, spread with the minced apples, sprinkle well with sugar and a slight dash of cinnamon or nutmeg. Roll dough and apples like a jelly roll, put into a five-pound lard bucket or a pudding mold. Steam one hour and twenty minutes. Serve with any nice hot sauce. Have mold well buttered before putting in the roll. When done, cut it across like a jelly roll cake, making slices of it.

RECIPE 549. BROWN BETTY PUDDING.

Butter a deep baking dish and in it put alternate layers thinly sliced apples, bits of butter and dry bread crumbs. Sprinkle each layer generously with sugar, on top place layer of buttered bread crumbs, bake in slow oven 30 to 45 minutes until apples are tender.

RECIPE 550. STEAMED FRUIT PUDDING.

Follow recipe for Steamed Apple Pudding, substituting any other fruit for apples.

RECIPE 551. STEAMED APPLE PUDDING.

1 cup flour	$\frac{1}{4}$ teaspoon salt
2 level teaspoons	2 apples
baking powder	$\frac{1}{2}$ cup milk
1 tablespoon butter	

Pare and core apples and cut into eighths. Sift dry ingredients together, rub in butter, then add milk to make a dough. Roll out dough, place apples on it. Sift one tablespoon sugar over apples, one-eighth teaspoon cinnamon or nutmeg. Bring edges up all over the apples, "turn over" style. Butter a deep pudding mould or five-pound lard can, place apple pudding gently into it. Cover and steam about one hour. Serve with any good pudding sauce (see Index). Sliced peaches or apricots may be used instead of apples.

RECIPE 552. STEAMED BERRY PUDDING.

RECIPE 553. OMELETTE SOUFFLE.

yolks of 2 eggs	whites of 4 eggs
$\frac{1}{4}$ cup powdered sugar	$\frac{1}{2}$ teaspoon vanilla
small pinch of salt	

Beat the yolks of eggs until very creamy and lemon colored, add the salt, sugar and vanilla. Beat the whites of eggs to the stiffest possible froth. Have ready a platter which can be placed in the oven without breaking. Butter it slightly. Fold the whites of eggs very gently into yolk mixture. Put omelette onto platter, sprinkle

with a very little powdered sugar. Bake in a moderate oven about ten minutes. This must be eaten at once, as all souffles are inclined to settle when cold.

RECIPE 554. RUM OMELETTE SOUFFLE.

Follow directions for Plain Omelette Souffle, adding to the yolks of eggs two tablespoons of rum before you fold in the whites. If desired, a very little rum can be poured around omelette just as you send to the table. Set fire to it and serve. Do not use over a tablespoonful for the burning.

RECIPE 555. STRAWBERRY SNOWDRIFTS.

Bake any good sponge cake mixture in thin sheets. When cold, cut with a sharp knife in narrow strips about four inches long. Pile these, log cabin fashion and about four inches high, on as many pretty small plates as there are guests. Heap the centers with whipped cream, slightly sweetened and flavored, and dispose sugared strawberries about the base. The cream may be garnished with a few crystalized rose petals, or no fruit need be used, and instead candied violets may be sprinkled over the cream. This recipe may also be used with peaches.

RECIPE 556. STRAWBERRY DUMPLINGS.

1 cup sugar	1 cup bread-flour
1 tablespoon butter	2 teaspoons baking
2 ½ cups fresh straw-	powder
berries	¼ teaspoon salt

RECIPE 557. SNOW BALLS.

½ cup sugar	1 ½ cups flour
¼ cup butter	1 ½ teaspoons baking
¼ cup milk	powder
	2 eggs (whites)

Cream butter and sugar, add flour (with the baking powder) alternately with milk. Last, fold in very stiffly beaten whites of eggs. Put into buttered pudding mold or small baking powder cans and steam thirty-five min-

utes. Can be steamed in deep, heavy buttered cups. Serve with a Maraschino Cherry Sauce or any preserved fruits. A Boiled Chocolate Sauce is nice.

RECIPE 558. MARASCHINO CHERRY PUDDING.

$\frac{1}{4}$ cup butter	3 level teaspoons
$\frac{1}{3}$ cup sugar	baking powder
$\frac{1}{2}$ cup milk	$\frac{1}{4}$ teaspoon salt
1 cup flour	$\frac{1}{2}$ cup chopped Maraschino cherries
$\frac{1}{2}$ cup cornstarch	$\frac{1}{4}$ cup citron
2 eggs	

Cream butter and sugar. Sift together three times flour, cornstarch, baking powder and salt. Add this alternately with milk to butter and sugar. Next add fruit and citron, then well creamed yolks of two eggs, and last stiffly beaten whites of eggs. Pour into a well greased pudding mold and steam one and one-half hours. Can be served with a Maraschino Cherry Sauce or a Hard Sauce or any liquid sauce. Foamy Sauce is nice also.

RECIPE 559. STEAMED CHOCOLATE PUDDING.

3 tablespoons butter	$2\frac{1}{2}$ squares Baker's
$\frac{2}{3}$ cup sugar	chocolate
1 cup milk	$4\frac{1}{2}$ level teaspoons
$2\frac{1}{4}$ cups flour	baking powder
1 egg	$\frac{1}{4}$ teaspoon salt

Cream butter and sugar, add well beaten egg, then the milk, flour, baking powder and salt. Have chocolate melted in a double boiler. Add it to cake mixture. Pour into a well buttered pudding mold and steam two hours. Serve with whipped cream.

RECIPE 560. COTTAGE PUDDING.

$\frac{1}{4}$ cup butter	$2\frac{1}{4}$ cups flour
$\frac{2}{3}$ cup sugar	4 level teaspoons
1 cup milk	baking powder
$\frac{1}{2}$ teaspoon salt	1 teaspoon vanilla
	1 egg

Cream butter, slowly add sugar, beat well. Add well beaten egg. Sift flour, salt and baking powder together. Add them alternately with milk to the cake mixture. Butter a rather deep baking pan. Pour in the dough and bake in a moderate oven about thirty minutes. Serve with Lemon, Vanilla, Foamy or Hard Sauce.

RECIPE 561. PLUM PUDDING.

See Fig Pudding or Christmas Pudding.

RECIPE 562. GINGER PUDDING.

$\frac{1}{2}$ cup molasses	$1\frac{5}{8}$ cups bread-flour
$1\frac{1}{2}$ tablespoons melted butter	1 tablespoon orange juice
$\frac{1}{2}$ cup sour milk	$\frac{1}{2}$ teaspoon salt
1 teaspoon soda	$\frac{1}{2}$ teaspoon ginger
Grated rind $\frac{1}{2}$ orange	

Dissolve the soda in the sour milk, then add to other ingredients. Beat all thoroughly, pour into a well buttered mold and steam about fifty minutes. Serve with Orange Sauce.

RECIPE 563. STRAWBERRY SHORT CAKE.

1 cup flour	2 level tablespoons butter
2 teaspoons baking powder	$\frac{1}{4}$ to $\frac{1}{2}$ cup milk or water
$\frac{1}{4}$ teaspoon salt	1 teaspoon sugar

Sift dry ingredients together, rub in butter thoroughly, add milk enough for soft dough. Roll out 1 inch thick. Cut out with large biscuit cutter. Bake in moderately hot oven about 15 minutes. Remove from oven, break them apart and spread each part with a teaspoon melted butter and cover the melted butter with 1 teaspoon powdered sugar. In preparing strawberries, wash and hull them and cut in half, add plenty of sugar and let them stand an hour before using. This "bleeds" them and gives more juice. Do not put strawberries into the biscuits until just ready to serve them. Spread one-half the biscuit with fruit, put on upper half of biscuit and on this a tablespoon of fruit. Have plenty of juice. If berries do not bleed well, allow one-quarter cup water well stirred into the fruit syrup. In making the biscuits, make them quickly, handling and rolling as little as possible.

RECIPE 564. SHORT CAKE MADE FROM ANY FRUIT.

Make the short cake dough as in strawberry short cake. Slice large fruits or mash small fruits (berries), add plenty of sugar and let stand long enough to bleed. Lemon juice should be put over sliced bananas. This gives a nice flavor and keeps them from turning dark too rapidly.

RECIPE 565. CREAM PUFFS.

1 cup water	1 cup flour
$\frac{1}{2}$ teaspoon salt	4 eggs
$\frac{1}{4}$ cup butter	

Put water, butter and salt in sauce pan and let come to a boil. Quickly stir in the flour and let the mixture cook until it leaves the sides of the pan. Stir constantly. When cool, beat in the unbeaten eggs, one at a time, then beat the whole mixture well. Drop on buttered pan, using spoon. Bake in cool oven 30 minutes, or until light and dry. If baked too quickly the puffs will shrivel. This makes one dozen large puffs.

Pudding Sauces.

RECIPE 566. PLAIN VANILLA SAUCE.

1 cup water	1 level tablespoon
$\frac{1}{2}$ cup sugar	cornstarch
1 tablespoon butter	1 teaspoon vanilla
$\frac{1}{4}$ teaspoon salt	extract

Boil water, sugar, butter and salt together. Wet the cornstarch with a little water and add it to boiling syrup. When it has thickened, add vanilla. Serve hot. A pinch of nutmeg may be used if desired. If a sweeter sauce is desired, use more sugar to taste.

RECIPE 567. HARD SAUCE.

$\frac{1}{2}$ cup powdered	$\frac{1}{4}$ cup butter
sugar	$\frac{1}{4}$ teaspoon salt

Cream butter with sugar and salt. Beat till very smooth. Add any desired flavoring. Set away in ice box to get hard. Puddings are frequently served with a Vanilla or Brandy Sauce and then one teaspoon of Hard Sauce is added to top of each individual serving.

RECIPE 568. BRANDY SAUCE NO. 1.

Follow recipe for making Vanilla Sauce, adding two tablespoons of brandy instead of vanilla. Do not add the brandy until after sauce has been cooked.

RECIPE 569. BRANDY SAUCE NO. 2.

1 cup powdered	2 tablespoons brandy
sugar	$\frac{1}{2}$ cup cream or milk
$\frac{1}{4}$ cup butter	$\frac{1}{4}$ teaspoon salt
2 eggs	

Cream butter, add sugar, beat until smooth, then slowly beat in brandy. Beat yolks until creamy, add them slowly to sugar mixture and then add cream or milk. Put this on to cook in a double boiler, stirring all

the time. When the yolks have set and it thickens into a custard, fold in the stiffly beaten whites of the eggs. Serve hot.

RECIPE 570. CUSTARD SAUCE.

1 cup milk	1 teaspoon cornstarch
1 egg	$\frac{1}{2}$ teaspoon vanilla
pinch of salt

CHAPTER XIII

Pies.

PIE DOUGH SUGGESTIONS.

Pastry flour is not necessary if a good quality of bread flour is used. It should be sifted with the salt and baking powder two or three times. The less water used, the better the pie dough. The amount varies according to quality of flour. The shortening must be well mixed and rubbed into the flour, but after water is added the less the dough is handled the better it is. The best way is to have the ingredients cold, but this is not absolutely necessary. Pie dough made from the following recipe will keep in a cool place for several days and is all the better for having been thoroughly chilled. It is a saving of time to mix enough at one time to last for several days. The dough for meat pies should be rolled thicken than for fruit pies.

Pies should be placed on the bottom of oven so that the heat may be applied at once to the bottom crust before the juice of the pie has time to soak into it. Place one of the slides directly on bottom of the oven and on this place the pie. Do not add pie mixture to the pie until upper crust is rolled out, so that no time may be wasted in getting upper crust in place immediately after filling pie, thus avoiding letting under crust stand and soak with juices from the filling while rolling out the upper crust. The quicker pie gets into oven, after filling is in crust, the better under crust will be. Pies which require a slow heat, like custard pies, are best when the under crust is placed in the oven and half baked before adding the custard mixture.

RECIPE 584. PIE DOUGH FOR ONE PIE (2 crusts).

1 cup flour	$\frac{1}{3}$ cup shortening
$\frac{1}{4}$ teaspoon salt	2 tablespoons water
$\frac{1}{4}$ teaspoon baking powder	

TO MIX PIE DOUGH.

Put flour, salt and baking powder into sifter. Sift two or three times. Rub shortening in well until flour crumbles. Add water and handle the dough as little as possible after water is put in.

RECIPE 585. MINCEMEAT FOR PIES.

1 pint currants	3 lemons, juice and
5 pints brown sugar	grated rinds
2 tablespoons ground	1 cup of chopped nuts
cinnamon	(if desired)

Cook all together for fifteen minutes except meat, spices and lemons; add these at the last. When cool, brandy can be added to taste if desired. This amount of mincemeat makes enough to last a small family for several weeks, and it will keep a long time without spoiling.

RECIPE 586. MINCE PIES.

Line a deep pie pan with a rich pie crust (see Index). Fill pan with mincemeat, put on a top crust and bake in a quick oven, placing pan on the bottom of the oven on a grate. As soon as crust is brown the pie is done.

$\frac{1}{2}$ cup sugar	1 teaspoon vanilla
3 eggs	extract

Beat sugar and eggs together, stir them into milk, then strain and add salt and vanilla. Pour this into a pan lined with a rich crust. Bake slowly until custard has "set." As soon as it thickens it is done. Bake a nice pastry shell (see Index). When shell is ready, beat whites of eggs very dry and stiff and add to them one level tablespoon of granulated sugar for each white of egg. This makes a meringue that will never fall if you have the whites beaten dry enough. When meringue is ready, pour lemon mixture into the baked pastry shell, spread meringue on top, place at once in oven to brown the meringue. Watch this carefully, as it only takes one or two minutes. This pie is best served cold, but should be eaten the day it is baked.

Put the pint of milk and salt into a double boiler. Mix the cornstarch with the sugar and two tablespoons cold milk. Melt the chocolate with two tablespoons hot water, add it to sugar and cornstarch. When milk in the

boiler has scalded, add the chocolate mixture, stirring rapidly as it is going in. Cook until it thickens. Beat whites of eggs to a very stiff froth and stir them into the boiled custard; add vanilla. Set away to get cool. Serve with slightly sweetened cream. The cream can be whipped or served plain. A pinch of nutmeg is nice.

RECIPE 635. PRUNE WHIP.

prune pulp	2 teaspoons lemon juice,
whites 5 eggs	or
$\frac{1}{2}$ cup sugar	1 teaspoon vanilla

Cover one-third of a pound of nice prunes with a quart of cold water and let them soak over night. In the morning stew them until tender in the water in which they soaked. When tender, remove stones and press them through a strainer.

Beat eggs to a very stiff froth, add the sugar to the prunes and gently fold into the white of eggs. Flavor. Pour lightly into a well-buttered deep baking dish and bake in moderate oven twenty to twenty-five minutes. Can be served hot or cold, with or without a Custard Sauce (see Index).

RECIPE 636. SOUFFLE OF PRUNES WITH NUTS.

$\frac{1}{2}$ cup chopped nuts	whites of two eggs
--------------------------------	--------------------

Make the recipe for Prune Pudding, and when ready to remove from the fire add the nuts and the whites of two eggs beaten very stiff. Put into molds and set away to get cold. Serve with Whipped Cream, sweetened a little.

RECIPE 637. PRUNE PUDDING.

2 cups cold water	$1\frac{1}{3}$ cups boiling water
$\frac{1}{2}$ pound prunes	2 heaping tablespoons
1 cup sugar	cornstarch
2 whole cloves	2 tablespcons lemon
$\frac{1}{4}$ teaspoon salt	juice

Cover prunes at night with cold water. In the morning boil them until tender in the water in which they were soaked. Remove stones, crack them and put kernels through the grinder and add them to the prunes again. Put prunes, cloves, sugar and salt into boiling water, let them simmer for fifteen minutes. Add a little cold water to cornstarch to make a smooth, thin paste, add it to the prunes and cook until it thickens. Add lemon juice or a teaspoon of vanilla. Wet some molds in cold water, pour in the prune custard and let it get cold. Serve with either whipped or plain cream which has been sweetened a little.

RECIPE 638. CREAM OF SHERRY WINE.

$\frac{1}{3}$ cup sherry wine	$\frac{1}{2}$ cup sugar
2 eggs	$\frac{1}{2}$ lemon juice and
pinch of salt	grated rind

Beat the yolks of eggs, salt and lemon juice to a creamy froth. Add the Sherry wine; beat well. Put into a double boiler, stirring all the time until it thickens, then add stiffly beaten whites of eggs. Put some stale cake slices (lady fingers or sponge cake is best) into a dish, pour the Wine Cream over them and set away to get cold.

RECIPE 639. WINE JELLY.

2 tablespoons Knox's gelatine	2 whole cloves
$\frac{1}{2}$ cup cold water	1 cup sugar
1 $\frac{1}{2}$ cups boiling water	juice 1 lemon
	1 $\frac{1}{3}$ cups sherry wine
	$\frac{1}{2}$ cup orange juice

Put gelatine to soak for fifteen minutes with the cold water, then add boiling water, sugar, cloves, lemon and orange juice. Let this boil for one minute, add the wine, strain through a cloth and set away to harden. This will take several hours in summer. It is best to prepare it a day before it is to be used. Serve with whipped cream or Lemon Salad Dressing.

RECIPE 640. LEMON JELLY.

2 tablespoons granu- lated gelatine	2 $\frac{1}{2}$ cups boiling water
$\frac{1}{2}$ cup cold water	juice 3 lemons
	1 cup sugar

Soak gelatine with cold water for fifteen minutes. Add boiling water, sugar and lemon juice. Stir until gelatine is all dissolved. Strain through a cloth, pour into molds and set away to harden. Make it the day before it is to be used. Serve with slightly sweetened whipped cream.

RECIPE 641. COFFEE JELLY.

2 tablespoons granu- lated gelatine	$\frac{1}{2}$ cup sugar
$\frac{1}{2}$ cup cold water	pinch salt

$1\frac{1}{2}$ cups boiling water	2 tablespoons lemon juice
pinch of salt	$1\frac{1}{2}$ cups orange juice

Follow directions for making Lemon Jelly. Strain through a cloth and set away to harden. Serve with sweetened cream, whipped or plain.

RECIPE 643. FRUIT GELATINE.

Take any of the jelly recipes and add a little sliced fruit. Nuts chopped a little can be added, about half a cup. Pour into molds and as it begins to harden a little stir the fruit down once or twice, so that it will not all remain on top. Serve with whipped cream. When ready to unmold set molds into a pan of hot water for a moment, then turn out on a clean cloth for a moment to absorb the liquid gelatine, then put onto dish in which it is to be served and put the cream on top. Maraschino cherries laid on the top of the whipped cream are pretty.

RECIPE 644. PRUNES IN JELLY.

Put one-half pounds of prunes to soak over night with a quart of cold water. In the morning stew the prunes in the water in which they were soaked, until they are tender. Remove stones, fill the cavities with chopped nuts.

2 tablespoons granu- lated gelatine	hot water
$\frac{1}{2}$ cup cold water	1 cup sugar
pinch salt	juice 2 lemons

Put gelatine to soak in cold water fifteen minutes. To the water prunes were boiled in add lemon juice and then enough hot water to make one quart of liquid. Add sugar, salt, and boil for a moment; add to soaked gelatine. Strain through a cloth into a mold in which the prunes have been placed. While gelatine is hardening stir it once or twice so that prunes will not float on the top. Serve very cold with whipped cream slightly sweetened.

RECIPE 645. MARSHMALLOW AND PRUNE JELLY.

Follow the directions for making Prunes in Jelly, substituting quartered marshmallows for nuts in the prune cavities. Do not put the prunes into the gelatine until it has begun to harden a little or the marshmallows will melt. Serve with whipped cream to which add a few more marshmallows cut into halves or quarters.

RECIPE 646. MARSHMALLOW PUDDING.

- | | |
|---------------------------------------|------------------------|
| 1 tablespoon granu-
lated gelatine | whites 3 eggs |
| 1 cup boiling water | 1 teaspoon vanilla |
| 1 cup sugar | 1 cup macaroons minced |

Put gelatine into a bowl, add boiling water, stir until dissolved, then add sugar. Stir well. Now set the bowl into a pan of ice water, add the stiffly beaten whites of eggs. Beat with a wire whisk until the mixture begins to thicken. Dip a shallow pan in cold water, pour in the gelatine mixture and let stand until cold. When it is thoroughly chilled take a sharp knife and cut the gelatine into one-inch squares. Have some stale dry macaroons rolled into crumbs. Cover the marshmallow with these. Serve very cold with whipped cream sweetened a little. A little vanilla can be added to the cream.

RECIPE 647. MARSHMALLOW PUDDING.

Whites of six eggs beaten stiff; add one cup sugar. To this add one heaping tablespoon of Knox's gelatine that has been dissolved in three-quarters cup boiling water. Stir vigorously. Then add one can grated pineapple (or any fruit desired) and one cup nut meats. For fancy desserts add fruit coloring and mold. This is delicious, easily made and very pretty.

RECIPE 648. MARSHMALLOW SNOW.

- | | |
|--|-------------------------------|

granulated gelatine | 1 cup sugar |
| $\frac{1}{2}$ cup cold water | $\frac{1}{4}$ cup ground nuts |
| whites 4 eggs | 1 teaspoon vanilla |
| | pinch of salt |

Beat the eggs to a very stiff froth, pour over them a little of the gelatine, then a little sugar, then alternate the gelatine and sugar until it is all in, beating briskly all the time with a wire whisk. Pile lightly into a dish and sprinkle the nuts on top. Serve with a Cold Custard Sauce (see Index).

RECIPE 649. MARSHMALLOW TRIFLE.

- | | |
|--|--|
| $\frac{1}{2}$ cup whipping cream | $\frac{1}{2}$ cup sliced pineapple |
| $\frac{1}{2}$ pound marshmallows | 1 diced orange, or |
| $\frac{1}{4}$ cup Maraschino
cherries | $\frac{1}{2}$ cup green Malaga
grapes |
| $\frac{1}{4}$ cup powdered sugar | $\frac{1}{2}$ cup English walnuts |
| pinch of salt | $\frac{1}{2}$ teaspoon vanilla or
lemon |

Whip the cream until it is stiff, add sugar, fruit, salt, nuts and marshmallows; last the flavoring. Pile into a dish and set away to get ice cold. It should stand to blend the flavors for at least two hours. It will be all the better if it stands several hours. A teaspoon of the Maraschino syrup can be used instead of vanilla, if desired. To serve this dish attractively, pile it into very thin glasses (with long stems is preferable), put one cherry on top of each glass.

RECIPE 650. FIG AND PRUNE CREAM.

1 tablespoon granu- lated gelatine	$\frac{1}{4}$ cup boiling milk whites of 2 eggs
$\frac{1}{4}$ cup cold water	$\frac{1}{2}$ cup whipping cream
$\frac{1}{2}$ cup sugar	$\frac{1}{2}$ cup chopped figs
$\frac{1}{4}$ cup chopped cooked prunes	

Put the gelatine to soak for ten minutes in cold water, add boiling milk, stir until dissolved, add sugar, stir well. Set dish into a pan of ice water, beat with a wire whisk until it begins to thicken. Beat the whites of eggs to a very stiff froth, add the cream, prunes and figs and stir into the mixture. Wet a mold with cold water, pour the mixture into it and set away to harden.

RECIPE 651. FRUIT CHARLOTTE.

Can be made with either strawberries, raspberries, apricots or peaches. Have enough fruit to make about one and one-half cups pulp, let stand with one-half cup sugar for one-half hour, then put it through the potato ricer, or mash it well. Take whites of four eggs, beat them to a stiff froth, add fruit pulp slowly to beaten whites. Have a glass dish lined with slices of sponge cake, pile in the Fruit Charlotte, dot the top with a few whole berries, or thin slices of the fruit (peaches or apricots, if those are the fruits used). Should be eaten shortly after being mixed. Everything should be very cold.

RECIPE 652. MACEDOINE OF FRUIT JELLY.

Use the recipe for Wine Jelly (see Index). Have ready some strips of bananas, oranges, figs, Maraschino cherries and English walnuts, halved. Place a jelly mold in a pan of ice water, pour into mold the wine jelly mixture to depth of one-half inch. Let it get firm. When the design is finished, pour more wine jelly over it, a tablespoon at a time, so as not to disturb the design. When well covered let this layer harden. Again add the design, cover again with the jelly. Repeat until all is

used, letting each layer harden before adding the next layer. Serve with plain cream or whipped cream sweetened a little. By using some of the fruit coloring that comes in each package of gelatine, very effective designs can be worked out. To do this, divide the liquid gelatine into different lots and add a different coloring to each lot.

RECIPE 653. FLOATING ISLAND CUSTARD.

1 pint sweet milk	$\frac{1}{4}$ teaspoon salt
$\frac{1}{4}$ cup sugar	1 heaping teaspoon
2 eggs	cornstarch
1 teaspoon vanilla	

Put milk into a double boiler. Stir cornstarch and salt thoroughly into the sugar, add to them the yolks of eggs. Beat until creamy. When milk boils, add egg mixture to the milk, stirring rapidly. As soon as it thickens, add vanilla and pour custard into dish in which it is to be served. Beat the whites of the two eggs to a stiff froth, add two level tablespoons granulated sugar to them and pile this meringue lightly on the custard. Serve very cold.

RECIPE 654. FLOATING ISLAND WITH RICE.

Follow directions for making Floating Island, but put one cupful boiled rice (hot or cold) into the double boiler, with the milk and omit cornstarch.

RECIPE 655. POOR MAN'S RICE PUDDING.

1 quart sweet milk	$\frac{1}{2}$ cup sugar
4 tablespoons rice	$\frac{1}{2}$ teaspoon salt
pinch nutmeg	

Wash rice thoroughly, changing the water several times. Put milk into a deep baking dish, add to it the washed rice, sugar, salt and a few grains of ground nutmeg. Bake in a very slow oven from an hour and a half to two hours. Stir very often. This will make the pudding soft and creamy. When rice is very tender it is done. Raisins can be added, but must first be boiled in hot water a few minutes or they may make milk curdle. They can be added when the pudding is almost done. Sometimes a tablespoon of butter is added to this pudding. Just before the pudding is ready to come out of oven, add a teaspoon vanilla extract. Is best served icy cold, but can be eaten hot. If this pudding is cooked slowly it will be so creamy that no other sauce is necessary. If you find the pudding is baking a little too dry, add more milk. The time of baking depends upon the age of the rice. Old rice cooks more slowly.

RECIPE 656. BAKED RICE CUSTARD.

1 pint milk	$\frac{1}{2}$ teaspoon salt
$\frac{1}{2}$ cup hot or cold boiled rice	$\frac{1}{4}$ cup sugar 2 eggs beaten together
1 teaspoon vanilla	

Stir all ingredients together. Pour into a deep baking dish and bake in a very slow oven from twenty to thirty minutes or until the custard has "set" in the middle. If you bake it too fast it will separate and become watery. Can be served hot or cold.

RECIPE 657. PLAIN BAKED CUSTARD PUDDING.

Make exactly as the Baked Rice Custard, omitting rice, but use three eggs instead of two. If these custards are not sweet enough add a little more sugar.

RECIPE 658. BAKED "MINUTE" TAPIOCA CUSTARD.

1 pint sweet milk	$\frac{1}{3}$ cup sugar
1 tablespoon "minute" tapioca	2 eggs $\frac{1}{4}$ teaspoon salt
1 teaspoon vanilla	

Add beaten yolks of eggs, sugar, salt and tapioca to the milk, pour into a deep pudding dish and bake about thirty minutes slowly. When about cooked, beat whites of eggs to a stiff froth, add to them two level tablespoons granulated sugar. Spread this meringue on top of the baked pudding and put back in oven to brown.

RECIPE 659. BAKED "PEARL" TAPIOCA PUDDING.

1 pint of milk	a few grains of nut-
$\frac{1}{3}$ cup sugar	meg can be added
$\frac{1}{4}$ teaspoon salt	$\frac{1}{2}$ cup soaked tapioca
2 eggs	

Soak one-half cup Pearl tapioca in a quart of cold water over night. In the morning drain the tapioca. Stir the tapioca, milk, sugar, salt, beaten yolks of eggs and vanilla all together, pour into a deep baking dish, sprinkle the nutmeg on top and bake in a very slow oven. When pudding has "set" to the center remove from oven and spread on the top the meringue made from the beaten whites of the two eggs, to which you have added two level tablespoons granulated sugar. Put pudding back in the oven long enough to brown. Serve hot or cold.

RECIPE 660. BAVARIAN CREAM.

- | | |
|--------------------------------|-------------------------|
| $\frac{1}{2}$ cup sugar | 2 eggs |
| 1 lemon juice and rind | 1 tablespoon cold water |
| 1 cup sherry wine | pinch of salt |
| 1 teaspoon granulated gelatine | |

Put gelatine to soak with cold water ten minutes. Beat sugar, lemon, wine, salt and yolks of eggs until creamy. Put this mixture into a double boiler. Stir until it thickens. Beat eggs to a very stiff froth, pour boiling custard gradually over the whites, beating rapidly with a wire whisk. Set custard into a pan of ice water and beat it until it will stand alone. Have ready a mold, lined with lady fingers, pour the custard into this mold and set away to get icy cold. If desired, omit the wine and use an equal amount of orange or pineapple juice.

RECIPE 661. VELVET CREAM.

- | | |
|---|-----------------------------------|
| 1 pint sweet cream or rich milk | $\frac{1}{4}$ cup cold water |
| | pinch of salt |
| $\frac{1}{2}$ envelope of granulated gelatine | sugar to taste |
| | $\frac{1}{2}$ teaspoon of vanilla |

Put gelatine to soak with cold water for ten minutes. Scald one-half cup of milk and dissolve the softened gelatine in it. Add milk and gelatine to the cold milk or cream, add salt, vanilla and sugar to taste. Set away for several hours in a gelatine mold to harden. Can be served with a spoonful each of some kind of preserves, or a little sweetened cream or a Cold Boiled Custard Sauce.

RECIPE 662. SPANISH CREAM.

- | | |
|----------------------------------|-----------------------------|
| 1 tablespoon granulated gelatine | $\frac{1}{2}$ cup sugar |
| | 1 teaspoon vanilla |
| 3 cups milk | $\frac{1}{4}$ teaspoon salt |
| 3 eggs | |

Put gelatine to soak for ten minutes with three tablespoons of milk. Put rest of milk into a double boiler; when scalded add the soaked gelatine, stir well, add sugar. Beat yolks a little and slowly pour the boiling milk over them, beating with a wire whip rapidly until all the milk has been used. Put this mixture into the double boiler and stir constantly until it thickens. Take it from the fire, stir in the very stiffly beaten whites of eggs; last, add the salt and flavoring. Wet some individual molds in cold water, turn the gelatine into the molds and set away to harden. When cold serve

with whipped cream, sweetened a little. Plain cream can be used, to which add a few drops of vanilla and a little sugar. A pinch of nutmeg is also nice.

RECIPE 663. FRENCH CREAM.

Scald one and one-fourth cups of milk. Beat yolks of two eggs slightly and add two tablespoons of sugar and a few grains of salt. Add milk gradually to egg mixture and cook over hot water, stirring constantly until mixture thickens; then add one and one-fourth tablespoons of granulated gelatine soaked in one-fourth cup of cold water ten minutes. Strain and add whites of two eggs beaten until stiff. Set pan containing mixture in larger pan containing ice water, and stir, scraping from bottom and sides of pan until mixture begins to thicken. Then add one-half pint of heavy cream, beaten until stiff, mixed with three tablespoons of powdered sugar and one teaspoon of vanilla. Turn into a serving dish and chill. Garnish top with cubes of wine jelly.

RECIPE 664. BAKED PEARL TAPIOCA PEACH PUDDING.

Soak one-half cup pearl tapioca over night in one quart cold water. In the morning drain off the water. Put tapioca in a double boiler with one-half cup cold water and one-fourth teaspoon salt. Boil until the tapioca looks clear. While tapioca is boiling, put peaches cut in half into the bottom of a deep baking dish. Add one-half cupful sugar to tapioca, and pour tapioca over the fruit. Bake until fruit is tender. Probably one-half hour. A meringue made of white of an egg beaten stiff and one tablespoon granulated sugar added to it is very nice spread onto pudding when it has baked. Put back into oven a minute until it browns. Canned fruit can also be used instead of the fresh. Does not need to be baked but a few minutes.

RECIPE 665. BAKED PLUM OR APRICOT PEARL TAPIOCA PUDDING.

Make in the same way as the Baked Pearl Tapioca Peach Pudding, substituting plums or apricots for peaches.

Beat the yolks of eggs and sugar together. When milk has boiled, add the creamy eggs and sugar to the milk, stir rapidly until the eggs have cooked, add the vanilla. Pour into the dish in which you wish to serve it. Beat the whites of the eggs to a stiff froth, add two level tablespoons granulated sugar and pile this meringue on top of the tapioca cream. Best served very cold.

RECIPE 669. PEARL PINEAPPLE TAPIOCA PUDDING.

soaked tapioca	white of 1 egg
juice 1 lemon	$\frac{1}{2}$ cup pineapple
$\frac{1}{2}$ cup cold water	$\frac{1}{3}$ cup sugar

One-half cup Pearl tapioca soaked over night in a quart of cold water. Drain off the water in the morning. Put tapioca, cold water and lemon juice into a double boiler. When the tapioca has become clear looking, stir in the sugar and pineapple, then stir into this mixture the stiffly beaten white of egg. Grated pineapple can be used, but small pieces of the fruit are better. Serve very cold, with or without cream.

RECIPE 670. PEACH OR APRICOT OR PLUM TAPIOCA PUDDING.

Prepare exactly as for the Pineapple Tapioca, using cooked fruit. Do not cook the fruit in the pudding, but drain the juice from it and put fruit in the serving dish and pour the tapioca over it.

RECIPE 671. MINUTE TAPIOCA CREAM.

Put into a double boiler:

1 pint sweet milk	$\frac{1}{4}$ cup sugar

Pour into the bowl over them some cold boiled Custard (or Floating Island) and in the center of the bowl pile the beaten whites of two or three eggs which you have made into meringue with granulated sugar. To make this meringue, beat the whites as stiff as possible and allow one level tablespoons granulated sugar, for each white of egg. A few Maraschino cherries or little bits of red jelly or jam can be placed on top of the meringue if desired and gives not only a nice taste, but adds to the looks of the dish. Any kind of stale cake can be treated in the same way.

CHAPTER XVI

Cakes.

A FEW SIMPLE RULES FOR CAKE MAKING AND BAKING.

Before you begin to mix your cake see that all ingredients are before you. Measure and sift flour with the baking powder, separate eggs (when the recipe calls for them to be beaten separately), measure sugar, etc. In this way you are less liable to make mistakes in quantities, besides when the mixing is once begun you can then proceed rapidly.

Eggs for a sponge cake must be beaten until light lemon in color. The whites to stiffest froth possible. In angel cake and in sponge cakes it is necessary to sift both the sugar and also flour several times. Angel cake is frequently spoiled in mixing, but more often in putting it into too hot an oven. It wants a cool oven to start with.

RULES FOR MIXING.

For a fine-grained cake, beat butter to a cream, add sugar and beat well. A tablespoon or two of the measured milk can be added to the process of beating butter and sugar together and will make the task much easier. Add rest of milk and flour alternately. To make a fine-grained cake beat well before adding the stiffly beaten whites of eggs. Do not beat after whites are in. Fold in whites the last thing, very lightly and gently, or you will break down air cells from whites.

Where no milk or butter is used in the cake it is customary to add sifted ingredients gently to the beaten whites.

Have your ingredients of a good quality, follow rules for mixing and baking and there will be no difficulty in making good cakes.

More cakes are spoiled in baking than in making. Many times cake dough will be perfectly mixed, but the cake comes out of oven a failure, or a near failure, because oven was too hot. In all cakes without butter do not light gas oven fire until you are almost ready to put dough into oven. When a coal or wood fire is used see that you have a very slow fire. This gives cake time to rise to its full height before sugar forms a stiff crust.

For cakes in which butter is used you may light gas stove about five minutes before you have dough ready for oven.

If greased pans are to be used, or pans are to be lined with paper, have this done before mixing cake. Do not use butter in greasing pans, the salt makes cake stick to pans. Shake flour onto greased pans, then shake out all the flour that will come off. This will give smooth finish to bottom of cake for icing.

If cake browns too rapidly, open oven door slightly. Do not move the cake until it has risen to its full height. After that it can be moved if necessary and turned so that it will brown evenly on all sides.

Cake can be gently tried with a broom straw or wooden toothpick, to see if dough in center has baked. If the straw comes out clean, it is done, if there is any dough sticking to it, bake cake a few minutes longer.

Baking powder and spices are added with the flour.

Raisins and currants should have a tablespoonful of flour added to them to keep them from sinking to the bottom of the cake. Put raisins through a coarse cutter of your meat grinder.

Put the beaten egg on a platter and slowly pour hot syrup over the egg, stirring all the time. Beat until nearly cool, then add two teaspoons of burnt sugar syrup and one teaspoon of vanilla. RECIPE 759A. HIGH ALTITUDE CAKES.

(Colorado, Wyoming, Etc.)

The usual recipes cannot be used in these high altitudes. Both sugar and butter have to be used in lesser quantities. HIGH ALTITUDES DO NOT AFFECT CAKES WITHOUT BUTTER. THE SAME RECIPES CAN BE USED. Almost any recipe using butter can be used if usual amount of both sugar and butter is reduced one-fourth. For instance, a cake calling for two cups sugar should be reduced in Colorado to one and one-half cups sugar. The following recipe is an example:

RECIPE 759B. POTATO CAKE.**Low Altitudes:**

2 cups granulated sugar
 1 cup butter
 4 eggs (whites beaten)
 $\frac{3}{4}$ cup grated chocolate
 1 cup cold mashed
 potatoes
 2 cups flour
 1 cup milk
 1 teaspoon cinnamon
 $\frac{1}{2}$ teaspoon allspice
 $\frac{1}{2}$ teaspoon cloves
 1 cup chopped walnuts
 1 cup currants or raisins
 2 $\frac{1}{2}$ teaspoons baking
 powder
 1 teaspoon vanilla

High Altitudes:

1 $\frac{1}{2}$ cups sugar
 $\frac{3}{4}$ cup butter
 4 eggs (whites beaten)
 $\frac{3}{4}$ cup chocolate grated
 1 cup cold mashed
 potatoes
 2 cups flour
 1 cup milk
 1 teaspoon cinnamon
 1 teaspoon allspice
 1 teaspoon cloves
 1 cup chopped walnuts
 1 cup currants or raisins
 2 $\frac{1}{2}$ teaspoons baking
 powder
 1 teaspoon vanilla

Cream butter and sugar, add grated chocolate, potatoes and milk. Put a little of the flour with fruit and nuts, add them to cake mixture, then balance of flour with spices in it. Add vanilla and last fold in stiffly beaten whites of eggs. A cup of dates can be used instead of raisins or currants. The fruit can be omitted entirely if desired. If baked in a square loaf cake, let bake an hour in a moderate oven. It makes a delicious layer cake also, or can be baked in a stem pan if desired. This cake is especially good for high altitudes as it keeps moist for several days.

RECIPE 760. HIGH ALTITUDE YELLOW LAYER CAKE.

Follow recipe for 767, adding two yolks which have been well beaten.

RECIPE 761. HIGH ALTITUDE SPICE CAKE.

If necessary, cover cake the last fifteen minutes with a buttered paper, if it seems to be getting a little too brown. This recipe is fine for small, fancy cut cakes. If used in this way bake the mixture in shallow pan having dough about one inch deep, and baking only about thirty minutes. When cake is baked and cold, cut into rounds, squares, triangles and cover with frosting.

Cream butter and sugar, adding a little of the milk to aid creaming process. Beat yolks of eggs to a cream, add to cake, then milk, flour sifted with baking powder and then stiffly beaten whites of eggs. Last, put in brandy and citron. Citron should be very thin and in pieces from an inch to one and one-half inches long. Use stem pan, paper the bottom, grease sides and bottom. Bake in moderate oven about an hour.

Use same recipe as Citron Cake, substituting currants for citron. Take out one tablespoon of the flour and add to currants before putting them into cake.

RECIPE 775. ICING FOR CHOCOLATE TRIANGLES.

Boil one-half cup milk and one-half cup granulated sugar until it threads from spoon. While this is cooking melt one and one-half squares of bitter chocolate in double boiler. Flavor with one teaspoon vanilla. When syrup threads stir it into the melted chocolate. Beat until it begins to feel creamy, then spread it quickly over the cake. If it seems a little too stiff a few drops of boiling milk or water will throw it back thinner again. While the icing is still warm cut the cake into squares of two inches. Cut each square across diagonally, thus making a triangle of it.

RECIPE 776. ENGLISH WALNUT SQUARES.

4 eggs	1 cup walnut meats
$\frac{3}{4}$ cup granulated sugar	cut fine

	1 teaspoon vanilla
$\frac{1}{2}$ cup flour	

Sift flour by itself six times. Sift sugar six times. Beat whites of eggs until they are half done, then add cream of tartar and beat until eggs are dry and stiff. The lightness of the cake largely depends upon very dry eggs. To whites of eggs add sugar, gently folding it in, make as few moves as possible so as not to break down air cells in whites. When sugar is all in, fold in flour and vanilla. Fold always in one direction. Do not beat, the less you handle dough the lighter the cake. Paper bottom of pan but do not grease at all. Bake in layers, a solid cake or in stem pan. The stem pan will make lightest cake. Put into a very moderate oven, bake slowly about twenty-five minutes. The layers will not take as long. Butter Icing is nice on this, or any white icing.

RECIPE 779. ANGEL CAKE NO. 2.

whites of 11 eggs	1 cup flour
$1\frac{1}{4}$ cups granulated sugar	1 teaspoon vanilla

Sift flour and sugar separately, each eight times. Add a little of flour to raisins and currants. Beat eggs together until nice and foamy. Put cake together as follows: Butter and sugar, add molasses with soda, then fruit, eggs, flour and spices (alternately with milk) and, last, vanilla. This makes two large cakes. Put walnuts through grinder or chop into small pieces. Put cake together in the order ingredients are given. This is a large recipe and can be divided in half if desired. Will keep a long time. Bake in deep pans about $1\frac{1}{4}$ hours. A stem pan is best for all cakes heavy with fruit. Line pan with paper.

RECIPE 783. BOILED FRUIT CAKE.

1 cup brown sugar	1 cup chopped nuts
1 cup seeded raisins	1 teaspoon cinnamon

1 level teaspoon salt	$\frac{1}{2}$ teaspoon allspice
1 cup currants	2 cups flour
2 teaspoons baking powder

½ cup milk	1 teaspoon vanilla
½ pound marshmallows	

Make a syrup of milk and sugar. Let it come slowly to the boiling point. Let simmer for six minutes. Put the marshmallows and hot water into double boiler and let marshmallows melt. Stir until it is smooth, then slowly stir in the boiling syrup and beat thoroughly until cool enough to spread on the cake.

RECIPE 817. BANANA FILLING.

Follow Recipe 810. Spread custard on the cake, then lay a thick layer of thinly sliced bananas on each layer of custard. Should be eaten the day it is made.

RECIPE 818. NUT FILLING.

4 tablespoons flour	1 cup sugar
1 cup water	½ cup butter
¼ teaspoon salt	¼ cup chopped nuts

RECIPE 819. PINEAPPLE GELATINE FILLING.

1 cup whipped cream	2 teaspoons gelatine
1 cup grated pineapple	1 teaspoon lemon
⅓ cup sugar	juice

Place gelatine in quarter cup of pineapple juice for half an hour; then set it over hot water until dissolved; then add it to the sugar, pineapple and lemon juice; then beat in the whipped cream. Pin a paper "collar" around each layer cake; have it extending about one-half inch above cake. Pour one-third of filling on one cake. Put the next layer cake on top of the first one, pour on filling, etc. Set away to get firm. Then slice it in layers and serve like brick ice cream. Can have marshmallows and marischino cherries as a garnish. Any fruit colorings can be used, giving very pretty effects.

RECIPE 820. BANANA CREAM CAKE FILLING.

2 eggs (whites)	8 tablespoons powdered
4 bananas	sugar

Beat egg whites until perfectly stiff and dry; mash bananas in a separate dish until quite smooth, sprink-

ling powdered sugar over them to prevent their turning dark. Add the banana mixture to the whites, a spoonful at a time, beating after each addition. Sufficient beatings will make the cream as light and fluffy as whipped cream.

CHAPTER XVII

Doughnuts, Cookies, Candies and Gingerbreads.

RECIPE 821. PLAIN DOUGHNUTS.

1 cup sugar	2 teaspoons baking
2 scant tablespoons	powder
melted shortening	$\frac{1}{4}$ teaspoon salt
1 cup sweet milk	$\frac{1}{2}$ teaspoon nutmeg
2 eggs	Flour to roll out

Stir melted shortening and sugar together, add well beaten eggs, then three cups of flour with baking powder, salt, and nutmeg in it. Add more flour to make a dough stiff enough to roll out. Flour rolling board well. Take one-fourth of mixture, roll out to about one-half inch thick, cut with a doughnut cutter. Take leavings from the first cutting, add another one-fourth of the dough to them, roll this out, cut out and repeat this process until all dough is cut out. Have a kettle of deep fat, just hot enough to fry doughnuts a nice brown (see Index for Deep Fat Frying time table). The doughnuts will quickly brown on one side, then must be turned and browned on other side. Drain on a paper. Cook only a few at a time. Repeat until all are cooked. If desired, sift powdered sugar over them, or roll them in the sugar.

RECIPE 822. POTATO DOUGHNUTS.

1 cup hot mashed	2 $\frac{1}{2}$ teaspoons baking
potatoes	powder
2 tablespoons butter	1 $\frac{1}{2}$ cups sweet milk
1 $\frac{1}{2}$ cups sugar	$\frac{1}{2}$ teaspoons salt
2 eggs	1 teaspoon vanilla

Flour to roll out

Make a cream of potatoes, shortening, sugar and eggs, then add milk and salt, then flavoring. Add baking powder to two cups flour. Stir in flour and then add enough more to make a dough stiff enough to roll out.

1 cup molasses	$1\frac{1}{2}$ teaspoons salt
$\frac{1}{2}$ teaspoon soda	$3\frac{1}{4}$ cups flour

Put dry ingredients (sifted together) in bowl with butter. Cook molasses until it reaches boiling point, then pour it over ingredients in the bowl, mix well and then let stand until thoroughly cold. Put plenty of flour on rolling board, take one-fourth of the dough, roll out very thin, cut out with a cookie cutter, dipping cutter frequently in flour. $2\frac{1}{2}$ cups flour	

Cream butter, add sugar, beat well, add eggs well beaten. Sift flour, salt, nutmeg and baking powder together and add them to first mixture. Set away to get cold. 1 cup sour milk	1 teaspoon salt

Flour to roll out, about two cups

Add soda to molasses, stir well, add melted shortening, milk, salt and flour. Put away several hours to get thoroughly chilled. Roll out only a little at a time, keeping the rest of the dough cold. In this way you can handle it with less flour and so have rich, soft cookies. Roll them thin, cut out with a well-floured cookie cutter, place in a well-greased pan close together, bake in a moderately hot oven.

Do not add any more flour than you can help. Make a dough thick enough to roll out. Set it away to get thoroughly chilled. Take only a quarter of the dough at a time, roll it thin, cut out with cookie cutter, bake in a moderate oven. A little granulated sugar can be sprinkled on cookies just before putting them in the oven and one or two currants if desired. Spices may be omitted.

Use as little flour as possible.

1 teaspoon soda	
	1 teaspoon cinnamon

Cream sugar and shortening, add eggs, beat well. Sift flour, baking powder, salt and spices together, and add to first mixture. Stir in slightly floured raisins and nuts. Grease pans well and drop cake mixture from a spoon, allowing a couple of inches between. If desired, one cup of currants may be used, allowing one cup of nuts. If a laxative effect is desired use two cups of flour and one-half cup bran.

One cup cold left-over meat which has been run through grinder, add to it one small minced onion. Add one-half cup soft bread crumbs, season to taste, adding enough milk to shape meat and crumbs into balls about size of an English walnut. Roll them in flour and saute a light brown. CHAPTER XIX**Meat Substitutes.**

Our bodies are living machines driven by the food we eat. The value of the necessary food for the body can easily be learned.

In planning any meal, remember that in order to provide the needed energy and building material, you must include five elements:

Proteins, for growth and repair of the tissues.

Everyday foods and the elements they supply.

For Growth and Repair—Meat, fish, eggs, milk, cheese, nuts and (combined with a fat) beans, peas and lentils.

Carbohydrates, to supply heat and muscular energy.

For Force and Heat—Potatoes, rice, corn, cereals, tapioca, sago (all of the foregoing are starchy foods); also fats and sugars.

Vegetables and Fruits, for bulk.

For Bulk—Vegetables with little or no starch, namely: Cabbage, turnip, beets, green beans, celery, asparagus, eggplant, artichoke, squash, tomatoes, cucumbers, and all green vegetables. Also fruits.

Water.

Mineral matter, for bone structure and life generally.

Meals should vary according to the needs of the family. Persons working out of doors actively need a

different diet from those leading sedentary lives. Young and old members of a family also need different diets.

All foods must be clean, not greasy, therefore more easily digested.

As a nation we need to become educated in the ideals of a simpler diet. It is not easy to establish new customs of eating, either in the matter of simplicity, or in the choice of foodstuffs, but science is coming forward to convince us that our health will be better for such reformations.

If in meal-planning the housekeeper gives careful thought to the choice of foods which include these essential elements, the difficulties which arise from overeating and undereating will be greatly lessened.

If one is not thoroughly nourished, it may mean that his diet contains too much tissue-building and heat-producing material, but lacks fat and foods which furnish bulk and mineral matter. Or, his diet may include too much sugar and bulk, while the proteins or tissue-building elements are lacking.

The system calls for variety, but it need not be gained by serving many kinds of food at one meal. A simple, wholesome ration at each meal; that is, foods rich in proteins, carbohydrates, fats, mineral matter, and providing bulk, is far more satisfactory from every point of view.

There is close connection between the thorough enjoyment of two or three harmonious dishes, simply and well prepared and served, and the beneficial results to the whole human body. We then appreciate more fully the natural flavors of food, because high seasoning is eliminated. When we chew more carefully, digestion and assimilation are more normal.

Eat meat, if you like it, and can afford it; but give beans and peas, cereals and nuts, their rightful place in the menu, for they are foods in which nourishment is as concentrated as in meat. In some nuts, like peanuts and almonds, proteins are present in generous proportion; while all nuts, except chestnuts and black walnuts, furnish abundant fat. So we are in no sense dependent on meat to supply the strength-giving elements of our diet. By making the same combinations of concentrated vegetable and nut foods with starchy and bulky foods as when meat is used, we can keep the body in fine condition.

CHAPTER XX**Jellies, Jams, Canned Fruits, Preserves and Pickles.**

A FEW RULES FOR SUCCESSFUL PRESERVING AND PICKLING.

Never use old rubbers.

Sterilize jars and glasses by putting them on in cold water in a deep kettle and bring them to boiling point for five minutes. Put a heavy cloth in bottom of kettle, or wire stand, so that glass does not touch bottom of kettle. Drain for a moment upside down, then fill while hot.

Do not have over-ripe fruit, the fresher the fruit the better results.

Glass jars must be filled to overflowing to keep out all air.

If the last jar lacks a little fruit to make it full, add boiling water until jar overflows.

Granite kettles are preferable—never use tin.

Parafine wax is preferable for covering jellies, but when not available cut circular papers size of jelly glass (inside), dip them in brandy or white of egg, lay on jelly after it has set, cover glass with tin lid and paste a larger circle of paper over top and down over the glass, about an inch below tin lid.

Fruit jars should be allowed to get cool after filling and settling, then dipped in parafine wax far enough down to thoroughly cover the rubber. This is easily done by having a deep kettle of melted wax, reverse the jar, upside down, and dip in wax once or twice until

crevice around lid is well filled with wax. Fruit so treated keeps indefinitely.

Some cooks heat the sugar in a pan in oven before adding it to fruit juices.

RECIPE 896. CURRANT JELLY.

Wash and pick currants, removing any that are too ripe. Do not remove from stems. Put into agate kettle, cover with enough cold water to just show through fruit. Boil until fruit looks bleached. Crush fruit a little as it cooks. Pour fruit into flannel jelly bag to drain. Then put juice back into kettle and boil twenty minutes. Remove from fire, measure it, allowing one cup sugar for each cup juice. Stir sugar thoroughly into juice and boil until it "jells" from end of the spoon. Pour into freshly sterilized hot jelly glasses and let stand over night until it has set. Then cover with parafine wax or paper (see Rules at beginning of chapter).

RECIPE 897—CURRANT AND RASPBERRY JELLY.

Use equal parts of currants and raspberries and follow recipe for Currant Jelly.

RECIPE 898. APPLE JELLY.

Wash and cut stems from sour apples, quarter apples and put into granite kettle with just enough cold water to show through fruit. Boil until apples are tender enough to mash; strain off juice, first through a colander and then through a flannel jelly bag. Do not squeeze bag hard enough to get the pulp through or jelly will not be clear. Put juice back into kettle, let it boil for fifteen minutes, then measure it and allow one cup sugar to each cup juice. Stir sugar in thoroughly and simmer until juice "jells" from the spoon. Pour into sterilized glasses. (See Rules, beginning of this chapter.)

RECIPE 899. CRAB APPLE JELLY.

Wash apples, cut in half, follow directions for making Apple Jelly.

RECIPE 906. MINT JELLY FOR ROAST LAMB.

$\frac{1}{2}$ cup vinegar	$\frac{1}{4}$ teaspoon salt
$\frac{1}{4}$ cup sugar	$\frac{1}{2}$ tablespoon gelatine
$\frac{1}{2}$ cup chopped mint	

Cover gelatine with one tablespoon cold water. Boil mint, vinegar, sugar and salt for five minutes, add the soaked gelatine, stir until dissolved, strain through a cloth and if a beautiful green color is desired use a few drops of any good green fruit coloring. Pour into a jelly glass. Set away to get cold. Will keep several days.

When making apple jelly reserve some of the juice and to each pint juice add $\frac{1}{2}$ cup chopped mint, boil five minutes, strain out mint and then proceed in regular way with apple jelly. Nice with cold meats.

GENERAL DIRECTIONS FOR CANNED FRUITS.

Small fruits should be carefully picked over and then boiled in syrup. Hard-fibred fruits like pineapple and quinces should be pared and sliced, then boiled in water

until almost done before cooking them in syrup. For canning, first weigh fruit, then allow one-third its weight in sugar. For each cup sugar allow one-third cup water. Boil sugar and water ten minutes, then add part of fruit, cook until tender but not broken, fill jars with fruit, cover with syrup. Seal at once. Repeat until all the fruit is cooked.

Take tender young ears, cut kernels lengthwise with sharp knife, scrape pulp from the cob. Sterilize glass

jars, pack corn as tightly as possible into jars, pressing it down with handle of potato masher. Fill jars full, use fresh rubbers and screw on top. When jars are all full lay some hay or a thick cloth in bottom of clothes boiler, lay jars on their sides or let them stand up, as you choose. Cover jars with another cloth, place another layer of jars in boiler and cover them all with cold water. Bring to the boil and boil steadily for three hours. Do not let it fall below boiling point during that time. After three hours remove boiler from stove, let jars remain in boiler until water is cold. Then wipe them, wrap each jar in brown paper to exclude the light and put away in a cool, dark place.

RECIPE 917. CANNED PEAS.

Fill sterilized jars full of shelled peas. Shake down well to have as full as possible. Fill jars full of cold water, put on new rubbers and have lids sterilized. Cover and proceed as for boiling Canned Corn.

Bring to boil, lay tomatoes in this syrup and cook for five minutes, remove, put into wide-mouthed jars, and boil the syrup for an hour, or until very thick. Fill jars with the spiced syrup and seal.

RECIPE 950. PICKLED CHERRIES.

Wash cherries and measure them. For every quart of fruit put into the preserving kettle a half-pint of vinegar and a heaping tablespoon of sugar, adding, when this boils, a dozen cloves and six blades of mace, broken into bits. Boil for five minutes, drop the cherries into the liquid and take from fire. Leave for twenty-four hours, drain out the cherries, put these into jars and boil up the vinegar again. Strain out the spices and allow the vinegar to get cold before filling the cherry jars with it. Seal and keep in a dark place.

RECIPE 951. SPICED PEAR PRESERVES.

Pare the pears, cut into long slices and weigh. For four pounds of fruit allow three pounds of granulated sugar, a quarter-pound of ginger root, sliced very thin, six whole cloves, and the juice of two large lemons. Put into the kettle a gill of water, the ginger root and cloves, the sugar and the peel of a lemon, cut into thin strips. As soon as the sugar is melted, lay in the pears, simmer for ten minutes, take out and put into jars, boil up the syrup, and, when thick, pour it over the pears, filling the jars to the brim. Seal at once.

RECIPE 952. BRANDIED PEACHES.

Pare the peaches, weigh these and allow for every pound of fruit one and one-half pounds of granulated sugar. Put the liquor from the peaches and the sugar over the fire together; when melted, lay in the peaches, and when the boil is reached, take from the syrup and put into glass jars. Boil the syrup for twenty minutes more, and add for every four pounds of fruit a pint of brandy. Stir this into the syrup just before taking from the fire, pour into the jars of peaches, letting it flow in over all, and fill the jars to the brim. Seal and keep in a dark place. Do not use for six weeks.

RECIPE 953. GOOSEBERRY CHUTNEY.

Pick over gooseberries and measure. To a quart of the berries allow two ounces of mustard seed, two ounces of ground ginger, two and one-half ounces of brown sugar, ten ounces of seeded raisins, three ounces of salt, three ounces of garlic, and a quart of vinegar. Chop the garlic, raisins and gooseberries together, putting them through a fine meat grinder to convert them to a paste. Add all the other ingredients and boil for three-quarters of an hour. Add enough tumeric to make a good color, turn into jars and seal.

COPIED FROM AN EXCHANGE.**RECIPE 953B. CANNED FRUIT COOKED IN THE OVEN.**

Grandmother says that cooking canned fruit in the oven is the method to be preferred. The work is easily and quickly done and the fruit retains its shape, color and flavor better than when cooked in the preserving kettle.

"Cover the bottom of the oven with asbestos, the kind plumbers use for covering pipes, as that is cheaper than the ordinary kind. However, if asbestos is not

available, there should be placed in the oven shallow pans containing about two inches of boiling water.

"All the jars and utensils should be sterilized by placing in boiling water. Make the syrup, prepare the fruit the same as for cooking in the preserving kettle. Fill the hot jars with it, and pour in enough to fill them solidly. Run the blade of a silver plated knife around the inside of the jar. Then place them in the oven, either on the asbestos or in the pans of water. The oven should be moderately hot. Cook the fruit for ten minutes; remove from the oven and fill the jars with the boiling syrup after which they should be wiped and sealed. Do not let the jars get drafts of air as they are likely to crack. If the screw covers are used, tighten them after the glass has cooled.

"The large fruits, such as peaches, pears, crab apples, quinces, etc., will require about a pint of syrup to a quart jar, while the smaller fruits will require a little over a pint of syrup.

"The amount of sugar to each quart of syrup should be regulated to suit the fruit to which it is to be used.

"In the case of most fruits, canning with a little sugar is to be preferred to preserving with a large quantity. There are, however, some fruits that are only good when preserved with a great deal of sugar. Of course, such preparations of fruit are only desirable for occasional use to be used as preserves. The fruits best adapted for preserving are sour cherries, quinces, sour plums and strawberries. These are best cooked on top of the stove."

CHAPTER XXI

Candies and Confections.

RECIPE 954. FONDANT.

Fondant is the base of many kinds of cream candies. It takes a little experience to learn to make it, but the knowledge once acquired is well worth having. It is made as follows:

2 cups granulated sugar 1 cup hot water
 1/3 teaspoon cream of tartar

Place on a very slow fire and stir thoroughly until sugar is dissolved. If there are any grains of sugar on sides of the pan remove them gently with a clean damp cloth before sugar begins to boil. As soon as it strikes the boiling point let it cook quickly without stirring,

until a little of it dropped from the spoon will form a soft ball in cold water. Remove it at once from the fire and set it away in the dish it cooked in to cool. Do not set dish in cold water but let it cool slowly. When cool (not cold) stir until it becomes a creamy mass. When you cannot stir it any more, because too hard, take it out and put on a marble slab or a board and knead thoroughly. The more you knead it the finer grained it will be. Set away in a bowl to stand for at least twenty-four hours and it will be all the better if it stands two or three days. It will keep a week. Keep covered with a damp cloth. If it should become grainy in cooking add a little more hot water and let it cook again. Fondant can be colored as desired by use of the fruit colorings which all reliable grocers now have on sale. A few drops is all that will be required. Flavoring may be added as desired.

When ready to use it can be divided into different parts, each part having a different color or flavoring. Shape into balls and let stand until the next day. For chocolate creams melt some bitter chocolate in a double boiler. Use a long wire hatpin to dip the balls under the chocolate. Set them on buttered paper to dry. For English walnut creams, shape the fondants in rather flat pieces and place a half walnut on either side.

RECIPE 955. AFTER DINNER MINTS.

Put some of the fondant into a double boiler, let it melt, add a few drops of any flavoring desired, oil of cloves, cinnamon or wintergreen. Be careful not to use too much. The fruit coloring may be added to match any color scheme for the dinner or luncheon. When essence and coloring is in the fondant let the mixture drop from end of the spoon onto buttered paper.

RECIPE 956. NUT CREAMS.

Melt some of fondant in a double boiler, use a wire hatpin or skewer, dip nut under the melted fondant, set it on buttered paper to dry. Brazil nuts, almonds, pecans, English walnuts, filberts—all may be treated in this way.

RECIPE 957. FRENCH BONBONS.

Take part of fondant mixture and work into small balls and set away until next day to dry. When ready to finish them melt some of the fondant (which you reserved in bulk form) in a double boiler. Use a wire skewer or hatpin, take each ball, dip into melted fondant and set on buttered paper to dry.

RECIPE 958. BLACK WALNUT PANOUCHI.

4 cups light brown sugar	1 cup chopped walnut meats
$\frac{1}{2}$ cup milk (or cream)	

Boil sugar and cream together for five minutes after it strikes the boiling point. Add walnut meats, boil three minutes, remove from fire and beat until it begins to cream. Pour on buttered pans.

RECIPE 959. TURKISH DELIGHT.

Soak one ounce sheet gelatine in one-half cup cold water for two and a half hours, with a pinch of salt.

For the syrup:

2 cups sugar	$\frac{1}{3}$ cup orange juice
$\frac{1}{2}$ cup cold water	3 tablespoons lemon juice
Grated rind 1 orange	

Bring sugar, water and grated rind of orange to the boiling point, then add the soaked gelatine, stir well and let simmer for twenty minutes. Then add orange and lemon juice. Strain into pans that have been rinsed with cold water. Pour mixture in to the depth of about an inch. When cold cut into cubes and roll in powdered sugar. This makes one panful in an eight-inch cake pan.

RECIPE 960. MINT DELIGHT.

2 tablespoons lemon juice	4 drops oil peppermint
4 tablespoons thick sugar syrup	Few drops green fruit coloring
	Pinch salt

Add the above to the recipe for Turkish Delight.

RECIPE 961. BOLOGNA CANDY.

1 cake sweet chocolate	1 cup chopped walnuts
White 1 egg	

Put chocolate to melt in a double boiler. Beat white of egg to a stiff froth, add to it the melted chocolate, stir well and add the one-half cup chopped walnuts. Mould into a long shape like a bologna sausage. Slice it off in pieces.

RECIPE 962. UNCOOKED CREAM CANDY.

Put white of an unbeaten egg into a wineglass or small dish. Take an equal amount of sweet cream. Mix them well together, then slowly add enough confectioner's sugar to make a paste to handle easily. Take a small amount of the paste, about a teaspoon, and shape it as desired. It can be made into a flat shape about the size of a quarter and one-half a walnut on either side.

Another way to use it is to blanch some almonds, and surround each almond with some of the candy paste. Take a liberal amount, add to it some chopped nuts, Maraschino cherries, pineapple, citron cut in very thin slices. Work this all together into a round roll, then cut across in slices.

Dates stoned and stuffed with this paste are delicious. Strips of figs may be surrounded by the paste, or a round ball of paste made and a piece of fig placed on either side. If flavoring is desired add it to the egg and cream before adding the sugar. The paste dries quickly and it must be worked up rapidly. If different colors are desired add a few drops of fruit coloring to the cream before adding the sugar.

RECIPE 963. CHOCOLATE CARAMELS.

1 cup sugar	1 cup grated bitter
1 cup molasses	chocolate
1 cup milk	1 teaspoon vanilla
3 level tablespoons butter	

Boil all together until it hardens when dropped from the tip of spoon in cold water. Pour into well-buttered pans. Let harden. Cut in squares.

RECIPE 964. CHOCOLATE FUDGE.

2 cups sugar	1 level tablespoon butter
1 cup sweet milk	$\frac{1}{4}$ pound bitter chocolate
(or cream)	1 teaspoon vanilla

Stir constantly from time it begins to boil. As soon as it forms a soft ball when dropped into cold water remove from fire and beat until it grains, then pour it onto buttered pans and mark off into squares.

RECIPE 965. PEANUT FUDGE.

2 cups granulated	2 teaspoons peanut
sugar	butter
$\frac{1}{2}$ cup milk	

Let boil five minutes, then remove from fire and when cold stir until it is thick. Pour on buttered plates and mark off into squares.

RECIPE 966. DIVINITY FUDGE NO. 1.

2 cups granulated	$\frac{1}{2}$ cup boiling water
sugar	Whites 2 eggs
$\frac{1}{2}$ cup Karo syrup	1 cup nuts

Boil first three ingredients together until the syrup forms a soft ball when dropped into cold water. Beat eggs to a stiff froth, pour half syrup over eggs, beat well.

Put other half of syrup back on fire and let it cook until it forms a hard ball in cold water. Then pour this syrup over the eggs and beat until cold. Add the chopped nuts when fudge is about half cold.

RECIPE 967. DIVINITY FUDGE NO. 2.

5 cups sugar	Whites 3 eggs
Water to moisten	1 cup chopped nuts
1 ½ cups glucose	1 teaspoon vanilla

Put sugar with just enough water to moisten on the gas stove, add one and one-half cups glucose, let it boil. Beat whites of eggs to a stiff froth and add to them one tablespoon glucose. As soon as syrup boils dip out three tablespoons and pour over the whites of eggs and stir well. Let syrup continue to boil until it forms a soft ball when dropped into water, then pour it over the whites of eggs and beat until it thickens. Add nuts and vanilla. Pour onto buttered plates and mark into squares.

RECIPE 968. CHOCOLATE DIVINITY FUDGE.

If Chocolate Divinity is desired, melt enough bitter chocolate to make two tablespoons. Add this to the boiling syrup, making the recipe for either No. 1 or No. 2 Divinity.

RECIPE 969. MAPLE FUDGE.

2 cups maple sugar	¾ cup milk (or cream)
¼ cup boiling water	1 level tablespoon butter

Melt sugar with boiling water, add cream. Boil until it forms a soft ball when dropped into cold water. Keep it stirring constantly. When creamy, pour onto well buttered pans. Mark into squares.

RECIPE 970. MAPLE NUT FUDGE.

Any desired nuts may be added to the fudge when beating it to a cream. Use about a cup.

RECIPE 971. MOLASSES TAFFY.

4 cups New Orleans	2 tablespoons vinegar
molasses	6 level tablespoons
1 ½ cups sugar	butter

Stir melted butter, molasses and sugar well together before putting on the fire. Let simmer until it is brittle when dropped from the end of the spoon into cold water. Watch carefully that it does not scorch. It will need constant stirring at the last. Just before removing from fire add the vinegar. Pour onto buttered pans, let it

RECIPE 972. MARSHALLOWS.

2 cups sugar $\frac{2}{3}$ cup cold water

Boil syrup until it will form a ball in cold water, then beat it into soaked gelatine with a flat egg beater until white and stiff. Add one teaspoon vanilla. If wanted light and fluffy, add well beaten whites of two eggs, whip well together, then pour into pans that have been well sprinkled with powdered sugar. This recipe makes two pans of candy about three-fourths of an inch thick when poured into eight-inch cake pans.

RECIPE 973. SOFT KARO CANDY.

1½ cups dark brown sugar 2 tablespoons butter
½ cup Karo 1 teaspoon lemon
 extract

Boil sugar, Karo and butter to form a hard ball in cold water, adding lemon when nearly done. Turn into buttered tin till cool enough to pull. When light color pull into inch strips, cut in pieces and wrap in waxed paper.

RECIPE 974. YELLOW JACK.

To one quart Karo which has been boiled for thirty minutes add one-half teaspoon bicarbonate of soda which has been rubbed absolutely smooth. Allow to boil, stirring constantly or it may burn, until brittle when tested in cold water. Remove from fire and add one tablespoon lemon juice. When cool enough to handle, pull until a light, bright yellow. Twist two strands together and cut into desired lengths.

RECIPE 975. KARO CREAM DROPS.

Use the recipe for "Yellow Jack," but instead of twisting or braiding after it has been pulled, roll out into two half-inch sheets. Lay these together with a layer of Karo fondant between. Cut into squares or other shapes.

RECIPE 976. PEANUT CANDY.

1 pound brown sugar	4 tablespoons butter
1 cup Karo	$\frac{3}{4}$ pound shelled
1 cup water	peanuts

Boil sugar, Karo and water till it is crisp when dropped in cold water. Just before taking from the fire add the butter and the nuts. Pour into a well-buttered tin.

RECIPE 977. BUTTER CANDY.

2 cups sugar	1 tablespoon vinegar
1 cup Karo	2 tablespoons butter
2 tablespoons hot water	

Boil all except the butter, which should be added when nearly done, until brittle in cold water. Pour into buttered tins.

RECIPE 978. KARO BUTTER SCOTCH.

1 cup sugar	1 teaspoon vinegar
1 cup Karo	$\frac{1}{2}$ cup butter

Boil all together until it becomes instantly brittle when dropped in cold water. Pour thinly onto buttered pans. If desired to mark in squares it must be done at once, as it cools immediately.

RECIPE 979. KARO SEA FOAM.

3 cups sugar	$\frac{1}{2}$ teaspoon salt
$\frac{1}{2}$ cup Karo	1 cup chopped nuts
$\frac{2}{3}$ cup water	1 teaspoon vanilla
Whites of 2 eggs	

Boil sugar, water and Karo till it forms a soft ball in cold water. Pour slowly onto the whites of the eggs beaten with the salt. Continue to beat till nearly stiff enough to hold its form, add the nuts and flavoring and turn into brick-shaped bread tins. When cold turn onto waxed paper and cut in squares.

RECIPE 980. KARO WAFERS.

2 $\frac{1}{2}$ cups sugar	$\frac{1}{4}$ cup Karo
$\frac{1}{2}$ cup water	

Boil together without stirring to form a soft ball in cold water and turn onto a buttered platter. Do not add scraping from saucepan. When cool enough to dent, work with a wooden spoon or paddle until creamy and firm. Cover closely with a bowl and stand thirty minutes, when it should be kneaded like bread. Put the "loaf" into a double boiler and add one teaspoon vanilla.

It will soon soften to a thick cream. When thin enough to drop from a spoon, make rounds on waxed paper. If too stiff, a very little hot water may be added (teaspoon at a time) while the mass is in the double boiler. If desired omit vanilla and add any other extract, or a few drops of peppermint.

RECIPE 981. CHOICE KARO CARMELS

2 cups granulated sugar	1 cup butter
1 $\frac{3}{4}$ cups Karo	1 teaspoon vanilla
2 cups cream	1 cup chopped nuts

Cook sugar, Karo, half the cream and butter together. When it boils, stir in the rest of the cream, but do not allow boiling to cease. Test for a firm ball in cold water. Add vanilla and nut meats. Turn into buttered tin. When nearly cold, cut in cubes and wrap in waxed paper. The boiling sometimes requires nearly an hour, but when carefully made these caramels cannot be excelled.

RECIPE 982. WALNUT CARMELS.

2 pounds brown sugar	4 tablespoons butter
1 cup Karo	6 squares bitter
1 cup milk	chocolate
	$\frac{1}{2}$ pound walnuts

Put all the ingredients except the nuts into a saucepan and bring slowly to the boiling point. Continue to boil till 240° F. on sugar thermometer is reached. Add the chopped nuts and turn into buttered tins. Mark in squares when cold.

RECIPE 983. KARO CREAM CARMELS.

1 cup cream	4 tablespoons butter
$\frac{1}{3}$ cup Karo	2 tablespoons flour
$\frac{3}{4}$ cup sugar	2 tablespoons Kings-
1 teaspoon vanilla	ford's cornstarch

Put sugar, Karo and half the cream into saucepan and stir constantly till it boils; add the rest of the cream slowly. Do not let boiling cease. Cook till a soft ball forms in cold water. Add the flour, cornstarch and butter creamed together, and continue to cook till a firm soft ball forms in cold water. Turn into buttered tins, and mark in squares when cool. Nuts may be added if desired.

CHAPTER XXII

Sandwiches.

Sandwiches are best made from bread which bakers call sandwich bread. Have butter soft enough so that it will cream well before beginning to make sandwiches. Crusts can be left on or removed as preferred, but usually they are removed. Spread the butter smoothly over the uncut slice of bread, then cut off the slice, butter loaf again and cut off slice, continuing this process until as many slices are cut off as required. Have the bread cut as thinly as possible. It should be bread one day old to cut well. Spread slices with any of the mixtures found in the recipes for sandwiches. If the sandwiches are to be carried, it is well to wrap each one in a parafine paper cover. If a large number are prepared for an entertainment place them in a deep bowl, dip a clean cloth in hot water, wring as dry as possible and lay it over the bowl. Brown bread, rye bread and whole wheat bread are used as well as white bread. One slice of white bread and one of some other kind is frequently used.

RECIPE 985. TOMATO SANDWICHES.

Skin whole tomatoes, and cut in thick slices. Make a French dressing, and dip each slice into it, then lay on a lettuce leaf between slices of Boston brown bread.

RECIPE 986. TOMATO AND PEANUT SANDWICHES.

Drain the liquor from canned tomatoes and chop enough of them to make a small cup of tomato pulp. Work this into the contents of a jar of peanut butter, adding salt to taste. Spread between thin slices of bread.

RECIPE 987. SALMON SANDWICHES.

Drain a can of salmon, remove the bones, and flake the fish very fine. Dip a lettuce leaf in mayonnaise dressing, lay it on a thin slice of buttered bread from which the crust has been cut, put a layer of the flaked salmon on this, cover with another lettuce leaf, and put on the upper half of the sandwich.

RECIPE 988. SPINACH SANDWICHES.

Drain the liquid from cooked spinach very dry, pressing out all moisture. When cold, chop the spinach as fine as possible, seasoning with a little mayonaise and pickled cucumber, minced into tiny bits. Spread between buttered bread slices.

RECIPE 989. SPINACH AND ANCHOVY SANDWICHES.

Drain spinach as directed above, squeezing out every drop of juice after boiling. While hot, beat into a cup of spinach a heaping tablespoon of melted butter, salt to taste, and a dash of white pepper. Rub in now a tablespoon of anchovy paste, or an equal quantity of boned and chopped anchovies. If the paste is used, do not put the suggested salt into the spinach. When you have a smooth paste, spread it on the crustless slices of bread.

RECIPE 990. GREEN PEA AND EGG SANDWICHES.

Drain a cup of canned green peas and cover with salted, boiling water. Cook until soft, drain and rub to a smooth paste with the yolks of two hard-boiled eggs. Season with salt, pepper, and melted butter and spread between thin slices of white bread.

RECIPE 991. FRUIT SANDWICHES.

Mix together three tablespoons of canned cherries—stoned and chopped fine, the same quantity of canned and grated pineapple, and a tablespoon of canned and minced apricots. Drain all the fruits dry from the liquor in which they were canned, and mix with a tablespoon of very thick, clotted cream. Spread between thin crackers, and serve at once.

RECIPE 992. FRUIT PRESERVE SANDWICHES.

Any preserved fruit can be combined with a layer of Neufchatel, cream, or cottage cheese, or the stiffly beaten white of an egg can be mixed with jam or preserves and spread on the sandwich.

RECIPE 993. CLUB SANDWICHES.

For each sandwich three slices of toast are used. Each slice nicely buttered, then on one slice a very thin layer of cold boiled ham is laid, on this ham a very thin slice of sour cucumber pickle. Then another piece of toast, and on this lay a very thin slice of cold roast chicken or turkey. On this place the third slice of toast. Each slice slightly seasoned with salt and pepper.

In every case the foundation is the toasted bread.

With these sandwiches can be used the following combinations:

No. 1.—Cold chicken, fried ham, lettuce, mayonnaise, toast.

No. 2.—Cold chicken, fried bacon, lettuce, a slice of tomato, mayonnaise, toast.

No. 3.—Cold turkey, fried ham or bacon, a slice of tomato or sour pickle, toast.

Always serve a slice of pickle, cut lengthwise of the pickle, and an olive or two on the plate with club sandwich.

RECIPE 994. MINCED HAM SANDWICHES.

Take any of the least desirable cuts of cold boiled ham and mince very fine. To this add enough cold boiled salad dressing to make a thick paste. This can be used at once or placed in a glass jar which is airtight. It will keep a long time. This is a good way to use up any left-over ham, fried or boiled.

RECIPE 995. DEVILED EGG SANDWICHES.

Boil eggs until hard. Remove from shells, take out yolks and mash them with a very little butter or oil. Season very highly with salt, pepper, paprika, Worcestershire sauce, vinegar and mustard. Rub until a smooth paste. Chop the whites of eggs, add to yolk mixture and spread on the slices of bread. A little minced ham, or a sardine or two, or a green pepper, or a pimiento or some sharp grated cheese can any one of them be added to the yolk mixture and thus get a different combination. Sour cucumber pickles or olives are also nice.

CHAPTER XXIII

Breads and Breakfast Breads**BREAD BAKING.**

Every woman who makes bread seems to be a law unto herself. If ten women were gathered together I venture to say that each one would have her own way of making bread, which would vary a little from any other method. In the Middle West and Eastern states where the flour is made from hard wheat the process differs slightly from that which must be used in the Northwest or any locality where there is a great percentage of soft wheat used in the flour. Some flours are composed entirely of soft wheat. This requires less kneading and less liquid in the mixing. Each special blend of flour must vary a little in the manner of handling, so no absolute hard and fast rules can be given for the exact amount of liquid, flour or necessary kneading. This can only be learned by carefully following the general rules for bread making and then modifying them to suit the locality, and the flour used.

GENERAL RULES FOR BREAD BAKING.

The shorter the process from yeast to oven, the less danger there will be in having poor bread. Different qualities in flours require different handling. When bread is sour, the dough has stood too long and too much fermentation has taken place. This never occurs when a short process of bread making is used. Personally, I have abandoned all other processes and use only the "Two Hour" Bread. See Recipe 1003. The yeast sponge used in this process will keep several days and affords an opportunity for having many different kinds of "sweet bread" rolls and cakes within an hour of mixing the eggs, sugar, spices and fruits with the sponge. This is an advantage as it saves several hours' time.

For Sweet Bread Dough take one cup of the sponge, add $\frac{1}{4}$ cup sugar, 2 tablespoons shortening, 2 well beaten eggs, a cup of the desired fruits and 1 teaspoon of spice; add enough flour for a moderately soft dough. Read Recipes 1015, 1020, 1021, 1022, 1023. They will tell you how to knead, shape and bake the different styles of Sweet Doughs.

Dough should be thoroughly mixed with a perforated spoon before kneading.

Make small loaves and bake well.

If your dough is not light and spongy enough, give your dough more age; if too much so, take it younger.

Cold and salt check fermentation; salt retards yeast, but helps control undesirable acids; heat hastens it. Sugar is food for yeast and helps it to bud and grow.

If you use the "over night" process of bread making keep dough well covered to prevent crust from forming; a tin pan or earthen dish covered over bowl containing dough is better than a cloth or paper.

Bread is ready for the oven when the dent produced by pressing the finger on loaf will remain.

Bread and rolls should be set in a place only moderately warm. If dough becomes chilled, bread will be heavy, slow and coarse. If too warm, it will be coarse, dark and probably sour.

Let dough double in size before baking; this should require one hour.

If for any reason, dough has soured, a teaspoon of soda dissolved in a little water will help it, but will not bring back the sweet flavor home-made bread should have.

RECIPE 996. SPONGE FOR TWO HOUR BREAD.

This recipe will make three loaves and a pan of rolls.

3 medium sized potatoes	2 tablespoons sugar
1 quart boiling water	1 tablespoon salt
$\frac{1}{2}$ pint tepid water	2 tablespoons shortening
1 cake yeast (dry or compressed)	$\frac{1}{4}$ cup flour

Pare and put the potatoes into boiling water to cook tender. Put yeast cake into $\frac{1}{2}$ pint tepid water. When potatoes are tender enough to mash, pour off the potato water and measure it. There should be one pint. If there is less add enough more water to make it one pint. Put this potato water into a deep bowl and to it add the salt, sugar and lard. Let stand until lukewarm, then add the $\frac{1}{2}$ pint of yeast water and $\frac{1}{4}$ cup of flour. Stir the flour in till smooth. Set away in a moderately cool place for 12 hours, although it can stand a week and will not spoil.

TO MAKE TWO HOUR BREAD.

(Sponge Method)

When sponge has stood twelve hours and you are ready to make the bread, use a $\frac{1}{2}$ -pint measuring cup. For each loaf of bread of medium size, allow one cup of the sponge. If larger loaves are desired take one and

one-half cups yeast sponge for each loaf. Do not add anything to the sponge but flour. Simply put sponge into a bowl and begin shaking in flour, beating it in hard with a perforated spoon. When you can no longer stir it, put it out on bread board, work in more flour, kneading it well, until dough does not stick to hands or board. Cut it into desired number of loaves, working each loaf smoothly into shape. Have greased bread pans ready and put loaves into pans to rise. They should not more than half fill pans. Grease top of loaves and set in warm place away from drafts. They will rise in from 45 minutes to 1½ hours (varies with different atmospheres and temperatures). When nice and light—doubled in bulk and up to top of pans, bake in a moderately hot oven 15 minutes, when loaves should have risen to full height—then lower the heat a little for 15 minutes, when loaves will brown. Bake 15 minutes more with low heat to thoroughly cook loaves to center. When loaves give out a hollow sound when rapped, remove from pans. Let cool (out of drafts) before putting away in bread box.

RECIPE 997. QUICK PARKER HOUSE ROLLS NO. 1.

- 1 cup two-hour yeast sponge
- Flour to make soft dough
- 1 tablespoon melted shortening

Work the flour into the yeast sponge for about five minutes. Roll out on a bread board with the rolling pin. Cut out each roll with a large-sized biscuit cutter. Spread lightly with lard or butter, fold over like a pocketbook. Set to rise till very light—bake 20 minutes in moderate oven.

RECIPE 998. PARKER HOUSE ROLLS NO. 2.

For one pan of Parker House rolls, reserve a sufficient amount of the dough (Recipe 1009 or 1014). For a small family a lump of dough the size of your two fists will be enough. Set dough away in a very cool place until an hour and a half before you want the rolls. Then work about two tablespoons of shortening into the dough, flour the bread board, roll out the dough to depth of one inch with the rolling pin. See Recipe 997 for cutting, shaping and baking rolls.

RECIPE 999. QUICK TEA-ROLLS.

- | | |
|-------------------------|-----------------------|
| 1 compressed yeast-cake | 3 cups bread-flour |
| ½ cup scalded milk | 2 tablespoons lard or |
| ½ cup tepid water | butter |
| 1 tablespoon sugar | ½ teaspoon salt |

Add shortening to milk and let cool till lukewarm. Dissolve yeast and sugar in the water, combine mixtures, beat in half of the flour, whipping till very smooth, then add the balance together with the salt. Knead thoroughly. Take pieces dough size of hen eggs, work into round balls, grease over the top, place in greased pans. Set to rise in a warm place for about two hours, and bake fifteen minutes in a moderate oven. This makes two dozen small rolls.

RECIPE 1000. SWEET POTATO ROLLS.

- | | |
|------------------------|-------------------------|
| 1 pint milk | 1 compressed yeast cake |
| 1 pint flour | 1 tablespoon shortening |
| 4 baked sweet potatoes | 1 teaspoon salt |

Scald milk and when lukewarm add yeast, moistened, the salt, shortening and sufficient flour to make a batter. Beat well and stand in a warm place two hours. When the potatoes are done, press them through a sieve, add them to the light bread mixture, and add sufficient flour to make a soft dough. Knead carefully, cover and stand aside until very light. Form quickly into rolls and place in greased pans. Stand aside for one hour. Bake in a quick oven twenty minutes.

RECIPE 1001. QUICK NUT BREAD.

Three cups bread flour, four teaspoons baking powder, one teaspoon salt, one-half cup sugar, one-third cup shortening, one and one-half cups sweet milk, one egg and yolk of another, one cup pecan nut meats broken in pieces. Mix and sift flour, baking powder and salt. Rub in shortening with tips of fingers, add sugar, beaten egg and milk slowly, stirring constantly until mixture is smooth. Add nut meats dredged with one-fourth cup of flour. Turn mixture into a buttered brick-shaped bread pan, let rise twenty minutes. Bake one hour in a moderate oven.

RECIPE 1002. QUICK SPONGE NUT BREAD.

For one cup sponge (see 996) add one cup chopped nuts, work them in with enough flour to make a dough that will not stick to board. Put in square pan, let rise till double in size. Bake one hour.

RECIPE 1003. NUT BREAD NO. 2.

- | | |
|--------------------------------|------------------------------------|
| 1 cake Fleischmann's yeast | $\frac{1}{3}$ cup sugar |
| 1 cup milk, scalded and cooled | 2 tablespoons shortening |
| 1 tablespoon sugar | White of one egg |
| 3 cups sifted flour | $\frac{3}{4}$ cup chopped wal-nuts |
| | $\frac{1}{3}$ teaspoon salt |

Dissolve yeast and one tablespoon sugar in luke-warm milk, add one and one-fourth cups flour and beat thoroughly. Cover and set aside in warm place fifty minutes, or until light. Add sugar and shortening, creamed, white of egg beaten stiff, nuts, remainder of flour, or enough to make a dough, and the salt. Knead well. Place in greased bowl. Cover and set aside for about two and one-half hours to rise or until double in bulk. Mold into a loaf or small finger rolls, and fill well greased pans half full. Protect from draft and let rise until light—about one hour. Loaf should bake forty-five minutes, finger rolls six to eight minutes.

This recipe will make one medium sized loaf, or one dozen rolls.

RECIPE 1003B. SANDWICH ROYALE.

Remove all of the crust from a loaf of bread, then cut the loaf the long way of the loaf into five or six slices. Butter each slice. Now on each slice place a different sandwich mixture. These mixtures can be varied, but the following makes a nice combination:

1st slice deviled ham

2nd slice minced
chicken

3rd slice canned
pimientoes

4th slice lettuce

OR

1st slice minced olives
and cheese

2nd deviled egg
3rd canned pimientoes

4th any cold meat
minced

With the exception of the pimiento, which is laid on slice without chopping, all the other ingredients are mixed with mayonnaise to make a paste that will spread on.

Place the long slices (each spread with a mixture) one on top of another (just as in a layer cake). The top slice is turned with butter side down as in any sandwich. Press the loaf gently together to squeeze out superfluous filling, then place sandwich loaf between two plates for half an hour to press well together.

When ready to serve slice down as you do a layer cake, making slices about a half inch thick. Always have the pimiento in the center of the sandwich. The different fillings varying in colors please the eye as well as the palate. These sandwiches are not practical for packing, as they fall apart too easily, but for dainty home serving are very nice.

RECIPE 1004. DATE BREAD.

1 cup warm wheat	$\frac{2}{3}$ cup walnut meats
mush	$\frac{2}{3}$ cup dates
1 teaspoon salt	1 cup yeast sponge
$\frac{1}{3}$ cup sugar	See Recipe 1003
1 tablespoon shortening	

Flour to make a moderately stiff dough

Use the sponge in usual way, adding the warm mush. When kneading down the dough into loaves, work in the chopped nuts and dates. This recipe is suitable for a small family.

RECIPE 1005. RAISIN BREAD.

Work in two cups of Sultana raisins when kneading loaves ready for pans.

RECIPE 1006. WHOLE WHEAT BREAD.

Use the sponge from Recipe 996. Add whole wheat flour to make dough just easy to handle well. Follow directions for making the loaves, baking, etc., from the recipe for Two-Hour bread, Recipe 996. If desired, one-fourth cup molasses may be added to the sponge before adding the flour.

RECIPE 1007. GRAHAM BREAD.

Follow Recipe 996, substituting graham flour for white flour. Add one-fourth cup molasses to the sponge before adding the flour to make the dough into loaves. If some white flour is desired instead of all Graham use two-thirds of Graham and one-third of white flour.

RECIPE 1008. SOFT GRAHAM BREAD.

One and a half cups of warm water, three tablespoons of molasses, two tablespoons of fat, two teaspoons of salt, one-half yeast cake, dissolved in one-quarter of a cup of lukewarm water, one and a half cups of white flour and three cups of graham flour.

Combine the first four materials while warm. Add the dissolved yeast. Beat in the combined flours. Stand till double in bulk. Beat again. Put in two greased pans, let dough double again and bake one hour in moderate oven.

RECIPE 1009. MILK BREAD (OVER NIGHT).

Scald 1 pint sweet	$\frac{1}{4}$ cup sugar
milk	1 yeast cake dissolved in
3 tablespoons shortening	$\frac{1}{4}$ cup tepid water
2 teaspoons salt	6 cups sifted flour

Scald milk with shortening, sugar and salt. When it becomes lukewarm add dissolved yeast cake, add enough flour to make a stiff sponge. Set away over night out of draughts in a warm place. In morning work down with enough flour to make a dough that will not stick to board. Set in greased bowl to rise. When light work down into loaves. Put into greased pans, let double in bulk. Bake forty-five minutes.

RECIPE 1010. RYE BREAD.

1 cup boiling water	$\frac{1}{3}$ cup brown sugar
1 cup scalded milk	$\frac{1}{4}$ yeast cake dissolved in
1 tablespoon lard	$\frac{1}{4}$ cup tepid water
1 tablespoon butter	3 cups flour
1 $\frac{1}{2}$ teaspoons salt	Rye meal to make a dough to knead

Add lard, salt, sugar and milk to the boiling water. When it is lukewarm, add yeast water, then flour. Follow directions under Recipe 1014 and let sponge rise. When ready to work down the sponge, add enough rye meal to make a dough stiff enough to knead well. Work it about twenty minutes and set it away to rise. When light and spongy work down into loaves, set again to rise. When light, bake it until it is done—about forty-five to sixty minutes.

RECIPE 1011A. GERMAN RYE BREAD.

In a quarter cup of lukewarm water, to which you have put a small teaspoon of white sugar, dissolve half a cake of yeast. Turn this into a wooden bread bowl with a pint of lukewarm water, a heaping teaspoon of salt and one of caraway seed and two cups of rye flour. Stir well and let it rise in a warm place for two hours. It should be full of bubbles when ready to work. Put with it sufficient rye flour to make a very stiff dough, work it hard for ten minutes, let it rise two hours more and knead again—this time on a floured board. Put the loaves in pans and when they have risen so that they begin to crack on the surface dip your hand in cold water, wet the loaves and put them in the oven. Bake an hour, and do not open the door until the bread has been in ten minutes. The oven should be very hot at first. Cover the bread with paper as soon as it is brown on top.

RECIPE 1011B. SALT RISING BREAD.

First Part.

1 pint luke warm water	3 tablespoons corn meal
1 teaspoon salt	33 level tablespoons flour

To luke warm water add the salt, corn meal and 30 tablespoons sifted flour. Beat very smooth. Sprinkle 3 more tablespoons sifted flour over this mixture and let stand in warm place five hours. By that time clear water will have risen to the top, drain this off, throw it away. Beat the mixture that is left thoroughly. Set away for one hour, when it should be very light and frothy.

Second Part.

1 pint luke warm milk $\frac{1}{2}$ teaspoon salt
3 tablespoons shortening 10 cups flour

Sift into a mixing bowl 10 cups flour and $\frac{1}{2}$ teaspoon salt. Make a "well" in the center; pour in the yeast (First Part), then add the pint luke warm milk. Stir well with a perforated spoon and stir until mixture is stiff enough for bread board. Knead well, work out into four loaves. Set to rise until light (about 45 minutes). Bake as you would any bread. See General Rules for Baking.

RECIPE 1012. BOSTON BROWN BREAD.

1 cup rye meal $\frac{3}{4}$ tablespoon soda
1 cup graham flour 2 cups sour milk, or
1 cup granulated 1 $\frac{3}{4}$ cups sweet milk
corn meal $\frac{3}{4}$ cup molasses

Add the soda to molasses, then stir in milk. Mix dry ingredients together and add to them the liquids. Stir until well mixed. Grease either some one-pound baking powder cans or a five-pound lard bucket. Grease lids also. Turn dough in, but do not fill cans over two-thirds full, as dough will rise to the top. Place the vessels containing the dough into a deep kettle, half full of boiling water. Let them steam about three and a half hours. Keep the vessels surrounded by the boiling water about half way up all the time and add water as needed to keep it at this height. Fine when cooked three hours in fireless cooker.

RECIPE 1013. BAKED BROWN BREAD.

1 cup molasses 1 $\frac{3}{4}$ teaspoons soda
3 cups buttermilk or $\frac{1}{2}$ teaspoon salt
sour milk 2 cups bread flour
2 eggs About 5 cups graham
flour

Mix in order given, diluting the soda in a tablespoon of hot water. Enough graham flour should be added to make a stiff batter. Bake in pound-size coffee cans for

an hour, filling them two-thirds full. This makes three loaves.

RECIPE 1013B. POTATO BREAD.

1 yeast cake	3 tablespoons shortening
$\frac{1}{2}$ cup tepid water	$\frac{1}{4}$ cup sugar
1 medium sized potato	3 tablespoons salt
boiled	5 to 6 quarts sifted
$1\frac{1}{2}$ pints potato water	flour
Makes 5 or 6 loaves	

Dissolve yeast cake in tepid water. Let it stand in this while you boil one potato until soft, then mash it well and add it again to water in which it boiled. Have one and one-half pints of this water, which with the yeast water will make two quarts of liquid. When potato is mashed add the shortening, salt, sugar; stir well until all are mixed and the shortening is melted. When the potato water has become tepid add yeast water. Now gradually add sifted flour. If you have a Universal Mixer, put mixture all into the mixer and stir until dough forms a ball and leaves sides of the mixer. Cover it over with tin lid and let it stand until dough has doubled in size. It will rise more slowly in winter than in summer. See Recipe 996 for kneading, shaping and baking bread.

If Parker House Rolls are desired take one-fifth of the dough and set it away in a cool place within an hour of wanting them. See Recipe 997 for shaping and baking rolls.

Bread set at night should be baked and out of the oven by 10 o'clock the next morning. If the sponge is set about 8 o'clock in the morning the bread should be baked and out of the oven about 4 p. m.

RECIPE 1015. FRENCH ROLLS.

Scald 1 quart milk	$\frac{1}{4}$ cup sugar
with	Soak 1 cake com-
1 tablespoon salt	pressed yeast in
2 tablespoons butter	$\frac{1}{4}$ cup luke warm water

When milk has grown luke warm take one and one-half pints compressed yeast dissolved in luke warm water. Stir in enough flour to make a batter; beat well, cover and set in a warm place until very light. Now add the other half pint of luke warm milk and go on adding flour until you have a dough stiff enough to knead. Knead this thoroughly for twenty minutes, put back in bowl and when it has doubled its bulk, roll it out carefully in long narrow strips. Cut in pieces about four

inches long, put in a pan so they will not touch each other; cover, and when very light, bake in a quick oven fifteen minutes. French roll pans can be purchased at any good hardware store, and are to be preferred.

Cover and set aside in a warm place to rise, for about two hours, or until dough has doubled in bulk. Roll out in oblong piece, one-fourth inch thick. Brush with melted shortening. Sprinkle with sugar, currants and cinnamon. Roll up lengthwise and place in a circle on a large, shallow greased pan or baking sheet. With scissors cut three-fourth inch slices, almost through. Turn each slice partly on its side, pointing away from center. This should give the effect of a many-pointed star, and show the different layers with the filling. Cover and let rise one hour, or until light, and bake twenty-five minutes. Just before putting in oven, glaze with egg, diluted with milk. Ice while hot with plain frosting.

This recipe will make one large or two small rings.

RECIPE 1023B. GENERAL RULES FOR BAKING POWDER BISCUITS.

Many cooks never make good biscuits, yet they are delicious if properly prepared. Flours vary, therefore the amount of milk or water must also vary, but have the dough soft and moist. Sift dry ingredients well together (two or three times is better than only once). Melt the shortening and add to milk. If an egg is used, beat it until creamy, and add to dry ingredients, alternately with the milk and shortening. If biscuits are cut too large they do not bake well to center before the biscuit browns. The bottom of a $\frac{1}{4}$ -pound baking powder can (with a hole punched in end) makes biscuit an ideal size. Place close together in slightly greased pan. Spread lightly with a little melted shortening. After cutting biscuits and putting them in pan, let them stand about five minutes over a gentle heat before putting in oven; this is long enough if cream of tartar baking powders are used. In using phosphate powders let biscuits stand 15 to 20 minutes before baking. Bake about 15 minutes in hot oven.

RECIPE 1024. BAKING POWDER BISCUITS.

Makes twelve.

1 cup flour	$\frac{1}{4}$ teaspoon salt
1 teaspoon baking powder	1 tablespoon shortening
	$\frac{1}{2}$ cup sweet milk

See General Rules for Mixing and Baking.

RECIPE 1025. SOUTHERN BISCUIT (FOR TWO).

1 $\frac{1}{2}$ cups flour	$\frac{1}{2}$ cup milk
1 $\frac{1}{2}$ teaspoons baking powder	4 teaspoons shortening
$\frac{1}{2}$ teaspoon salt	1 egg
1 teaspoon sugar	

See General Rules for Mixing and Baking Biscuits.

RECIPE 1026. BISCUIT COFFEE CAKE (FOR TWO).

Make Recipe 1025 and roll out one inch thick. Sprinkle with one cup chopped dates, almonds, figs, mixed together. Roll little thinner, sprinkle with granulated sugar. Lay on greased shallow pan, bake in hot oven. Break in squares, serve hot.

RECIPE 1027. SANDWICH BISCUITS.

Make Recipe 1024. Roll the dough thin, like pie crust, cut, spread half the rounds with butter, add a filling of seasoned, finely ground, cooked ham, then lay on the covers and bake.

RECIPE 1028. MARMALADE BISCUITS.

Sift together

1 cup flour

$\frac{1}{4}$ teaspoon salt

1 teaspoon baking
powder

Beat 1 egg creamy

$\frac{1}{3}$ cup sweet milk

Add milk and egg alternately to dry ingredients. No shortening is used. Knead the dough lightly and roll thinner than biscuits are usually made. Cut the rounds with a cooky cutter or the open end of a pound baking powder can. From half of the rounds remove the centers with a smaller cutter. Spread the whole rounds with melted butter, lay one of the dough rings on each and fill the centers with any stiff marmalade before baking.

RECIPE 1029. HOT CROSS BISCUITS FOR TWO.

1 cup flour

$\frac{1}{4}$ teaspoon salt

1 teaspoon baking
powder

$\frac{1}{4}$ teaspoon each, cin-
namon, nutmeg

1 egg

2 tablespoons currants

1 teaspoon chopped
citron

$\frac{1}{4}$ cup sweet milk

1 tablespoon melted
butter

Sift dry ingredients, add currants and citron. Beat egg creamy. Melt butter and add to milk. Add milk and shortening alternately with egg. Flours vary, so use just enough milk to make a rather firm dough. Roll an inch thick, cut in large rounds, cut two gashes at right angles across the top of each, and moisten the tops with milk before baking. Some cooks like to fill the cross cuts with sugar.

RECIPE 1030. NUT "DROP" BISCUITS FOR TWO.

Sift together

1 cup flour	Melt 2 teaspoons
$\frac{1}{4}$ teaspoon salt	butter and add to
1 teaspoon baking powder	$\frac{1}{2}$ cup milk
	$\frac{1}{4}$ cup chopped nuts

Add $\frac{1}{4}$ cup of chopped nuts to dry ingredients, add milk and butter slowly. Flours vary in strength; add enough milk to make a thick batter. Drop the dough from a spoon onto well greased pan, leave an inch apart so that "Drops" have room to swell.

RECIPE 1031. ENGLISH SWEET BUNS.

Use Recipe 1025 for dough and add one tablespoon candied peel (orange, lemon, citron, etc.), grated rind of $\frac{1}{4}$ lemon, grated rind of $\frac{1}{4}$ orange. Mix flour, salt, sugar and baking powder together and sift three times. Add the well beaten egg, saving out one tablespoon of egg to paint the buns with. Add milk and shortening slowly, then add the candied peel, cut in small pieces, also grated lemon and orange rind. Mix well, place in well buttered tins. Add one teaspoon cold milk to the one tablespoon egg saved from the buns and paint them over well. Bake in hot oven one-quarter hour. Serve hot.

RECIPE 1032. CLOVER BISCUITS.

Use recipe 1024 for biscuit dough. Cut into rounds an inch in diameter. You can use the center of round loaf cake pan, inverted, as a cutter. Place the tiny rounds in threes in greased gem cake pans and glaze the tops with egg yolk mixed with a little water. When baked, the group of three from each mold will come out in clover leaf shape.

RECIPE 1033. BISCUIT BRAIDS.

Make biscuit dough, Recipe 1025. To one-third of the dough add grated chocolate and spices to darken. Cut dough into narrow strips and braid two white strips with one dark one. Twist ends of each braid carefully. Moistening them with white of egg makes the ends stick together better. Instead of making individual braids, you can, if you prefer, make one long braid and bake it coiled in a wreath around a cup set upon a baking sheet, or you can use a round cake pan.

RECIPE 1034. SWEET POTATO BISCUIT.

Put 1 cup of boiled mashed sweet potatoes into a basin, add one tablespoon of sugar and one tablespoon of

melted butter. Dissolve half a teaspoon of baking soda in 1 cup of buttermilk, then add 2 cups of sifted flour and one teaspoon of salt. Mix, roll out, cut with a small biscuit cutter and bake in a quick oven.

RECIPE 1035. DATE TRIANGLES.

Make Recipe 1025 for biscuit dough. Add $\frac{1}{2}$ cup chopped dates to the dough. Roll thin, cut into three-inch squares, then cut each square into two triangles. Glaze with sugar and milk before baking. If pastry flour is substituted for bread flour, they will be particularly delicate. As pastry flour packs more than bread flour, it should be sifted several times.

RECIPE 1036. SALAD STICKS.

Make Recipe 1024 for biscuit dough. Cut your dough into finger-shaped strips, leaving a little space between "fingers" as they bake. When nearly done, remove from the oven, spread quickly with melted butter and grated cheese, sprinkle lightly with salt and paprika, return to oven to brown. These are nice to serve hot with salad. If the cheese were spread on at first, it would be overcooked.

RECIPE 1037. DATE STICKS.

Beat together one cup of sugar, three eggs that have been whipped until light, one cup of flour, one teaspoon of baking powder, two teaspoons of vanilla, one cup of chopped dates and one cup of chopped English walnuts. Spread the mixture thinly over the bottom of shallow pans and bake quite brown in a moderate oven. When the mixture is baked cut it into sticks of any desired size and roll them while warm in powdered sugar. Or may be cut into squares and served with whipped cream. This makes a delicious dessert.

RECIPE 1038. QUICK COFFEE CAKE FOR TWO.

Make Recipe 1025 for dough. To this dough add $\frac{1}{4}$ cup currants, $\frac{1}{4}$ cup chopped raisins. Turn into a well greased biscuit pan and bake in a moderate oven from twenty to thirty minutes, according to the depth of the pan. If the cake is baked in a small, deep pan it will take longer to cook than if a larger and shallower pan is selected. Sprinkle powdered sugar and cinnamon over the top of the cake when serving, or, if to be used cold, make a thin sugar and water icing and spread this over the cake when it is cool.

RECIPE 1039. DUTCH APPLE OR PEACH CAKE.

Make Recipe 1025 for dough. Flours vary, add enough milk for a very thick batter. Spread dough 1 inch deep in greased shallow tin; have ready several pared, cored and sliced apples or peaches. Press points into dough, sprinkle thickly with sugar mixed with little cinnamon. Bake in hot oven.

RECIPE 1040. BEATEN BISCUIT.

2 cups flour	1 cup milk or water, or
$\frac{1}{2}$ teaspoon salt	$\frac{1}{2}$ cup of each
1 tablespoon shortening	

When the flour and salt have been sifted together rub in the shortening until thoroughly incorporated. Mix these with the liquid, having the dough rather stiff. Turn it onto a lightly floured board, and beat with a rolling pin until the dough becomes perfectly smooth and small bubbles or blisters form, about 15 minutes. Roll thinly, cut into biscuits and prick with a fork. Bake in a moderate oven until the biscuits are a delicate brown color. This will take about fifteen minutes. The edges of the biscuit should crack slightly during the baking and the centers should be very fine grained and pure white in color.

RECIPE 1041. SKON BREAD.

Make 1024 dough. Heat cake griddle or an iron frying pan. Grease very lightly. Roll the biscuit dough one-fourth of an inch thick and about the size of a breakfast plate. Put it on griddle and bake one or two minutes, then turn with a knife or pancake turner and cook on other side for a minute or two, just until dough is cooked through. Serve at once very hot. This makes a fine emergency bread for camping parties without bake ovens. Can be cooked over a camp fire in a long-handled frying pan. Fried bacon grease can be used for shortening. Allow about two teaspoons bacon grease for each cup of flour. This recipe will make two "Skons." Do not roll it too thick or it will burn before dough is cooked to center.

RECIPE 1042. WAFFLES.

1 pint milk or cream	3 tablespoons melted
2 or 3 eggs	butter
$\frac{1}{4}$ teaspoon salt	4 level teaspoons bak-
2 cups flour	ing powder

Beat the eggs separately, having whites beaten to a very stiff froth. Add yolks to milk. Sift flour and bak-

ing powder together into the milk, and last fold in whites of eggs. If sour milk is used, and it really makes the best waffles, use also a half teaspoon of baking soda, but use the baking powder just the same. If milk is not very sour, use one-fourth teaspoon soda only.

RECIPE 1043. GRIDDLE CAKES.

Make the same dough as in Waffles, only bake the cakes on a griddle.

RECIPE 1044. WHEAT MUFFINS.

Use same dough as in Waffles, only bake dough in well-buttered muffin rings, in a hot oven about fifteen minutes.

RECIPE 1045. LEFT-OVER CEREAL FRUIT MUFFINS.

$\frac{1}{2}$ cup cold cooked cereal	4 teaspoons butter
$\frac{3}{4}$ cup flour	2 teaspoons sugar
1 teaspoon baking powder	1 egg
$\frac{1}{4}$ teaspoon salt	$\frac{1}{3}$ cup milk
	$\frac{1}{3}$ cup dates or figs

When flour, salt and baking powder have been sifted together, rub the butter in lightly with tips of the fingers; add fruit, floured and coarsely chopped; then cereal and sugar. Mix to a light dough with well-beaten eggs and milk. Have dough quite a little stiffer than is usual for muffins, in view of the fact that it is partly composed of cooked cereal, which has already absorbed all the moisture that it is capable of taking up, and if the muffin batter should be made as soft as where all dry flour is used, the muffins would be sticky when baked.

RECIPE 1046. SOUTHERN RICE BREAD.

1 cup white corn meal	1 tablespoon shortening
1 egg	$\frac{1}{4}$ teaspoon salt
$\frac{2}{3}$ cup milk	2 teaspoons baking powder
$\frac{1}{2}$ cup cold boiled rice	

Beat the egg until light without separating; add the milk, meal, salt, rice and melted shortening. Beat thoroughly for two minutes, add baking powder and mix again. Grease deep pie dish, turn in the mixture and bake in a hot oven thirty minutes.

RECIPE 1047. FRUIT MUFFINS.

Make 1042. To it add one cup currants or blueberries. If desired a little sweet add one-fourth cup sugar.

RECIPE 1048. PUMPKIN MUFFINS.

2 cups flour	2 eggs
$\frac{1}{2}$ teaspoon salt	1 cup cooked sifted pumpkin
2 teaspoons baking powder	$\frac{1}{4}$ cup melted butter
	$\frac{2}{3}$ cup of milk

Sift together all dry ingredients; beat eggs lightly and add to them the milk and the pumpkin; use the liquid to moisten the muffins. Melt the butter and pour it into the mixture. Beat very thoroughly, turn into hot greased pans, and bake about 20 minutes in a hot oven.

RECIPE 1049. PUMPKIN WAFFLES.

1 $\frac{1}{2}$ cups flour	1 cup pumpkin pulp
$\frac{1}{2}$ teaspoon salt	2 tablespoons melted butter
2 teaspoons baking powder	1 level teaspoon ground ginger
2 eggs	
1 cup milk	

Sift together flour, salt, baking powder and ginger. Beat the eggs until quite light, add milk to them, also the pumpkin pulp. Add these to the dry ingredients, beating and mixing thoroughly, so as to make a smooth batter. Melt and add the butter last of all; then bake just the same as ordinary waffles.

RECIPE 1050. RICE OR HOMINY GRIDDLE CAKES, WAFFLES OR MUFFINS.

To Recipe 1042 add one cup cold boiled rice or hominy grits.

RECIPE 1051. DATE WAFFLES.

To Recipe 1042 add one cup stoned dates, chopped through grinder.

RECIPE 1052. GRAHAM GEMS.

1 cup sour milk	1 $\frac{1}{4}$ cup graham flour
1 egg	$\frac{3}{4}$ teaspoon baking soda
1 teaspoon salt	$\frac{3}{4}$ cup molasses

Add soda, molasses and salt to the milk, sift in the flour. Stir well and pour into well-buttered iron gem pans.

RECIPE 1053. POPOVERS.

1 cup sweet milk	$\frac{1}{4}$ teaspoon salt
3 eggs	$\frac{1}{2}$ teaspoon cream of tartar
1 cup flour	

Beat yolks until creamy. Beat whites about half done, then add to them the cream of tartar, beat until very dry. Add yolks to milk and salt, then add flour, and last fold in beaten whites of eggs. Put one-fourth teaspoon of butter in bottom of each muffin pan (iron gem pans are best). Bake in a hot oven about fifteen to twenty minutes. Serve at once.

RECIPE 1054. CORN MEAL PARKER HOUSE BISCUIT.

1 cup flour	$\frac{1}{2}$ teaspoon salt
$\frac{1}{4}$ cup corn meal	1 tablespoon butter
1 teaspoon sugar	1 egg
2 teaspoons baking powder	$\frac{1}{2}$ cup milk or water

See rules for mixing Baking Powder Biscuits.

RECIPE 1055. ST. CHARLES CORN BREAD FOR TWO.

Sift together	Then beat together
1 cup yellow corn meal	1 tablespoon melted butter
$\frac{1}{2}$ teaspoon salt	1 egg
1 teaspoon baking powder	1 cup milk

Add liquids to dry ingredients and beat hard for two minutes. Pour into well greased, shallow pan and bake in moderate oven twenty-five minutes.

RECIPE 1056. CORN PUFFS FOR TWO.

$\frac{3}{4}$ cup corn meal	2 tablespoons sugar
$\frac{3}{4}$ cup white flour	1 egg
$\frac{1}{4}$ teaspoon salt	$\frac{3}{4}$ cup sweet milk
1 teaspoon baking powder	

Sift together dry ingredients, then add the yolk of the egg lightly beaten, and the milk. When these are thoroughly beaten in, add the butter, melted but not heated any more than is absolutely necessary. Last of all, fold in the stiffly beaten white of egg and bake the puffs in small, greased gem pans in a hot oven.

RECIPE 1057. SOUTHERN SPOON CORN BREAD.

One-half cup corn meal, one cup cold cooked rice, one tablespoon butter, one-half teaspoon salt, one egg

well beaten, one teaspoon baking powder, three-fourths cup milk. Wet corn meal with boiling water and stir until the consistency of mush. Add rice, butter and salt and let stand over night or several hours during the day. Then add egg and milk. Sift baking powder into mixture. Beat well and pour into a well-buttered, shallow pudding dish and bake thirty-five minutes in a moderate oven. Dot over top with small bits of butter when almost done. Serve with a spoon.

RECIPE 1058. EGG BREAD.

1 pint boiling water	1 tablespoon lard
1 cup corn meal	1 cup milk
1 teaspoon salt	2 eggs

Place the boiling water in a mixing bowl and sift the corn meal into it, stirring all the time. Next add the salt and the lard, then the milk and, last of all, the eggs very thoroughly beaten. Turn into a well-greased baking pan and bake in a quick oven. Serve piping hot and butter the bread generously.

RECIPE 1059. OLD FASHIONED JOHNNY CAKE.

1 cup flour	1 ½ teaspoons salt
1 cup yellow corn meal	2 teaspoons baking powder
¼ cup sugar	
1 tablespoon melted shortening	1 egg well beaten
	1 cup milk

Beat all well together, pour into greased pan. Bake in moderate oven twenty-five minutes.

RECIPE 1060. DUMPLINGS FOR MEAT STEWS.

2 cups flour	½ teaspoon salt
3 level teaspoons baking powder	1 egg (beaten well)
	½ cup cold water

Sift dry ingredients together, beat egg thick and light, add one-half cup of cold water, stir this into the dry mixture and enough more water to make a dough stiff enough to hold its shape when dropped from the spoon. Drop the dumplings on a plate a little distance apart and cook in a closely covered steamer for fifteen minutes; or, drop them on top of the boiling stew and cook for the same length of time. The secret of having them light and tender lies in their not being disturbed while cooking, and in not having much liquid around them, if cooked on top of the stew.

RECIPE 1061. POTATO DUMPLINGS.

Grate or put through vegetable press about six medium-sized cold boiled potatoes, add a little salt, one egg and one cup flour, mix thoroughly (if necessary add a little more flour in handling). Take a little at a time, roll in palm of hands either lengthwise or into balls and drop into boiling salted water. Skim out when they come to the top and let drain. Pour over them cracker crumbs browned in butter.

RECIPE 1062. DUMPLINGS FOR SOUP.

One cup flour, $\frac{1}{4}$ teaspoon salt, 1 teaspoon baking powder, sifted together. Add $\frac{1}{3}$ cup finely chopped suet, and enough milk to make stiff dough. Make into dumplings size of marbles, drop into soup, cover, and boil 10 minutes.

RECIPE 1063. MRS. W'S MARROW BALLS FOR SOUPS.

Take the marrow size of an egg from a soup bone, crush it with a fork, add 1 tablespoon chopped parsley, 1 egg, salt, pepper to taste, a scant teaspoon cream.

Take enough bread crumbs to make into soft mass. Shape into balls, set away to cool. Cook about ten minutes in boiling stock or soup.

HELPFUL HINTS.

To freshen the atmosphere in a room put a few drops of oil of lavender in a bowl and add a pint of boiling water to it.

Celery should be thrown into slightly salted ice water before using. This will make it crisp.

Flowers should be put into a vase which has a little charcoal in it. The charcoal sinks to the bottom of the vase while the water remains clear. The flowers will remain fresh for several days.

Every household should have a bottle of linseed oil and lime water for instant application in case of burns. Dip a piece of absorbent cotton in it and apply to the burn and bandage it on.

Two pounds of alum dissolved in 3 quarts boiling water will make a solution which if applied to all cracks or crevices will drive away all bedbugs, roaches and ants.

MY FAVORITE HAND LOTION.

Once Tried You Will Never be Without it.

Equal parts of glycerine, bay rum, ammonia and lemon juice. Druggists usually fill this prescription, putting up sixteen ounces for 35 cents. Use full strength on hands when retiring; rub it in well. Keep an extra bottle near the kitchen sink and use it after any work which is hard on the hands, but when using it in the daytime dilute it a trifle as it is slightly sticky.

Chloride of lime sprinkled freely in the cellar will drive away rats and mice. Repeat the operation every three or four months.

If you put an apple into the cake box it will keep the cake fresh.

Grease spots on the floor should be moistened with soda and cold water before scrubbing.

Cucumber peelings will frequently drive away roaches.

Screen doors brushed with kerosene will help keep out the flies.

Fruit should be rolled in a little flour before adding it to cake. This will keep it from sinking to the bottom of the cake.

In making fruit gelatine, stir it two or three times after it begins to harden. The fruit will not all settle on top if this is done.

The yolks of eggs which are left over to be used another day should be covered with a little cold water. This prevents a crust forming.

If a can of pimientoes is opened and all are not used, put the balance into a jelly glass and cover with parafine until ready to use.

If a drawer sticks rub it with lard or soap.

In newly finished bungalows the pitch in the wood may ooze out, making the stained woodwork sticky. This may be removed by applying a cloth wet in diluted vinegar:

A teaspoon of butter added to frosting keeps it from drying out.

In making boiled icing, if the syrup is removed from fire and poured over the eggs before the syrup is quite done, it is found that it will not harden. When well beaten put it into the double boiler for four or five minutes, without stirring. It will then be found to spread nicely.

When washing mirrors or window panes, put a few drops of household ammonia on a piece of soft paper and every finger mark will vanish.

Salt rubbed on egg stains on silver will remove them.

Dry all bread crusts in oven and use for deep fat frying. When crusts are perfectly dry put them through the finest tooth meat grinder and then put away in jars. If weather is very damp dry them out in the oven occasionally so they will not mould. Bread crumbs are better than cracker crumbs for deep fat frying because they do not absorb the fat so readily.

Cracker crumbs are best for the layers in most of the escalloped dishes. The top layer of either bread or cracker crumbs should be lightly buttered. This is easily done by melting a little fat in a frying pan and adding the crumbs to it and stirring well. These may be kept in this way several days in a cool place.

Make enough pie dough for several days. It is all the better for standing in a cool place.

Parafine wax is preferable for oiling the cake pans. Keep a piece handy, warm the pans slightly and rub with the wax.

When the lettuce comes from the garden or market it should be looked over, washed thoroughly and placed in a clean wet cloth. Lay it on the ice. It should be looked at each morning, but will keep a week and is all ready for use without further washing. Lettuce must be perfectly dry before adding it to a salad or before pouring salad dressing over it.

In making a rice pudding, boil the raisins in water for ten minutes before adding them to the milk and they will never curdle the milk.

Never serve tea when you have fish. The tannic acid in the tea makes the fish very hard to digest.

Copper may be easily brightened by rubbing it with a flannel cloth dipped in powdered borax and then well soaped, then applied briskly to the copper.

When measuring out molasses first dip the cup thoroughly in flour. The molasses will then run out readily.

When preparing celery for the table take lower end of root and coarse outer stalks with unbleached leaves, trim and scrub well, then lay on paper on pantry shelf or in cool cupboard and dry. Can be used to flavor soups, scalloped potatoes, etc., when fresh celery is not available.

To drive away moths; wet little wads of cotton batting with oil of cedar and place them in the closets and drawers.

To take the printing from flour sacks, saturate sack in kerosene and roll tightly for an hour or more, then wash sack in warm soap suds and rinse.

If you wish your hydranga to be blue, instead of pink, put it in a zinc tub, or put nails or iron close to the roots.

How to tell how much ice the iceman leaves. Buy a cheap spring scale that will weigh from 1 to 50 lbs. Hang it by the ice box and when the iceman makes a delivery, tie a strong piece of wrapping twine around the piece of ice and insert the hook of the scale and weigh. You will be surprised how a 10-lb. piece will shrink to 7 or 8 pounds, or a 25 to 20 pounds.

To remove ink stains, place article over a bowl, cover stain with borax, wet borax thoroughly with peroxide, using plenty of peroxide, and stain will almost immediately disappear.

When making jelly, instead of using parafine to seal it, I wait until jelly is cold, then take a teaspoon of sugar and sprinkle on evenly. The sugar will candy and with this aid the jelly will keep perfectly if a piece of paper is tied over the glass and the tin lid is adjusted.

If your crackers are limp crisp them in the oven before making a stuffing with them.

Every man ought to take a lesson on carving.

Dredge your lamb with flour before you sear it.

If the citron is hard to cut, put it into a warm oven for two or three minutes. It will then cut easily.

If the paper which comes around raisins and currants is inclined to stick to them, put the package into a warm oven for a minute or two and paper will readily come off.

Do not scrape the agate vessels to remove the scorched contents. Keep a can of concentrated lye in the kitchen and when a vessel becomes scorched put in a little lye, cover with an inch of water, let it come slowly to the simmer, and remain cooking very slowly for about five minutes. Pour off the lye water and the scorch will come off easily.

When the recipe calls for the cake pans to be greased, just before putting in the cake dough shake a little flour into the pan and then shake out all that will come out. This flouring process assists the cake to come out easily and leaves a nice smooth surface on which to put the frosting.

Plum puddings can be cooked in the double boiler without fear of their burning.

When waffle iron is new, fill it full to running over with melted lard. Let it stand over night. In the morning burn off this lard and fill it with fresh lard and let stand another day. It is then ready for use. Do not wash the waffle iron. Simply wipe it clean from day to day.

Put patty shells in the oven to get crisp before using them.

To clean a clogged drain pipe, before sending for the plumber, pour a cupful kerosene down the pipe and immediately pour after it a kettle of boiling water.

If a dress becomes stained with lemon juice, put some ammonia water on the spot. It will frequently restore the color.

Scraped raw potatoes applied at once to a burn will give relief. It is said that if peroxide of hydrogen is applied at once to a burn there will be no blister.

Keep a pair of shears over your kitchen table or some place close at hand. You need them to cut threads in trussing and for many other things.

Don't use mutton fat for anything. It tastes wooley. Use salt pork fat.

Be careful not to pierce the skin when you are searing a lamb or any other meat for that matter.

Cook dark meats rare and light meats well done.

SOUR CREAM ICING.

$\frac{2}{3}$ cup sour cream 2 cups granulated sugar
 $\frac{1}{2}$ teaspoon orange or vanilla extract

Combine sugar and cream and boil gently without stirring until it threads. Cool until tepid, add flavoring, and beat until creamy, when it can be spread quickly over the cake. This makes a cream-colored frosting.

COCOANUT PUFFS.

3 egg-whites 1 cup granulated sugar
 $2\frac{1}{2}$ teaspoons corn-starch 2 cups shredded cocoanut
1 teaspoon vanilla

Beat egg-whites stiff and beat in the corn-starch mixed with the sugar. Cook in a double boiler, stirring all the time, until thick around the edges, remove from heat, add cocoanut and vanilla, drop on buttered tins, and bake fifteen minutes in a slow oven.
